Dear Mr. Gustin:

The Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) have completed our review of the Evansville Metropolitan Planning Organization (EMPO) 2010-2013 Transportation Improvement Program and their associated conformity analysis adopted by EMPO on February 4, 2010. Our review has concluded that the criteria of the conformity rule have been met. The review was completed based on the July 1, 2004 conformity rule revision, (69 FR 40004). The EMPO certified that the 2010-2013 Transportation Improvement Program are in conformance with the Vanderburgh/Warrick County 8-hour ozone maintenance area and with the annual PM<sub>2.5</sub> standard for the Southwest Indiana nonattainment area and has completed the Clean Air Act Amendments (CAAA) requirements as they pertain to the development and conformity of the Transportation Plan.

The Indiana Department of Environmental Management, the Indiana Department of Transportation, and the US Environmental Protection Agency have completed their reviews and recommended that we find that the 2010-2013 Transportation Improvement Program for Evansville, IN, 8-hour ozone maintenance area and the annual PM<sub>2.5</sub> standard for the Southwest Indiana nonattainment area conforms to the applicable requirements. Appropriate consultation and public involvement on the conformity analyses was completed.

Therefore we find that the fiscal year 2010-2013 Transportation Improvement Program is a subset of and consistent with the 2035 Transportation Plan and demonstrates conformity for volatile organic compounds and oxides of nitrogen as well as PM<sub>2.5</sub>. If you have any questions regarding this, please contact Janice Osadczuk at 317 226-7486 or by e-mail at [Janice.osadczuk@dot.gov](mailto:Janice.osadczuk@dot.gov).

Sincerely,

Robert F. Tally, Jr., P.E.  
Division Administrator
