## Agenda

**Project:** INDOT State Rail Plan  
**Subject:** Virtual Stakeholder Meeting #2  
**Date:** Tuesday, January 26, 2021  
**Location:** Webex Virtual Meeting

**Attendees:** Total: 49 | A full list of attendees is available in Appendix C.

### 1.1 Meeting Details

This meeting was held virtually on Webex and gave stakeholders an update of chapters one through four of the State Rail Plan, as well as highlights of the State Rail Plan survey, which was deployed in fall 2020.

This was an opportunity for participants to talk to the project team in an open discussion and have their questions answered.

HDR’s Keith Bucklew and Ameerah Palacios facilitated the meeting. The full presentation is detailed in Appendix A.

### 5.1 What We Heard From You
Keith Bucklew presented recap from the first stakeholder meeting, which gave an overview of the State Rail Plan purpose and process.

### 6.1 Update on State Rail Plan
Keith presented on highlights from chapters 1-4 of the State Rail Plan, specifically how:

**Chapter 1** discusses the role of rail in the state’s transportation system, and the authorizations in place that permit Indiana’s state and local governments to support rail.

**Chapter 2** describes Indiana’s rail network, and the freight and passenger rail operators that serve the state.

**Chapter 3** discusses the environmental and economic impacts of rail transportation in Indiana.

**Chapter 4** discusses the trends and forecasts that will impact the rail network in the future.

Ameerah Palacios facilitated a question to attendees about additional trends that are affecting the growth of rail in Indiana. Responses are summarized in the chat log, [Appendix B](#).

Ameerah Palacios facilitated highlights of the State Rail Plan survey results.
7.1 Q&A and Discussion
Keith, Ameerah, and members of INDOT opened up the floor up to participants to answer questions specified in the virtual meeting chat log in Appendix B. Answers varied in reaffirming the purpose and scope of the State Rail Plan, sharing data insights gathered thus far, and making note of participant comments, as referenced in the chat log.

8.1 State Rail Plan Progress and Schedule
Keith Bucklew reminded participants that the next virtual stakeholder meeting will be in May 2021, when the State Rail Plan is likely to be completed. The project is set to conclude in September 2021.

9.1 Next Steps and Adjournment
HDR’s Keith Bucklew and INDOT representatives thanked participants for attending the meeting and promptly adjourned around 2:15 p.m.
Appendix A: Webex Virtual Stakeholder Meeting Presentation
Welcome!
The presentation will begin shortly.

If you are new to Webex, please take note of some of the functions below.

To help this meeting run as smoothly as possible, please consider the following tips:

• If you have a question type it in the chat box and the facilitator will address
• Be sure to mute your microphone and your phone
• If others in your house are using streaming services, consider asking them to pause for the duration of the presentation
• Turn off your VPN for the duration of the presentation to help with speed and bandwidth
Agenda

1. Welcome
2. Recap of Stakeholder Meeting #1: What We Heard From You
3. Update on State Rail Plan:
   • Chapter 1: The Role of Rail in Indiana
   • Chapter 2: Indiana’s Existing Rail System
   • Chapter 3: Economic and Environmental Context of Rail
   • Chapter 4: Trends and Forecasts
4. Q&A and Discussion
5. State Rail Plan Schedule
6. Next Steps and Adjournment
Recap of Stakeholder Meeting #1:
What We Heard From You
INDOT’s State Rail Plan:

- Updated every four years
- Guides the improvement of freight and passenger rail investments in rural and urban areas throughout the Hoosier state
- Supports efforts to provide a safe, efficient and convenient rail transportation system for all Indiana residents
Meeting Recap

- > 60 participants
- Hundreds of comment and responses to poll questions received
- Insights on passenger and freight rail priorities and values
Update on State Rail Plan: Chapters 1-4
Chapter 1: The Role of Rail in Indiana

Chapter 2: Indiana’s Existing Rail System

Chapter 3: Economic and Environmental Context of Rail

Chapter 4: Trends and Forecasts
The Role of Rail in Indiana
In 2019, Indiana’s manufacturing industry accounted for 27.4% of state GDP
This is 2.7x higher than the U.S. average of 11.4% (highest of any state).
Freight Rail Accounts for 13% of Freight Tonnage in Indiana

Indiana Industries relying on Rail to be competitive:

- Manufacturing: Automotive
- Manufacturing: Chemicals
- Manufacturing: Metals (steel and aluminum)
- Manufacturing: Food production
- Agriculture: Grain
- Mining: Coal, limestone
Freight Flow by Commodity and Direction, 2018 Tons

Source: HDR Analysis of 2018 STB Waybill Sample Data
Indiana’s Existing Rail System
Indiana ranked nationally:

- 4th in the number of freight railroads (43)
- 11th in total rail line mileage
- 5th in tonnage originated
- 6th in tonnage carried
- 4th in carloads carried
- 9th in rail employment and wages
- 3rd in coal tons originated and 4th in coal tons terminated
Freight Tonnage Modal Share

Air, 0.0%
Water, 3.3%
Pipeline, 20.1%
Rail, 12.9%
Truck, 63.7%

Source: FAF4 2018 data for Indiana (includes originating and terminating movements)
Amtrak operates 4 intercity passenger trains in Indiana

- Amtrak ridership at Indiana stations in 2019 was 117,811
- Busiest stations: Indianapolis and Waterloo

NICTD operates 43 weekday commuter trains in Northwest Indiana

- NICTD ridership in 2019 was 3.3 million
- Without NICTD, 70% of trips would be made by car
Tourist Railroads

- Five rail excursion operations in Indiana
- Two other museums/historical groups offer train rides

Two new tourist railroads since last State Rail Plan:

- Nickel Plate Express in Noblesville (2018)
- Ohio River Scenic Railway in the town of Tell City (2020)
- Both operations use trackage owned by Port Authorities
- Launched as cooperative ventures between track owners, nonprofit tourism groups, and service/equipment providers
Indiana’s Investments in Rail

Indiana investments in Rail (2015 – 2020)
• State funding:
  • $15 million (IRSF), 59 projects
  • $4 million grade crossings, 173 projects

Indiana investments in Rail (2020)
• State funding:
  • NICTD, $22 million
  • Local TRAX program, $121 million
• Private funding: $160 million
• Federal funding: $20 million, 6 projects
Economic and Environmental Context of Rail
Rail Outbound Top Commodities by Tonnage, 2018

Source: HDR Analysis of 2018 STB Waybill Sample Data

- Coal: 15.2 Tons, 130.4 Carloads
- Primary Metal Products: 8.5 Tons, 96.1 Carloads
- Food or Kindred Products: 8.3 Tons, 82.6 Carloads
- Farm Products: 8.2 Tons, 77.9 Carloads
- Hazardous Materials: 3.5 Tons, 40.3 Carloads
- Other: 7.4 Tons, 158.5 Carloads
Economic and Environmental Context of Rail

Outbound Tonnage Origin

Year 2018 rail movements destined for out-of-state originated primarily from:

- Lake County (8.7 million tons, 17.0 percent of outbound rail)
- Vanderburgh County (7.4 million tons, 14.5 percent of outbound rail)
- Gibson County (5.5 million tons, 10.8 percent of outbound rail)
- Tippecanoe County (3.1 million tons, 6.0 percent of outbound rail)
- Porter County (2.0 million tons, 4.0 percent of outbound rail)
Outbound Tonnage Destination
Main destinations of Indiana rail exports for 2018 are:

- Georgia (7.3 million tons, 14.2 percent of outbound rail)
- Alabama (5.1 million tons, 10.1 percent of total outbound rail)
- Virginia (4.5 million tons, 8.7 percent of total outbound rail)
- Ohio (4.2 million tons, 8.2 percent of total outbound rail)
- Illinois (4.0 million tons, 7.9 percent of total outbound rail)
Trends and Forecasts
Forecasts for Indiana Rail

- Total rail freight tonnage in Indiana will increase by approximately **29% between 2018 and 2045**.

- Coal volumes will decrease by over **35% between 2018 and 2045** from **60.2 million tons** to **38.8 million tons** (of originating and terminating movement).
Forecasts for Indiana Rail

- Growth in metal, food, farm, petroleum, and chemical products are expected to more than offset the losses in coal tonnage.
- Hazardous materials are projected to grow at 1.2% annually.
Rail Movement Share by Direction (345 Million Tons Total), 2018

- Outbound: 14.8%
- Inbound: 13.6%
- Intrastate: 7.6%
- Through: 64%

Overall, 29% increase
- Outbound: 65.6 million
- Inbound: 54.8 million
- Intrastate: 20.7 million
- Through: 304.6 million

Rail Movement Share by Direction (446 Million Tons Total), 2045

- Outbound: 15%
- Inbound: 12%
- Intrastate: 5%
- Through: 68%
What are other trends affecting the growth of rail in Indiana?
State Rail Plan Online Survey

Completed in Fall 2020

- More than 1,000 completed surveys
- Overall, 2,318 responses
Q19: Has COVID-19 impacted your use of rail? If yes, please describe.

- No: 72.33%
- If yes, please explain: 27.67%
Which of the following reasons describes why you have used Amtrak in Indiana? Please select all that apply.

- It was a fun experience: 44.09%
- It was affordable: 41.18%
- I have not used passenger rail service in Indiana: 30.58%
- It was convenient: 30.11%
- It was environmentally friendly: 27.20%
- It was easy to connect to other routes: 17.73%
- Other (please specify): 15.85%
- It was my only option: 3.66%
If passenger rail service was introduced or expanded in the region where you live, what types of trips would you consider taking on the train? Please select all options that apply.

- Trips from Indiana to neighboring states such as Illinois, Michigan, or Ohio: 92.12%
- Trips to connect with other travel modes (airports, transit hubs): 75.33%
- Trips within Indiana, if the service traveled at high speeds but made limited stops: 74.86%
- Trips within Indiana, if the service traveled at conventional speeds and stopped at many communities: 66.79%
- Trips to and from work: 33.77%
- I would not use passenger rail service in Indiana: 2.53%
Commuter rail service refers to passenger trains operating between employment centers and outlying areas. Commuter rail lines typically serve daily riders traveling distances between 10 to 50 miles. How important do you believe expanding commuter rail service is for Indiana?

- A critical need: 74.58%
- Limited importance: 20.73%
- Not important: 4.69%
How does the rail network best support economic growth in Indiana? Choose one option.

- Provides an alternative to highway trucks: 40.46%
- Provides alternate transportation mode for finished goods and raw materials: 35.11%
- Provides job opportunities in communities with freight rail access: 13.74%
- Provides a more reliable method to move goods: 8.40%
- Unsure: 2.29%
Assuming adequate federal, state, or public private partnership funding is available, what freight and rail projects should the Indiana Department of Transportation prioritize to have the biggest impact on the State's economic competitiveness?

- Rail-served industrial parks and distribution centers: 26.72%
- Rail capacity and infrastructure enhancements: 25.19%
- Rail safety enhancements: 20.61%
- Intermodal facilities: 12.21%
- Other (please specify): 7.63%
- Transload facilities: 7.63%
Please select your top five concerns related to freight rail transportation in the state:

**INDOT STATE RAIL PLAN VIRTUAL MEETING**

**PROJECT ENDS 9/30/2021**
Thank you!

Contact Keith Bucklew, Project Manager at HDR: INSRP@hdrinc.com
Appendix B: Webex Virtual Meeting Chat Log
Each chat message is logged below with the person who sent the message and the timestamp of the message.

1) From [NAME REDACTED] to everyone: 1:02 PM
[NAME REDACTED], Northwest Indiana Forum. In for Heather Ennis, President/CEO.

2) From [NAME REDACTED] Sunrise Indy to everyone: 1:02 PM
[NAME REDACTED], she/her/hers, Sunrise Indy (Indianapolis hub of the Sunrise Movement)

3) From Ameerah Palacios to everyone: 1:03 PM
Welcome, everyone. We'll get started shortly.

4) From [NAME REDACTED] - Sunrise Movement Indianapolis to everyone: 1:03 PM
[NAME REDACTED], she/her/hers, Sunrise Indy (Indianapolis hub of the Sunrise Movement)

5) From Ameerah Palacios to everyone: 1:03 PM
We ask that you put yourself on mute until the end of the meeting where we will take your questions.

6) from [NAME REDACTED] to everyone: 1:03 PM
Good Afternoon. [NAME REDACTED], Community Planning Liaison Officer, Naval Support Activity Crane, Indiana.

7) from [NAME REDACTED] - Sunrise Indy to everyone: 1:04 PM
Hi Everyone! [NAME REDACTED], she/her/hers, Sunrise Movement Indy

8) from [NAME REDACTED] to everyone: 1:06 PM
I think there are participants not muted

9) from [NAME REDACTED] Red Gold to everyone: 1:06 PM
Hello from Tomato Country

10) from [NAME REDACTED] to everyone: 1:06 PM
Thank you everyone for putting yourself on mute.
11) from [NAME REDACTED] to everyone: 1:09 PM
Please mute yourselves. Thank you

12) from [NAME REDACTED] to everyone: 1:13 PM
Will these slides be shared through email with the participants at the end of the presentation?

13) from Ameerah Palacios to everyone: 1:15 PM
A meeting summary will be posted on INDOT's website and emailed to everyone joining us today.

14) from [NAME REDACTED] to everyone: 1:16 PM
Just an informational update: NICTD has received Full Funding Grant Agreements from the Federal Transit Administration for both the West Lake Extension project as well as the Double Track Northwest Indiana project.

15) from Ameerah Palacios to everyone: 1:17 PM
Thank you, Kelly!

16) from [NAME REDACTED] to everyone: 1:22 PM
How much of incoming coal is for steel production, as opposed to power generation?

17) from [NAME REDACTED] Red Gold to everyone: 1:22 PM
Red Gold is using more Intermodal (rising trend).

18) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 1:22 PM
I apologize, I joined late; did you talk about passenger rail and potential growth in passenger rail, or is this all freight rail growth/trends?

19) from [NAME REDACTED] to everyone: 1:23 PM
Why is there no discussion of the potential new markets for passenger rail?

20) from [NAME REDACTED] to everyone: 1:23 PM
There is a lot of interest in passenger rail service and it must grow.

21) from [NAME REDACTED] Sunrise Indy to everyone: 1:23 PM
[NAME REDACTED] (Sunrise Indy): Another trend affecting the growth of rail in Indiana will be a trend of Hoosiers forgoing automobile transit in order to cut down on their carbon footprint.
22) from [NAME REDACTED] to everyone: 1:23 PM
This is [NAME REDACTED] at Madison Railroad. I am deeply concerned about H.B. 1190 which would allow heavier truckloads on the highway.

23) from [NAME REDACTED] Red Gold to everyone: 1:23 PM
Red Gold is growing its outbound rail with grocery and food service customers

24) from [NAME REDACTED] to everyone: 1:23 PM
Increase in Intermodal traffic

25) from [NAME REDACTED] to everyone: 1:23 PM
Does INDOT plan to speak against this bill. If not why?

26) from [NAME REDACTED] to everyone: 1:23 PM
For pass through, what income does Indiana receive vs. expense for upkeep and safety of rails?

27) from [NAME REDACTED] to everyone: 1:23 PM
How will the new administration and DOT appointment impact your predictions for the next few years?

28) from [NAME REDACTED] to everyone: 1:24 PM
Federal trade and regulatory policies will impact traffic patterns - affects whether there will be more interstate intermodal traffic, or on the other hand, more manufacturing and industrial production (manifest carload and bulk traffic).

29) from [NAME REDACTED] Red Gold to everyone: 1:24 PM
Red Gold is growing its inbound volume via rail ... specifically from California

30) from [NAME REDACTED] to everyone: 1:24 PM
Available funding for general rail improvements and ability to support rail improvements to support economic development projects.

31) from [NAME REDACTED] to everyone: 1:24 PM
With 14 biofuel facilities, how is their rail use measured? I believe we are now 5th in the nation in ethanol produced.

32) from [NAME REDACTED] Red Gold to everyone: 1:24 PM
Red Gold is seeing improved performance (service, reliability) from the rail carriers
33) from [NAME REDACTED] Red Gold to everyone: 1:25 PM
you are correct Keith

34) from [NAME REDACTED] to everyone: 1:25 PM
Perhaps there is a lack of knowledge/understanding of how rail could positively impact their business model?

35) from [NAME REDACTED]- Sunrise Movement Indianapolis to everyone: 1:26 PM
Steel, coal, and petroleum are all major pollutants and contributors to climate change. Yet given the agreements in the Paris Climate Accords, there MUST be a significant reduction in fossil fuel use in every state. As we as a state begin to rely less on fossil fuels, will that free up rail lines previously devoted to freight, which could be repurposed for passenger lines?

36) from [NAME REDACTED] Red Gold to everyone: 1:26 PM
Red Gold did not experience any service disruptions during the pandemic. Nice job Hoosiers!

37) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 1:28 PM
If INDOT doesn't seriously take passenger rail development into its rail plan, that will be a big mistake. Indiana is part of the Midwest Regional Rail plan, which is in the process of building out the MWRRS, and the Midwest is now going through a 40-year visioning process, led by the FRA, that Indiana is a big part of, both for increased passenger rail service in Indiana, and going through Indiana to Ohio and further east (as well as south).

38) from [NAME REDACTED] to everyone: 1:28 PM
7% would be based on the very poor level of service. It would be better to create a plan that addresses the very large potential market.

39) from [NAME REDACTED] - Sunrise Indy to everyone: 1:28 PM
Has there been any thought to the trend of office workers that are now working remotely from home, reducing the need for a car (or two per house), and the possible increase in demand for passenger rail if/when people would need to be in person at an office.

40) from [NAME REDACTED] to everyone: 1:28 PM
Continued rail requirements supporting Department of Defense (Naval Support Activity Crane and Crane Army Ammunition Activity). Curious on Strategic Rail Corridor Network Plan (STRACNET) and those Defense Connector Lines to DoD Sites and reference to updated Rail Plan for State.
41) from [NAME REDACTED] to everyone: 1:30 PM
Amtrak’s business model has been heavily criticized. What thought has been given to a non-Amtrak approach to passenger rail within Indiana? Perhaps more NICTDs?

42) from [NAME REDACTED] to everyone: 1:31 PM
White River Bridge at Elnora, IN Excellent project! Thank you INDOT. [NAME REDACTED] Indiana Rail Road.

43) from [NAME REDACTED] to everyone: 1:31 PM
Again, Shortline Railroads in Indiana are extremely concerned about proposed legislation to allow a 50% increase, from 80,000# to 120,000# proposed in HB1190. This would be devastating to the shortlines, as well as to the highways.

44) from [NAME REDACTED] to everyone: 1:32 PM
Does INDOT have and will they share their position on this proposed bill HB 1190

45) from [NAME REDACTED] to everyone: 1:34 PM
If there is a need to increase passenger rail traffic, the Cities served will need to improve public transit because people cannot get to where they need to go once they get to the city.

46) from [NAME REDACTED] to everyone: 1:35 PM
I second [NAME REDACTED] concern in regards to HB1190

47) from [NAME REDACTED] to everyone: 1:37 PM
To stay competitive in attracting the best and brightest is another strong reason to increase passenger rail options in Indiana.

48) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 1:41 PM
Wasn’t the survey divided into either passenger rail or freight rail, and people had the option of completing one or the other? How many completed the passenger rail vs. freight rail survey?

49) from [NAME REDACTED] Sunrise Indy to everyone: 1:41 PM
What is the plan to incorporate this public feedback, which seems to overwhelmingly in support of expanding passenger rail, into the plan for the next 4 years?

50) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 1:43 PM
Thank you.
51) from [NAME REDACTED] to everyone: 1:46 PM
[NAME REDACTED], I understand your concerns about HB1190. We can discuss separately from this meeting.

52) from [NAME REDACTED] Sunrise Indy to everyone: 1:46 PM
I deeply appreciate this thorough response, Mr. Bucklew! I would like to underscore the fact that, regardless of private sector forecasts for their businesses, we are unlikely to have a livable future at all in 20-25 years if immediate action is not taken in the 2020s to drastically cut our global emissions.

53) from [NAME REDACTED] to everyone: 1:47 PM
We are here to listen & learn. We are trying to get a pedestrian bridge built over the TP&W shortline railroad to extend our trail into France Park, Cass County, IN.

54) from [NAME REDACTED] to everyone: 1:47 PM
Is there anything being done to help maintain RR right a ways trimming trees and maintaining ditches along Railways to be supportive of adjoining land owners?

55) from [NAME REDACTED] to everyone: 1:48 PM
Will the State Rail Plan provide context as to how Indiana compares with peer states in regard to funding, policies, etc.?

56) from [NAME REDACTED] to everyone: 1:52 PM
It needs to be emphasized that the existing passenger rail service (except on the South Shore) is too slow and too infrequent to use as a base case.

57) from [NAME REDACTED] to everyone: 1:54 PM
Rick Harnish makes a good point. The Amtrak model has operated so as to depress passenger traffic.

58) from [NAME REDACTED] to everyone: 1:54 PM
Do we have any other predictive models?

59) from [NAME REDACTED] to everyone: 1:57 PM
Most railroads are privately owned and maintained at their expense while truck companies use a public assets (highways) which makes them able to keep their prices low, This advantage impacts the cost effectiveness of the railroad.

60) from [NAME REDACTED] Sunrise Indy to everyone: 2:03 PM
Is there an opportunity now to ask questions aloud, or should we put them in the chat?
61) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 2:03 PM
Can you please send us the slides from the presentation?

62) from Ameerah Palacios to everyone: 2:05 PM
If you can put your questions in the chat, that would be helpful.

63) from Ameerah Palacios to everyone: 2:05 PM
Thank you, [NAME REDACTED]!

64) from [NAME REDACTED] Sunrise Indy to everyone: 2:06 PM
Mayor Hogsett of Indianapolis has committed our state capitol to carbon-neutrality by 2050. Is INDOT attempting to incorporate those aims into their freight and passenger rail plans, as well as their plans for other INDOT services such as bus systems? Is there collaboration occurring between the mayor's officer or other politicians to ensure this plan accounts for our state's needs?

65) from [NAME REDACTED] Sunrise Indy to everyone: 2:08 PM
Is that long-range plan you're referring to accessible to the public? If so, where can we find it?

66) from [NAME REDACTED] Sunrise Indy to everyone: 2:09 PM
Thank you!

67) from [NAME REDACTED] to everyone: 2:10 PM
Here's the location for the Long Range Transportation Plan: https://www.in.gov/indot/3714.htm

68) from [NAME REDACTED] Sunrise Indy to everyone: 2:12 PM
This is not a question for INDOT but a comment to participants. Sunrise Indianapolis has published our vision for Public Transit for All Hoosiers by 2030 and we'd love to hear any transit-minded folks' input. You can read the article here: https://bit.ly/transitforall

69) from [NAME REDACTED], Midwest Interstate Passenger Rail Commission to everyone: 2:13 PM
When you hold the next meeting, can you please plan to talk comprehensively about how the needs of passenger rail expansion and freight rail will be incorporated in the state rail plan?

70) from [NAME REDACTED] - Sunrise Indy to everyone: 2:13 PM
Thank you for hosting this meeting and providing this information!! I'd like to invite anyone that's interested in joining the Sunrise Movement to visit our sign up page here: https://forms.gle/skijehY2hxvioMS8
71) from [NAME REDACTED] to everyone: 2:13 PM
Thanks, Keith

72) from [NAME REDACTED] Sunrise Indy to everyone: 2:14 PM
Thank you very much!

73) from Ameerah Palacios to everyone: 2:15 PM
Thank you everyone!
