

Memo

To: Indianapolis MPO Policy Committee Members
From: Laura Drascic , IMPO
Date: October 14th, 2026
Re: Proposed 4th Qtr. Amendments to the 2026-2029 Transportation Improvement Program

The IMPO is offering the attached list of proposed amendments to the 2026-2029 TIP for your review.

Proposed Q4 Amendments

The IMPO received 16 INDOT exempt amendment requests and 3 local exempt amendment requests. A detailed list of all amendment requests can be found attached as Exhibit A.

One local amendment affects the IMPO's annual allocation. As part of the IMPO's FFE process, FFE projects are eligible to submit one amendment request for up to 10% of the original project award. The City of Greenwood has requested a 10% amendment to their Smith Valley Segment 1 project (2421FFE) specifically increasing costs for pavement pay items and lighting revisions. The new cost estimate reflects a net increase of \$666,100 revising the total project cost from \$5,015,867 to \$5,681,977. A detailed memo with the revised cost estimate for the project can be found attached as Exhibit B.

The amendments will be offered for public review and comment from October 10th, 2026 through October 19th, 2026. Comments will also be welcomed in person during the October 21st, 2026 public hearing at the Transportation Policy Committee meeting or at two virtual pre-hearings. More information about the virtual pre-hearings is available at indympo.gov/about/public-involvement.

Administrative Modifications/Amendments

9 administrative modifications have been processed since the August meeting. The administrative modifications are available for review on the IMPO's website or via other formats by request.

Deadlines

Q4S 2026 TIP amendment requests are due November 19th via MiTIP by 5:00pm EST.

Please contact laura.drascic@indympo.gov with any questions.

Good afternoon Laura,

I hope this note finds you well. FHWA has reviewed the project information and has the following questions/comments:

- For Des# 2301244, 2301245, and 2300701-What intersection improvement is occurring?
- For Des# 2600918 and 2600920-What revisions are occurring?
- For Des# 241FFE-This project is notated as "non-exempt" which seems consistent with the project description
- For Des#2601015-Can you confirm there is no added capacity for this bridge replacement project?

Hi Paige,

Thank you for following up. We are still waiting to hear back from INDOT on 2600918. Here are the answers to Erica's other questions:

- Intersection Improvements:
 - Des 2301245 – Roundabout at Dan Jones & US 40 and Partial Displaced Left at Quaker Blvd. & US 40
 - Des 2301244 – Roundabout at Shady Ln & US 40
 - Des 2300701 – Quadrant Roadway at Ronald Reagan & US 40.
- Safety Revisions
 - 2600920 – This project has been removed from the Q4 Amendment list. Please disregard.
- 2412FFE
 - This project is a State Federal Funds Exchange program project. The project is only increasing their cost by 10%, and not making any changes to the project itself therefore we presumed it would not need AQ conformity.
- 2601015
 - Yes. This project is a part of the Emergency Flood Funds. It is not adding capacity.

Please let us know if you need any more information or have any further questions about these projects. Once I hear more about project 2600918 I will follow back up.

Good morning,

This is in reference to project des numbers: 2301244, 2301245, and 2300701.

Has there been a records request submitted to our office of the affected parcels? Or does that occur at a later stage?

I know there are a handful of properties that we have septic and well records scanned into Beacon. You can find those by navigating to the Hendricks County Beacon and turning on the "Septic Permits" and "Field Points" layers on. Those will need to be protected, properly

abandoned and connected to city sewer and/or water if structures will remain, or properly abandoned. Septic and well abandonment records will need to be submitted to our office. We don't necessarily have all records scanned in, so we may have records for additional parcels as well in our physical files.

Without knowing specific affected parcels, the properties near Klondike Rd, Clover Dr, and a handful of properties along E Main St located to the east of Perry Rd may have septic and wells that could be affected. If you need detailed information, please submit a records request of the affected parcels to our office.

Thank you,

Kristen Lien, REHS
