

# PUBLIC HEARING

Brown Gym  
100 Broadway Street  
Tuesday, Feb. 20 | 4-8 p.m.

---

After more than a year of studies and public input, Alternative 6 – the at-grade alternative – meets the purpose and need for Project 421 while minimizing environmental and historic impacts. This alternative connects S.R. 56/Main Street and U.S. 421 to the Milton-Madison Bridge with an at-grade, signalized intersection at 2nd Street.

At this public hearing, residents can **review and provide comments for the proposed alternative** for inclusion in the official project public record. Three minutes will be allotted for each comment.

**A formal presentation and public hearing will start at 6 p.m.**, and team members will be available to answer questions during the open house periods from 4 p.m. and after the hearing until 8 p.m.

The purpose of Project 421 is to select a route that best addresses the safety concerns, mobility challenges and pedestrian connectivity needs of Madison.
