

## INDIANA DEPARTMENT OF TRANSPORTATION

# The Re-Naming of Indiana 265

INDOT is designating Indiana 265 (IN 265) as Interstate 265 (I-265). This is in joint effort with Kentucky Transportation Cabinet (KYTC), who will designate KY 841 as I-265.

## How could this affect your business?

The re-naming of Indiana 265 will involve a period of time where crews will be actively working to install new signage. This work could impact the way your business is currently advertising. We encourage your business to navigate other routes of advertisement in advance, in the event your business is impacted.

INDOT is grateful for the unification and partnership this project entails and we look forward in creating a more functional and integrated roadway for not only our citizens of Indiana, but those in Kentucky and surrounding areas a well.

### What

The change in designation requires INDOT to change all exit numbers along I-265 and SR 265 resulting in continuous numbering between Indiana and Kentucky.

### When

Construction of new signage is expected to begin as early as Fall 2023 and will be completed on or before Summer 2025.
