Organizations

# Agenda

Challenge Process Overview

Who Can Participate?

Timeline

CostQuest

Registration Process

Challenge Types

Collecting Evidence

Submitting Challenges

After the Challenge Process

# WHAT IS THE CHALLENGE PROCESS?

The Challenge Process is the Indiana Broadband Office's **opportunity to gather the most accurate data possible** before awarding BEAD funds to internet service providers.

Crowdsources evidence to ensure the IBO can identify all unserved and underserved locations.

Ensures that those who know their communities best can provide accurate information and help the IBO best allocate its resources.

Provides the IBO with a comprehensive list of eligible locations before beginning subgrantee selection.

# WHAT DATA IS BEING CHALLENGED?

The NTIA requires that states begin with FCC Broadband Map.

The IBO must remove state-level “enforceable commitments,” locations that have already been awarded state funds for broadband service. This includes:

- NextLevel Connections
- Indiana Connectivity Program

**Base map for  
BEAD Challenge  
Process**

# WHO PARTICIPATES IN THE CHALLENGE PROCESS?

## PERMISSIBLE CHALLENGERS

**Nonprofit  
Organizations**

**Units of Local  
Government**

**Internet Service  
Providers**

## THE PUBLIC

Though the public will not directly submit challenges, public participation is a critical piece of the Challenge Process. Members of the public will guide permissible challengers in identifying locations to challenge, determining the right type of challenge, and gathering evidence.

**Necessary information will be collected by the public but should be funneled through a permissible challenger.**

# CHALLENGE PROCESS TIMELINE

WE  
ARE  
HERE

## COST QUEST LICENSING

### ASAP

As soon as possible, the IBO recommends permissible challengers obtain a CostQuest license.

## PRE-REGISTRATION

### MID FEBRUARY

Challengers can register on Ready.net ahead of the Challenge Process beginning. Registration will begin in mid-February.

## CHALLENGE PHASE

### MARCH 4 to APRIL 3

Challengers will have 30 days to submit challenges. Challengers can begin collecting evidence now!

## REBUTTAL PHASE

### APRIL 4 to MAY 3

After the Challenge Phase is complete, internet service providers will have 30 days to submit rebuttal evidence.

## FINAL DETERMINATION PHASE

### FINISHES JUNE 3

As rebuttals are received, the IBO will review all locations that have both challenge and rebuttal evidence and make a final determination.

# WHAT IS COSTQUEST?

- To administer the BEAD Program, Indiana was required to enter into a license agreement with CostQuest Associates, the owner of the location-level data set used by the FCC Broadband Map
- Because of this agreement, the IBO cannot make this data fully available to permissible challengers without them receiving their own CostQuest licenses.
- **All permissible challengers are eligible for free CostQuest licenses that are available by request.**

# COSTQUEST

## Who should get a CostQuest license?

- Permissible challengers who expect to submit many challenges should consider getting a CostQuest license.
- A CostQuest license is also appropriate for challengers who have the technical resources to complete data matching.

## How do I request a CostQuest license?

- There are two CostQuest license types – non-profits and local government units should request a **Tier E license**
- Request at:  
[apps.costquest.com/ntiatiererequest/](https://apps.costquest.com/ntiatiererequest/)

**IBO**

# **CHALLENGE PROCESS**

Challenge Process Logistics

# CHALLENGE PROCESS REGISTRATION

- The Indiana Broadband Office has partnered with Ready.net to provide its Challenge Process portal
- Permissible challengers will register and submit all challenges through the Ready.net portal
- Pre-registration for the Challenge Process has not yet begun, but is **expected to start in mid-February**
- Indiana's Challenge Process portal will be available at: [ConnectingIndiana.com](https://ConnectingIndiana.com)

# CHALLENGE PROCESS REGISTRATION

- A permissible challenger organization only needs to register once. After the organization is confirmed, multiple users can be added to the same organization.
  - Please do not register the organization more than once! All organization registrations will be reviewed before being approved.

## **Local Government Registration Requirements**

- Physical address
- Evidence to verify identity

## **Non-Profit Registration Requirements**

- Employer identification number (EIN)
  - Physical address
  - Evidence to verify identity

# CHALLENGE TYPES

	Availability	Speed
Description	The broadband service identified in the data is not offered at the location.	The actual speed of the service at the location falls below unserved or underserved thresholds.
Example Evidence	<ul style="list-style-type: none"><li>• Screenshot of provider website</li><li>• Refused service request (email or letter)</li><li>• A letter or email showing that provider failed to schedule a service installation</li><li>• A letter or email showing that provider requested more than the standard installation fee for location</li></ul>	<ul style="list-style-type: none"><li>• Set of three speed tests taken by subscribers showing insufficient speeds</li><li>• Must be taken on three separate days</li><li>• Must include proof of tier the subscriber is paying for</li><li>• All speed tests must be taken within 60 days of challenge</li></ul>

# CHALLENGE TYPES

	Latency	Data Cap
Description	The round-trip latency at this location exceeds 100 ms.	The only service plans available at this location impose an unreasonable data cap.
Example Evidence	<ul style="list-style-type: none"><li>• Set of three speed tests taken by subscribers showing latency</li><li>• Must be taken on three separate days</li><li>• All speed tests must be taken within 60 days of challenge</li></ul>	<ul style="list-style-type: none"><li>• Screenshot of provider webpage</li><li>• Service description provided by provider to consumer</li></ul>

# CHALLENGE TYPES

	<b>Technology</b>	<b>Business Service Only</b>
Description	The technology indicated for the location is incorrect.	The location is residential, but the service offered at location is only available to businesses.
Example Evidence	<ul style="list-style-type: none"><li>• Manufacturer and model number of residential gateway that demonstrates the service is delivered via a specific technology</li></ul>	<ul style="list-style-type: none"><li>• Screenshot of provider webpage</li></ul>

# CHALLENGE TYPES

	<b>Enforceable Commitment</b>	<b>Not Part of Enforceable Commitment</b>	<b>Planned Service</b>
Description	The challenger has knowledge that broadband will be deployed at this location.	The location was incorrectly removed from eligibility based on being part of an enforceable commitment.	The challenger has knowledge that broadband will be deployed at this location by June 20, 2024, without an enforceable commitment.
Example Evidence	<ul style="list-style-type: none"><li>• Authorization letter</li><li>• Legally binding agreement</li></ul>	<ul style="list-style-type: none"><li>• Declaration by service provider subject to the enforceable commitment</li></ul>	<ul style="list-style-type: none"><li>• Constructions contracts of similar evidence of on-going deployment, along with evidence that all permits have been applied for or obtained.</li></ul>

# CHALLENGE TYPES

	<b>Location is a CAI</b>	<b>Location is not a CAI</b>
Description	The location should be classified as a Community Anchor Institution.	The location was incorrectly labelled as a Community Anchor Institution but is not.
Example Evidence	<ul style="list-style-type: none"><li>Any evidence that the location falls within the IBO's definition of a CAI (see Volume 1 of Initial Proposal)</li></ul>	<ul style="list-style-type: none"><li>Any evidence that the location does not fall within the IBO's definition of a CAI.</li></ul>

# AREA AND MULTI-DWELLING CHALLENGES

- The Indiana Broadband Office opted to include area and multi-dwelling unit (MDU) challenges in its challenge process
- These challenge types **lower the burden of proof** for challenges so that if a certain number of locations within a single challenge type and provider are submitted, all locations within that area or MDU will be challenged

For example, if 6 locations in a single Census Block Group are challenged under the same challenge type, all locations with that same technology and provider in the CBG will be challenged.

If at least 3 units or 10% of the units in a single MDU are challenged under the same challenge type, all units with the same technology and provider in the MDU will be challenged.

**IBO**

# **CHALLENGE PROCESS**

Evidence Collection Tools

# COLLECTING EVIDENCE

[broadbandmap.fcc.gov](https://broadbandmap.fcc.gov)

The screenshot displays the FCC National Broadband Map interface. At the top left is the FCC logo and the text "Federal Communications Commission". To the right of the logo is the title "FCC National Broadband Map" and a "Sign In" link. The main area is a map of the United States with a blue overlay representing broadband data. A search bar is overlaid on the map with the text "Search by Address" and a sub-label "About". Below the search bar is a text input field with the placeholder "Enter address". Below the search bar are five buttons: "Location" (with a location pin icon), "Providers" (with a group of people icon), "Area" (with a map icon), and "Download" (with a download icon). The map shows various states and cities, including Portland, San Francisco, Las Vegas, Dallas, Houston, New Orleans, Jacksonville, Miami, and Havana. The Gulf of Mexico is labeled at the bottom. The mapbox logo is in the bottom left corner, and the text "© Mapbox © OpenStreetMap Improve this map" is in the bottom right corner.

# COLLECTING EVIDENCE

## ConnectingIndiana.com

When collecting evidence for speed challenges, please use the ConnectingIndiana.com speed test.

By using this speed test, you ensure that you have all the information needed to substantiate your challenge.

**When you complete a speed test for evidence, please download the test results PDF to use as evidence.**

**Thank you!**

Here are your results. If you weren't able to complete the survey, please take the test again.

For best results, take the test once per day for the next 7 days.

Please provide your email address for reminders to take the test several more times, as required by the rules of the challenge process.

Enter email  [Get alerts](#)

**You are Served** [Download Test Results](#)

Indianapolis, IN 46204, USA

# COLLECTING EVIDENCE

## SOON TO BE LAUNCHED PUBLIC PORTAL

Anyone from the public will be able to access this portal and submit a provider-level comment about an address.

### Select Comment Type

Please select which type of comment you would like to submit.

Availability

The broadband services reported as available at your location on the map are not actually available.

Speed

The actual speeds reported at your location on the map fall below the BEAD Program's eligibility thresholds.

Latency

The actual round-trip latency of services available at your location exceeds 100 milliseconds.

Data Cap

The services available at your location have a data limit below 600 GB/month.

Technology

The type of technology (ex: Fiber Optic, Cable, Etc.) reported as available at your location on the map is incorrect.

Business Service Only

The services reported on the map are available to Businesses only, not Residents.

Other

Use this option to submit a general comment about the broadband options available at your location.

Next

# COLLECTING EVIDENCE

## SOON TO BE LAUNCHED PUBLIC PORTAL

### Availability Details

Answer the following questions to provide more details about your Availability Comment. Help local and Tribal governments and non-profit organizations support your comment by providing as much accurate information as possible.

 If you are unable to fill out the required fields, choose the "Other" comment type in Step 2

\* 1. Enter your name

\* 2. Enter your email address

\* 3. Select the internet provider

\* 4. Select the technology type

\* 5. Identify the option that most closely describes why service is not available

Back

Next

# COLLECTING EVIDENCE

## SOON TO BE LAUNCHED PUBLIC PORTAL

Provide Evidence & Documentation for your Availability Comment

Upload any supporting evidence or documentation you have to support your comment.

 If you are unable to provide evidence, choose the "Other" comment type in Step 2

Click or drag files to this area to upload

Support for a single or bulk upload.

Back

Next

After this information is submitted by members of the public, registered local governments and non-profit organizations will be able to review these comments from individuals. If the permissible challenger believes a challenge can be substantiated from this information, **they will be able to directly confirm and submit this evidence as a challenge.**

## Provide Evidence & Documentation for your Service Speed Challenge

Please submit evidence to support your challenge. The state broadband office reserves the right to request more information at any point in the challenge process. For questions that require file upload, please compress all files over 100MB in size to a .zip file. Total file upload size is capped at 500MB.

### 1. Evidence mapping and meta data

Please download the .csv file below and fill in the following details for each of the locations selected:

- **Speed test file names:** Comma separated list of speed test file names related to each location. You can upload the files in the next step.
- **Customer name:** Name of the customer
- **Customer address:** Street address of the customer
- **Speed tier customization files:** Comma separated list of file names related to each location. You can upload the files in the next step.
- **Customer consent files:** Comma separated list of file names related to each location. You can upload the files in the next step.
- **Test method:** How the Speed Test was performed. Select from the following options:
  - Measurement from wired connection to provider gateway, ONT or fixed wireless subscriber module
  - Speed test available within the residential gateway interface
  - Speed test on providers web page
  - Speed test performed on laptop or desktop computer within immediate proximity of the residential gateway (e.g. WiFi connection in the same room as gateway)
- **Date:** Date the speed test was taken
- **Time:** Time the speed test was taken
- **IP address**
- **Download speed (in Mbps)**
- **Upload speed (in Mbps)**

**IBO**

# **CHALLENGE PROCESS**

Looking Ahead

# RESOURCES AVAILABLE FOR COMMUNITY ORGANIZATIONS

**Resources to participate in the Challenge Process will be made available in several platforms:**

## ONLINE RESOURCES

- [IBO website](#) to serve as the primary source for all information on the Challenge Process;
- Webinars to be made available for review.
- Recorded demos for how to submit every challenge type.
- Checklist to help community organizations get organized prior to the Challenge Process.
- CSV templates for all provider service level challenges.
- A public-facing portal where constituents can submit evidence to respective community organizations for review.

## TECHNICAL ASSISTANCE

- IBO Office Hours - prior to the Challenge Phase beginning for questions from community organizations.
- Call center that can be reached via email and phone once the Challenge Phase commences.
- Step-by-step, real-time guidance for submitting Challenges for those who need it.

# AFTER THE CHALLENGE PHASE

## CHALLENGE PHASE

**MARCH 4 to  
APRIL 3**

Challengers will have 30 days to submit challenges. Challengers can begin collecting evidence now!

## REBUTTAL PHASE

**APRIL 4 to  
MAY 3**

After the Challenge Phase is complete, internet service providers will have 30 days to submit rebuttal evidence.

## FINAL DETERMINATION PHASE

**FINISHES JUNE 3**

As rebuttals are received, the IBO will review all locations that have both challenge and rebuttal evidence and make a final determination.

# ACTIONS FOR NON-PROFITS AND LOCAL GOVERNMENTS

1. **Secure CostQuest license if using this method for challenge submissions**
2. Determine the type of challenge(s) your organization may submit
3. Gather evidence to support challenge submissions
4. Reach out to the IBO if you believe you can participate, but only with technical assistance
5. Register your organization on the Ready.net portal when it opens
6. Be prepared to submit **all** challenges and evidence beginning March 4<sup>th</sup> through April 3<sup>rd</sup>

# IBO OFFICE HOURS

The Indiana Broadband Office will be offering several office hours opportunities for any organizations that want to ask questions about the Challenge Process:

Tuesday  
February 20<sup>th</sup>  
2-3 PM

Thursday  
February 22<sup>nd</sup>  
2-3 PM

Tuesday  
February 27<sup>th</sup>  
2-3 PM

Thursday  
February 29<sup>th</sup>  
2-3 PM

The IBO is always reachable for questions at: [ibochallenge@iot.in.gov](mailto:ibochallenge@iot.in.gov)
