## Bridge Inspection Memorandum No. 26-05 SNBI Bridge Data Implementation Announcement

March 9, 2026

**TO:** All Inspection Personnel and Consultants

**FROM:** /s/ Anthony Marino SPM  
Anthony Marino, P.E.  
Bridge Inspection State Program Manager  
Bridge Management Division

**SUBJECT:** SNBI Bridge Data Implementation Announcement

**REVISION:** Update to Bridge Inspection Memorandum 25-06

**EFFECTIVE:** Immediately

Inspectors are advised that Bridge Inspection Memorandum 25-06, dated February 28, 2025, remains active. This memorandum required all LPA-owned/maintained bridges that have a September 2025 inspection compliance month/year and later, and with inspection operations starting September 1, 2025 and later, to have full SNBI inspections and inspection reports done.

To be compliant, all the SNBI items must be populated, validated, complete, accurate, and free from any temporary coding in order to meet the March 2028 FHWA Bridge File data submission. This requires all bridges that have a Calendar Year 2027 inspection compliance year to have full SNBI inspections completed and approved by December 31, 2027.

All bridges with inspection compliance months during Calendar Year 2026 **that will not have** an inspection done during Calendar Year 2027, shall have full SNBI inspections completed and approved in accordance with Section 2-1.01(01) of the INDOT Bridge Inspection Manual.
