

PUBLIC MEETING

US 231/SR 46/SR 67 Planning Study

Business owners, managers, local residents, property owners, and interested citizens are invited to a public meeting concerning the Corridor Planning Study and Environmental Assessment for the US 231/SR 46/ SR 67 corridor in the Town of Spencer, Indiana.

The planning study was initiated by the Indiana Department of Transportation (INDOT). The purpose of the planning study was to quantify problems and evaluate potential alternative solutions to improve roadway efficiency and safety. The recommendation of the study is to carry forward only the most reasonable alternative that is cost effective and limits impacts on property owners, natural resources, and historic districts.

INDOT wants public comments and the opinions of the adjacent businesses, residents, and property owners about the planning study recommendation. The public meeting will be conducted in an open house format. Exhibits showing the recommended improvements will be on display. Representatives from INDOT and the project consultant will address questions and accept comments.

The meeting will be **September 27, 2007 in the Owen Valley High School Cafeteria, from 7:00 to 9:00 p.m. local time.**

Should you have any questions, please contact Scott Burgins, at 1-800-939-2449.
