

FY 2026-2029 TRANSPORTATION IMPROVEMENT PLAN (TIP)

adopted April 10, 2025 (effective July 1, 2025)

The Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is a council of local governments, business organizations and community groups committed to developing collaborative strategies to improve the quality of life and the economic vitality of the region.

Formed in 1964, OKI has spent 50 years cultivating partnerships and alliances that range from the federal government to local councils. Its 120 members represent governmental, social and civic groups from nearly 200 communities in the eight-county, three-state region.

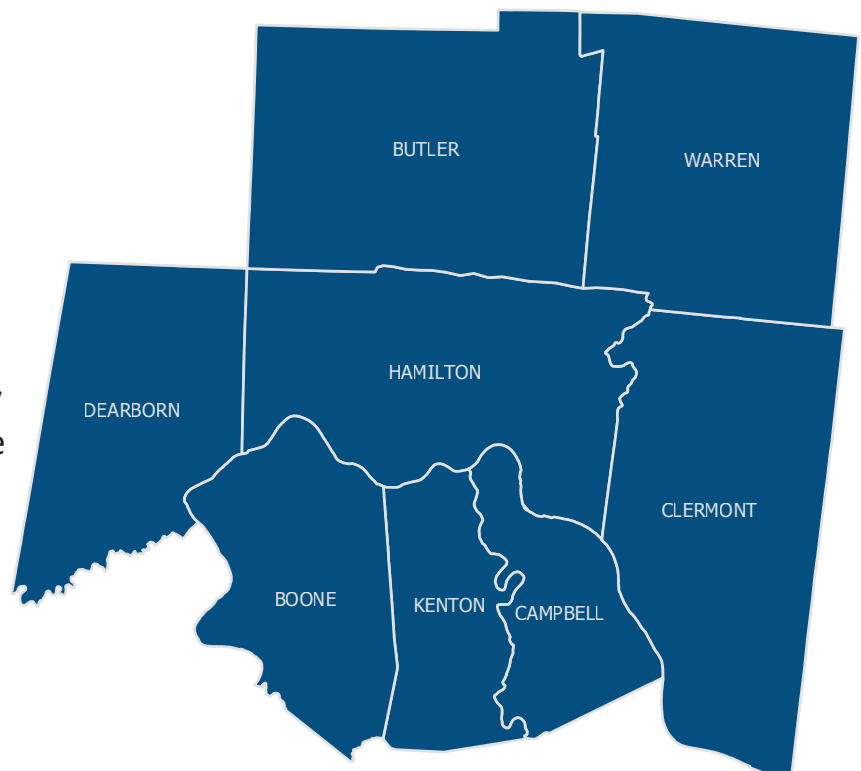

OKI works collaboratively with stakeholders to solve interstate dilemmas, create far-reaching development plans, break through political W, provide services to the public and advocate for federal funding.

OKI has final authority over all federal dollars spent on surface transportation in the region. Each year, OKI approves roughly \$40 million in funding for projects in the region.

Board of Directors

Over 100 members serve on the Board of Directors, the governing body of the Ohio-Kentucky-Indiana Regional Council of Governments. The Board brings together leaders from government, business and civic institutions. Board members represent local government, planning commissions, chambers of commerce, public transit authorities, state departments of transportation and environmental organizations. The Board's organizational strength and vision enables the Council to effectively address regional transportation, environmental and economic issues. Through ongoing collaboration, facilitated by the Board of Directors, a wide range of agendas, priorities and solutions are focused into a viable plan of action that generates measurable results.

For more information, call 513-621-6300 or visit our website www.oki.org.

OKI Board Officers

Josh Gerth
President
Anderson Township, Ohio

Bonnie Batchler
First Vice President
Clermont County Board of
Commissioners

Mark Jeffreys
Second Vice President
City of Cincinnati, Ohio

Kenneth F. Reed
Treasurer
Resident Member

Gary W. Moore
Past President
Boone County
Fiscal Court

Mark R. Policinski,
Secretary
OKI CEO

Fairfield, Ohio – Dale Paullus (*Mitch Rhodus*)

Florence, Kentucky – Gary Winn

Forest Park, Ohio – Don Jones

Ft. Mitchell, Kentucky – Dr. Alyson Roeding

Ft. Thomas, Kentucky – Ben Pendery

Ft. Wright, Kentucky – Dave Hatter

Hamilton, Ohio – Susan Vaughn (*Tim Naab*)

Harrison, Ohio – Doug Abrams

Highland Heights, Kentucky - Greg Meyer

Independence, Kentucky – Christopher Reinersman

Indian Hill, Ohio – Pat Stern

Lawrenceburg, Indiana – Mark Fette (*Guinevere Banschbach*)

Lebanon, Ohio – Brad Lamoreaux

Loveland, Ohio – Ted Phelps

Madeira, Ohio – Doug Moormann

Mason, Ohio – Joy Bennett

Middletown, Ohio – Elizabeth Slamka (*Paul Horn*)

Milford, Ohio – Kim Chamberland

Monroe, Ohio – Keith M. Funk

Montgomery, Ohio – Chris Dobrozsi

Mt. Healthy, Ohio – Jennifer Moody

Newport, Kentucky – Elizabeth Fennell (*Brian Steffen*)

North College Hill, Ohio – Mary DeWald

Norwood, Ohio – Susan Hoover

Oxford, Ohio – Michael Smith

Reading, Ohio – Robert Boehner

Sharonville, Ohio – Glen Lovitt

South Lebanon, Ohio – Linda Allen

Springdale, Ohio – Jeffrey P. Anderson

Taylor Mill, Kentucky – Dan Bell

Trenton, Ohio – Floyd Croucher

Union, Kentucky – Larry Solomon

Villa Hills, Kentucky – Seth Thompson

Wyoming, Ohio – Dan DrieHaus (*Jodi Woffington*)

Member Counties

Boone County Fiscal Court – Gary W. Moore (*Matthew Webster*)

Butler County Board of Commissioners – T.C. Rogers (*David C. Fehr*)

Campbell County Fiscal Court – Steve Pendery (*Matt Elberfeld*)

Clermont County Board of Commissioners – Bonnie Batchler (*David Painter*)

Dearborn County Board of Commissioners – Kevin Turner (*Nicole Daily*)

Hamilton County Board of Commissioners – Denise DrieHaus (*Denise DrieHaus*)

Kenton County Fiscal Court – Kris Knochelmann (*Spencer Stork*)

Warren County Board of Commissioners – David G. Young

(Martin Russell)

Municipalities With Population Over 5,000

Alexandria, Kentucky - Patrick Blair

Bellevue, Kentucky – Charlie Cleves

Blue Ash, Ohio – Brian Gath

Cheviot, Ohio

Cincinnati, Ohio – Mark Jeffreys (*John Brazina*)

Cold Spring, Kentucky

Covington, Kentucky – Steve Hayden (*Joseph Meyer*)

Dayton, Kentucky - Ben Baker

Deer Park, Ohio – Natasha Kohorst

Edgewood, Kentucky – Rob Thelen

Elsmere, Kentucky – Justin Wade

Erlanger, Kentucky – Jessica Fette

Board of Townships Over 40,000

Anderson Township – Josh Gerth
(Lexi Lausten)

Colerain Township – Dan Unger
(Tiphany Mayes)

Green Township – Tony Rosiello
(Adam Goetzman)

Liberty Township – Steve Schramm
(Tom Farrell)

Miami Township – Mary Makley Wolff
(Steve Kelly)

Union Township – Michael Logue
(Cory Wright)

West Chester Township – Ann Becker
(Arun Hindupur)

Board of Township Trustees Under 40,000

Butler County Association of Township Trustees & Clerks – Shannon Hartkemeyer
(Norma Pennock)

Clermont County Township Association – Tom Peck
(Teresa Hinners)

Hamilton County Township Association – Thomas Weidman

Warren County Association of Township Trustees & Clerks – Jonathan D. Sams
(Jeff Wright)

ABSTRACT

TITLE: OKI Fiscal Years 2026–2029 Transportation Improvement Program

DATE: April 10, 2025

AUTHOR: Andrew J. Reser, AICP

STAFF: Brett Porter
Regina Fields
Summer Jones
Rachel Stuckey

AGENCY: The Ohio-Kentucky-Indiana Regional Council of Governments is the Metropolitan Planning Organization for the Greater Cincinnati area. OKI works on an array of regional issues related to transportation planning, commuter services, and air and water quality.

Mark R. Policinski, Executive Director
Robert Koehler, Deputy Executive Director

REPORT

ABSTRACT: The preparation of the Transportation Improvement Program (TIP) is a requirement in order to qualify the region for continuing eligibility for federal highway and transit funding assistance. The TIP is a program of publicly funded transportation improvements for the OKI region. Although OKI produces the TIP on a biennial basis, each edition covers a period of four years. Along with an overview of the transportation planning process through which projects are generated, the TIP provides a list, by county, of all federally assisted highway and transit improvements that are sponsored by municipal, county or state governments or transit authorities.

RESOLUTION
OF THE BOARD OF DIRECTORS OF THE
OHIO-KENTUCKY-INDIANA REGIONAL COUNCIL OF GOVERNMENTS
CONCERNING ADOPTION OF THE
FY 2026 – 2029 TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

WHEREAS, the Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is designated as the Metropolitan Planning Organization (MPO) by the Governors of Ohio, Kentucky and Indiana acting through the Ohio Department of Transportation (ODOT), the Kentucky Transportation Cabinet (KYTC) and the Indiana Department of Transportation (INDOT) and in cooperation with locally elected officials for the counties of Butler, Clermont, Hamilton and Warren in the State of Ohio; Boone, Campbell and Kenton in the Commonwealth of Kentucky; and Dearborn County in Indiana; and

WHEREAS, the MPO has, pursuant to 49 U.S.C. 5323 (k), 23 U.S.C. 135, and 23 CFR 450.220, developed the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program as a short-range element of the OKI 2050 Metropolitan Transportation Plan (MTP); and

WHEREAS, the Cincinnati ozone maintenance area consists of the Ohio counties of Butler, Clermont, Hamilton and Warren; a portion of the Kentucky counties of Boone, Campbell and Kenton; a portion of the Indiana county of Dearborn; and OKI's OKI Fiscal Years 2026 – 2029 Transportation Improvement Program and MTP are subject to transportation conformity rules; and

WHEREAS, the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program includes the addition of projects, as well as other project changes, that are subject to transportation conformity requirements and that projects have been previously analyzed, and the conformity determination is relying on a previous regional emissions, and OKI has engaged in interagency consultation with federal, state and local partners, including the U.S. Department of Transportation, and those partners have concurred with the methodology used by OKI to determine conformity; and

WHEREAS, the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program and OKI 2050 Metropolitan Transportation Plan conform to all applicable U.S. Environmental Protection Agency (EPA) approved State Implementation Plans for air quality; and demonstrates fiscal constraint; and

WHEREAS, the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program has met the requirements of OKI's Public Participation Process; and

WHEREAS, the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program will become effective concurrent with US DOT approval of the State Transportation Improvement Programs for Ohio, Kentucky and Indiana: Now, therefore,

BE IT RESOLVED that the Board of Directors of the Ohio-Kentucky-Indiana Regional Council of Governments at its regular public meeting of April 10, 2025, hereby adopts the OKI Fiscal Years 2026 – 2029 Transportation Improvement Program as the short range element of the OKI 2050 Metropolitan Transportation Plan, and recommends that its members incorporate these projects into their planning for transportation improvements in their governmental units;

JOSH GERTH, PRESIDENT

AJR
4/10/25

RESOLUTION

**OF THE BOARD OF DIRECTORS OF THE
OHIO-KENTUCKY-INDIANA REGIONAL COUNCIL OF GOVERNMENTS**

**CONCERNING CERTIFICATION OF THE
URBAN TRANSPORTATION PLANNING PROCESS**

WHEREAS, the Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is designated as the Metropolitan Planning Organization (MPO) by the Governors of Ohio, Kentucky and Indiana, acting through the Ohio Department of Transportation (ODOT), the Kentucky Transportation Cabinet (KYTC) and Indiana Department of Transportation (INDOT) in cooperation with locally elected officials in the OKI Metropolitan Planning Area (MPA) as evidenced in the Agreement, number 3206, between ODOT and OKI dated July 1, 1979 and the Agreement between KYTC and OKI dated July 1, 1983 encompassing the Counties of Butler, Clermont, Hamilton and Warren in the State of Ohio, and Boone, Campbell and Kenton in the Commonwealth of Kentucky and Dearborn County, Indiana; and

WHEREAS, the federal regulations pertaining to Urban Transportation Planning, published as 23 CFR 450.334, require the MPO, ODOT, KYTC and INDOT to certify that the transportation planning process cooperatively conducted is in conformance with the regulations; and

WHEREAS, the federal regulations also require that the metropolitan transportation planning process be carried out in accordance with all applicable requirements including:

1. 23 U.S.C. 134, 49 USC 5303, and 23 CFR Part 450.300;
2. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR Part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR Part 21;
4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;
5. Section 1101(b) of the FAST ACT (Pub. L 114-357) and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
6. 23 CFR Part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR Parts 27, 37, and 38;

8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting the discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR Part 27 regarding discrimination against individuals with disabilities.

WHEREAS, the United States Department of Transportation conducted a certification review of the Ohio-Kentucky-Indiana Regional Council of Governments in October 2024, and issued a subsequent finding that the Ohio-Kentucky-Indiana Regional Council of Governments was fully certified as meeting all pertinent requirements: Now, therefore,

BE IT RESOLVED that the Board of Directors of the Ohio-Kentucky-Indiana Regional Council of Governments, at its regular public meeting of April 10, 2025 certifies, in consideration of the requirements listed herein and to the degree appropriate for the size of the area and the complexity of its transportation problems, that the urban transportation planning process is being carried out in conformance with all the applicable federal requirements.

JOSH GERTH, PRESIDENT

4/10/25
rwk

**TRANSPORTATION PLANNING PROCESS
CERTIFICATION FY 2026**

In accordance with 23 CFR 450.334, the Indiana Department of Transportation and the Ohio-Kentucky-Indiana Regional Council of Governments hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR part 450.300;
2. Sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101(e) (8) of the Infrastructure Investment and Jobs Act (IIJA) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
6. 23 C.F.R. part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37 and 38;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

CHAPTER 1: OVERVIEW

Agency Organization

The Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is the planning agency designated as the Metropolitan Planning Organization (MPO) for the greater Cincinnati area. Although OKI currently maintains an interdisciplinary staff dealing with planning issues in the environmental and regional development sectors, among others, the agency was initially formed to assist the region in meeting the “continuing, comprehensive and cooperative” transportation planning requirements of the 1962 Federal-Aid Highway Act.

The OKI region is composed of eight counties in three states: Butler, Clermont, Hamilton and Warren counties in Ohio; Boone, Campbell and Kenton counties in Kentucky; and Dearborn County in Indiana.

OKI is governed by a Board of Directors comprised of approximately 117 members representing elected officials from each member county, cities over 5,000 persons, county planning agencies, residents, transportation/transit agencies, townships over 40,000, associations representing townships under 40,000 and other elected or responsible persons. The Board of Directors meets on a quarterly basis. An Executive Committee of approximately 39 members of the Board meets monthly to review and direct the activity of the staff.

The Intermodal Coordinating Committee (ICC) meets on a monthly basis and makes recommendations to the Executive Committee. The ICC is composed of 61 members representing local governments and other area organizations whose position and experience enable them to assist the Board of Directors/Executive Committee in the evaluation of the technical aspects of transportation and regional planning.

The Prioritization Subcommittee of the ICC, which meets on an as needed basis, deals with all aspects of the preparation, maintenance and amendment of the Transportation Improvement Program (TIP), including ensuring the precepts of Transportation System Management (TSM) are applied in the process of short range planning—especially in the development of projects included in the TIP. The Prioritization Subcommittee is composed of the ICC, as a whole, with representation from the Board of Directors. This representation ensures the Board has input and knowledge of highway and transit projects as they are advanced to the TIP.

Metropolitan Transportation Plan

An important aspect of the long range planning process is the Metropolitan Transportation Plan (MTP). The MTP is a statement, expressed in terms of capital projects and programs, of the transportation system requirements needed to serve the forecasted travel demand for some specified future year, generally twenty years from the study baseline. The OKI Board of Directors adopted the MTP, known as the *OKI 2050 Metropolitan Transportation Plan* on June 13, 2024. Capacity-adding projects that are listed in the TIP must first be listed in the MTP and be financially and air quality constrained. This ensures that the TIP is consistent with the current OKI MTP.

The scoring process, shown in Appendix B, by which new highway and transit projects are evaluated and added to the TIP encourages the maintenance of the existing transportation system by placing emphasis on expanding modal alternatives and improving the transportation system's efficiency. This emphasis on maintenance of existing facilities in the TIP also provides consistency with the OKI MTP.

The OKI FY 2026-2029 TIP includes projects for improving highways that are accompanied by recommendations for improving bus service; advanced technologies to move traffic more efficiently; projects to help reduce drive-alone commuting including; ridesharing; bicycle and pedestrian projects; upgrading highway operating efficiency and projects that improve freight operations in the region.

Transportation Improvement Program

The TIP is a compilation of all publicly assisted transportation programs, including both highway and transit projects, constrained to available funding levels and prioritized by need. It is the region's program for transportation improvement--the mechanism by which local governments, acting together in a coordinated effort, place system improvements in a comprehensive view to allocate limited resources in the most beneficial manner to the region. Upon adoption by the OKI policy board (Board of Directors or the Executive Committee) the TIP becomes a policy document that directs the flow of transportation improvements in the region.

Inclusion in the TIP is a prerequisite for federal funding assistance. Any project phase must be included in the document in order to receive federal authorization in the current year. All phases of a project are shown in the TIP to demonstrate funding transparency. In Ohio and Indiana, highway projects are historically divided into three phases: preliminary engineering (PE), right-of-way acquisition (RW), including utility relocation if needed, and construction (CO). In Kentucky, highway projects are divided into five phases: preliminary engineering/early public coordination (PE), design (D), right-of-way (RW), utility relocation (UT), and construction (CO). These phases are staged over a period of years and advance with the project's progress. Since the construction phase is the final step, the project is removed from the TIP once it has been awarded, or let, to a contractor. For transit projects, the project is removed once the Federal Transit Administration approves the grant.

Highway projects may also be removed upon request of the sponsoring agency. This may occur as the agency revises its funding priorities or the cost of a project increases beyond what was originally planned. Newly developed projects are added to the TIP in two ways. At various times during the year, the OKI Board of Directors/Executive Committee will act on a resolution amending the TIP to modify existing projects or add new ones. Alternatively, when the TIP is updated and presented to the OKI Board of Directors/Executive Committee for adoption, it includes all newly developed projects funded with OKI sub-allocated federal funds that are recommended by the Prioritization Subcommittee and the ICC or projects of regional significance regardless of funding source. This process is subject to some limitations related to air quality conformity analysis that must be conducted on capacity adding projects listed in the

TIP. Capacity projects typically include roadway widening projects that provide additional through lanes on a highway.

A listing of all highway projects that have been implemented since the last major TIP update in April 2023 is shown in Chapter 7. Chapter 7 also provides a list of major projects that have been cancelled as requested by the project sponsor.

Prioritization

The process of prioritizing projects on a regional level requires the MPO to take a lead role in providing a forum for cooperative decision-making. With the limited nature of federal funds, and the necessity for scarce state and local funds to match these funds, it is incumbent upon local governments, acting cooperatively, to identify those projects and programs that will be most beneficial to the region.

In the OKI region, the ICC, with its Prioritization Subcommittee, provides the mechanics for prioritizing highway and transit projects using OKI sub-allocated federal funds that are included in the TIP. The OKI Prioritization Process enables the evaluation of a range of modal and multi-modal transportation projects against IJA Planning Factors. These projects will enhance the transportation system and potentially the region's livability. It is the responsibility of this group, with staff assistance, to evaluate existing and newly developed projects to add to the TIP. This action takes place with a list of recommended projects for inclusion in the TIP presented to the Board of Directors or Executive Committee.

The ICC's work in prioritizing projects is guided by the OKI Prioritization Process. The process is documented in *OKI-Allocated Federal Funds: Project Application Guidance for 2025 Project Prioritization Process* which describes the overall process and details the individual criteria used in evaluating projects. These criteria, along with their corresponding points, are shown in Appendix B. The process has been amended several times over the years to accommodate changes brought about by the enactment of the Intermodal Surface Transportation Act (ISTEA) in 1991, the Transportation Equity Act for the 21st Century (TEA-21) in 1997, the Safe Accountable Flexible Efficient Transportation Equity Act: A Legacy for Users in 2005, the Moving Ahead for Progress in the 21st Century Act in 2012 (MAP-21), the Fixing America's Surface Transportation Act (FAST Act) in 2015, and the Infrastructure Investment and Jobs Act (IIJA) in 2021.

The flexible funding component of the process allows highway, transit and non-highway freight projects to compete for federal funds allocated to OKI. These include Surface Transportation Block Grant Program (STBG), Congestion Mitigation and Air Quality (CMAQ), Carbon Reduction Program (CRP), and Transportation Alternatives (TA) funds in Ohio, Surface Transportation Block Grant funds for Northern Kentucky (SNK), Carbon Reduction Program (CRP), and TA federal funds in Kentucky.

The prioritization process for STBG, CMAQ, CRP, and TA applications for funding are shown in Appendix B. CMAQ funded projects in Ohio must be reviewed by a statewide committee to determine their eligibility.

CHAPTER 2: PERFORMANCE MEASURES

The Infrastructure Investment and Jobs Act (IIJA) emphasized incorporating performance management into transportation planning and programming processes. National performance goals have been established for seven key areas, and states are required to establish performance targets in support of these national goals. Projects in each of Ohio, Kentucky, and Indiana's State Transportation Improvement Programs (STIP), will address transportation needs in one or more of these key areas, which are:

- Safety
- Infrastructure Conditions
- Congestion Reduction
- System Reliability
- Freight Movement & Economic Vitality
- Reduced Project Delivery Delays

ODOT, INDOT, KYTC, MPOs, RTPs, and transit agencies have worked together to establish baseline conditions and develop regional or statewide targets for each of the performance measures below. Monitoring these performance measures assists the DOTs in setting goals, adjusting priorities, allocating resources, and developing policy. A list of the performance measures that support the national goal areas is shown below. ODOT, INDOT, and KYTC will continue working with its partners to establish and refine statewide performance measures that support the national performance areas.

- Highway Safety
 - Number of Fatalities
 - Rate of Fatalities
 - Number of Serious Injuries

 - Percent of non-revenue vehicles and equipment that have met or exceeded their useful life
 - Condition of facilities
 - Percentage of infrastructure with performance restrictions

Highway Safety

All states are required to develop a Strategic Highway Safety Plan (SHSP) that uses crash data to identify the greatest causes of traffic crashes, serious injuries and fatalities on public roads. A variety of state and federal safety agencies and private sector organizations developed each state's SHSP (Ohio, Kentucky and Indiana), which focuses on safety for all road users, including cars, trucks, trains, motorcycles, pedestrians and bicycles. The OKI TIP and Plan use crash data developed by the SHSP for each state to evaluate and prioritize locations for funding and further the attainment of each state's safety performance targets. Many of the projects in the OKI TIP and Plan are directly linked or are consistent with the safety plans and programs for our state programs as well as overall requirements of IIJA performance-based planning.

This TIP and TIP amendments must be developed in compliance with the transportation performance measure requirements of the IIJA for safety measures. In February 2023, OKI's Executive Committee adopted a resolution supporting each individual state safety performance targets, for the five safety performance measures listed below, as established by ODOT, KYTC and INDOT. OKI has agreed to plan and program projects so that they contribute toward

accomplishment of each state's safety performance measure targets. The Statewide Safety Performance Targets for Calendar Year 2025 are provided below:

OKI Supported Statewide Transportation Safety Targets CY 2025			
	Ohio	Kentucky	Indiana
Number of Fatalities	1,180	745	812.4
Fatality Rate per 100 MVMT	1.08	1.54	1.009
Number of Serious Injuries	7,482	2,542	3,031.9
Serious Injury Rate per 100 MVMT	6.51	5.84	3.402
Number of Non-Motorized Fatalities and Serious Injuries	809	311	363.4

Transit Safety

Federal Transit Administration (FTA) and FHWA published the Public Transportation Agency Safety Plan (PTASP) Final Rule that requires States and operators of public transportation systems that are recipients and sub-recipients of FTA Section 5307 funding to develop and certify their PTASP, including establishing safety performance targets that meet the requirements of part 673 in Title 49 of the Code of Federal Regulations and 49 U.S.C. 5329(d). MPOs, under Federal Rule 23 C.F.R. § 450.306, are then required to establish regional transit safety performance targets for the MPO region within 180 days following receipt of the final certified Public Transportation Agency Safety Plan.

The regional transit safety performance targets will both help improve the safety of public transportation systems in the OKI planning area and assist each state, OKI, and public transportation providers in developing investment priorities for upcoming transit projects within their jurisdictions. The table below presents the transit safety targets for the OKI Metropolitan Planning Area as adopted in February 2021.

Regional Transit Safety Performance Targets							
Mode of Transit Service	Fatalities		Injuries		Safety Events		System Reliability
	Total	Rate	Total	Rate	Total	Rate	
Demand Response	0	0.00	6	0.15	7	0.13	23,039
Motor Bus	0	0.00	23	0.17	23	0.15	11,003
Commuter Bus	0	0.00	3	0.40	2	0.0	91,107
Streetcar	0	0.00	1	0.70	13	11.5	8,000

Infrastructure

FHWA established performance measures for State DOTs to use in managing pavement and bridge performance on the National Highway System (NHS). The National Performance Management Measures' Assessing Pavement Condition for the National Highway Performance Program and Bridge Condition for the National Highway Performance Program Final Rule address requirements established under MAP-21 and continued with IIJA. State DOT targets have been established for percentage of interstate pavements in good condition, percentage of interstate pavements in poor condition, percentage of non-interstate NHS pavements in good condition, percentage of non-interstate NHS pavements in poor condition, percentage of NHS bridges by deck area classified in good condition and percentage of NHS bridges by deck area classified in poor condition. A good condition suggests no major improvement is needed and poor condition suggests major reconstruction investment is needed. In September 2018, OKI's Executive Committee adopted a resolution supporting each individual state infrastructure performance targets, for the six infrastructure performance measures listed above, as established by ODOT, KYTC and INDOT. Ohio, Kentucky and Indiana developed new performance targets, which OKI adopted by resolution in September 2022. OKI adopted a

resolution In February 2025, to support adjustments to four year targets for percent of bridges on the NHS in good and poor condition in Kentucky. OKI has agreed to plan and program projects so that they contribute toward accomplishment of each state's infrastructure performance measure targets. The Statewide Infrastructure Performance Targets are provided below.

Infrastructure Targets						
	Ohio		Kentucky		Indiana	
	2-year	4-Year	2-Year	4-Year	2-Year	4-Year
% of Interstate Pavements in Good Condition	55%	55%	55%	60%	60%	62%
% of Interstate Pavements in Poor Condition	1%	1%	4%	3%	1%	1%
% of Non-Interstate Pavements in Good Condition	40%	40%	35%	40%	50%	48%
% of Non-Interstate Pavements in Poor Condition	2%	2%	6%	5%	1.5%	1.5%
% of NHS Bridges in Good Condition	55%	55%	31%	25%	49%	47.5%
% of NHS Bridges in Poor Condition	3%	3%	3.7%	4%	3%	3%

System Performance

FHWA established six performance measures to assess system performance:

- Percent of reliable person-miles traveled on the Interstate system
- Percent of reliable person-miles traveled on the non-Interstate NHS
- Interstate truck travel time reliability index
- Annual peak hours of excessive delay per capita
- Percent of non-single occupancy vehicle (non-SOV) urbanized area travel
- Emission reductions under the CMAQ program (emissions of volatile organic compounds (VOC), oxides of nitrogen (NOx) and fine particulates (PM2.5))

In September 2022, OKI adopted by resolution each individual state's system performance targets, for the six system performance measures listed above, as established by ODOT and KYTC. OKI continues to plan and program projects so that they contribute toward accomplishment of each state's system performance measure targets.

In September 2024, OKI's Executive Committee adopted a resolution supporting the CMAQ Mid Performance Plan, which assesses the progress of two and four-year congestion performance measures and targets during the full-performance period, for three areas: annual peak hours of

excessive delay per capita (PHED), percent of (Non-SOV) urbanized area travel, and emissions (NOx, VOC, PM2.5) reductions under the CMAQ program. OKI supported each State's decision not to adjust targets for Peak Hour Excessive Delay (PHED) and Non-Single Occupancy Vehicle (Non-SOV) Travel. OKI elected to establish new regional two and four-year targets for On-Road Mobile Source Emissions (NOx and VOC).

The Statewide System Performance Targets for 2022-2026 are provided below:

System Performance Targets						
	Ohio		Kentucky		Indiana	
	2-year	4-Year	2-Year	4-Year	2-Year	4-Year
% of Reliable Interstate Miles Traveled	85%	85%	95%	93%	93%	93.5%
% of Reliable Non-Interstate Miles Traveled	80%	80%	91%	91%	N/A	93.5%
Interstate Truck Travel Time Reliability Index	1.5	1.5	1.30	1.35	1.32	1.3
Annual Hours of Peak Hour Excessive Delay Per Capita	9	9	9	9	N/A	N/A
% of Non-SOV Travel	18.5%	18.5%	18.5%	18.5%	N/A	N/A
VOC Total Emission Reduction (kg/day)	8.62	19.90	8.62	19.90	8.62	19.90
NOx Total Emission Reduction (kg/day)	17.51	40.40	17.51	40.40	17.51	40.40

Transit Asset Management (TAM)

Congress passed the Moving Ahead for Progress in 21st Century (MAP-21) and the Fixing America's Surface Transportation (FAST) Act that mandates States, under Federal Rule 23 CFR 490, to establish a performance and outcome based program for transportation decisions.

As the designated MPO, OKI is responsible for setting through a collaborative process, TAM performance targets and measures for the Public Transit Agencies in the OKI Region in accordance with 49 CFR 625.33 and, as the designated recipient for 5310 funds, OKI is also responsible for developing a Tier II Group TAM Plan that includes an inventory of capital assets, condition assessment, identification of decision support tools or processes, and investment prioritization for performance targets for sub recipients of FTA 5310 funds in the OKI Region.

OKI conducted Transit Asset Management and State of Good Repair planning processes with both the Public Transit Agencies and 5310 sub recipients in the region to inventory assets and develop the TAM Plan Performance Management Targets and Measures to advance safe and reliable transit service in the OKI region.

OKI has collaborated and coordinated with local, state and federal agencies including ODOT, KYTC, INDOT and FHWA, The Transit Authority of Northern Kentucky (TANK), Butler County Regional Transit Authority (BCRTA), Warren County Transit System (WCTS), Clermont Transit Connection (CTC), the Southwest Ohio Regional Transit Authority (Metro), the City of Cincinnati Streetcar, the 5310 Oversight Team and the OKI Intermodal Coordinating Committee (ICC) has recommended regional TAM performance targets and measures.

The Executive Committee of the Ohio-Kentucky-Indiana Regional Council of Governments, at its regular public meeting on September 8, 2022, approved the Tier II Group Transit Asset Management (TAM) Plan and adopted the Transit Asset Management Performance Measure Targets for both Group TAM Targets and Regional Public Transit TAM Targets. Furthermore, OKI agreed to plan and program projects so that they contribute toward accomplishment of TAM Performance Measure Targets.

Group TAM Performance Targets & Measures

As the Group TAM sponsor for the region, OKI has compiled data about the assets owned by Tier II agencies throughout the Greater Cincinnati region. This data has been collected with the intent of informing future investment priorities for the Enhanced Mobility of Seniors & Individuals with Disabilities (Section 5310) program. OKI has set performance targets for the region, which are as follows:

Tier II Group TAM Targets for the Region

Asset Category - Performance Measure	Asset Class	2023 Target	2024 Target	2025 Target	2026 Target	2027 Target
REVENUE VEHICLES						
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	CU - Cutaway Bus	5%	5%	5%	5%	5%
	MV - Mini-van	10%	10%	10%	10%	10%
	VN - Van	25%	25%	25%	25%	25%
EQUIPMENT						
Age - % of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue/Service	25%	25%	25%	25%	25%
	Trucks and other Rubber Tire	50%	50%	50%	50%	50%

Capital Asset Inventory

Agencies in the OKI Group TAM Plan have a total of 222 assets, of which 194 are revenue vehicles and 28 are equipment. Overall 19 percent of revenue vehicles and 36 percent of equipment meet or exceed the Useful Life Benefit. A complete Asset Inventory and Condition Data Listing can be found in the TAM Plan.

TAM Plan and Role in TIP Project Selection

Investment Prioritization

Achieving the TAM performance targets will rely upon efforts made by the transportation providers included in the TAM plan and serving clients in the OKI region. Priorities for implementation include projects or programs that help sustain the performance targets identified by the plan.

It is expected that many of the efforts undertaken to achieve the targets of TAM Plan will rely, at least in part, on federal funding available through the Federal Elderly Individuals and Individuals with Disabilities (Section 5310) program. The OKI Coordinated Public Transit – Human Services Transportation Plan (Coordinated Plan) is targeted to serving the populations served by this federal program and is the basis for awarding federal funding for them in most of the Cincinnati urbanized area. A detailed description of the competitive selection process for Section 5310 program funds is provided in Appendix A of the Coordinated Plan.

Proposed Investments

The following table shows the fleet replacement goals for each vehicle type in order to meet the TAM target for each year through 2027. A breakdown of proposed investments and associated estimated costs can be found in Appendix B of the TAM Plan.

Fleet Replacement Goals					
Cutaway Bus	2023	2024	2025	2026	2027
Quantity Exceeding ULB (10 Year)	14	16	16	26	45
Percent Exceeding ULB Without Replacement	20%	23%	23%	38%	65%
TAM Target	5%	5%	5%	5%	5%
Replacement Quantity to Maintain TAM Target	11	13	13	23	42
Minivan	2023	2024	2025	2026	2027
Quantity Exceeding ULB (8 Year)	17	31	42	47	53
Percent Exceeding ULB Without Replacement	28%	51%	69%	77%	87%
TAM Target	10%	10%	10%	10%	10%
Replacement Quantity to Maintain TAM Target	11	25	36	41	47
Van	2023	2024	2025	2026	2027
Quantity Exceeding ULB (8 Year)	29	32	35	50	56
Percent Exceeding ULB Without Replacement	45%	50%	55%	78%	88%

TAM Target	25%	25%	25%	25%	25%
Replacement Quantity to Maintain TAM Target	13	16	19	34	40
Non-Revenue/Service Automobile	2023	2024	2025	2026	2027
Quantity Exceeding ULB (8 Year)	10	14	18	20	20
Percent Exceeding ULB Without Replacement	43%	61%	78%	87%	87%
TAM Target	25%	25%	25%	25%	25%
Replacement Quantity to Maintain TAM Target	5	9	13	15	15
Trucks and other Rubber Tire Vehicles	2023	2024	2025	2026	2027
Quantity Exceeding ULB (8 Year)	4	4	4	4	4
Percent Exceeding ULB Without Replacement	80%	80%	80%	80%	80%
TAM Target	50%	50%	50%	50%	50%
Replacement Quantity to Maintain TAM Target	1	1	1	1	1

Recent regional annual allocations of 5310 funds have totaled about \$1.4 million. At least 55% of that allocation must be programmed for vehicles or vehicle support. As future year allocations of 5310 funds become known, OKI will prioritize and program projects that utilize these funds in a manner that will contribute toward meeting the targets.

Regional Public Transit Performance Measures and TAM Targets

OKI collaborated with the public transit providers in the region (BCRTA, Cincinnati Streetcar, CTC, Metro, TANK and WCTS) to develop the asset inventory, targets, and investment priorities for the region. Each transit agency develops and executes its TAM plan which will contribute towards the regional targets. It is determined that a key goal for all the agencies is replacement of revenue vehicles. OKI has established the regional targets as follows:

Regional Transit Performance Measures & Targets		
Asses Category	Performance Measure	Regional Target
Rolling Stock (all revenue vehicles)	Age- % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	15%
Equipment (non-revenue vehicles)	Age- % of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	50%
Facilities (all buildings or structures)	Condition- % of facilities with a condition rating below 3.0	5%

	on the FTA Transit Economic Requirements Model (TERM) Scale	
Infrastructure (streetcar track)	Percentage of track segments with performance restrictions by class	10%

OKI will continue to coordinate with local transit agencies to update performance measures and targets and during development of Public Transportation Agency Safety Plans (PTASP).

Contribution of TIP Toward Meeting Performance Targets

The TIP is expected to contribute toward meeting the established performance targets. OKI, by resolution, has agreed to program projects that contribute toward achieving the established performance targets. Projects utilizing OKI's sub-allocated funds are selected, in large part, based on their expected impact on established performance measures. OKI's Project Prioritization Process incorporates safety, travel time and infrastructure condition performance metrics. ODOT, KYTC and INDOT have initiatives in place that enable them to invest available funding effectively to achieve their performance goals. For projects using Federal funding, such as National Highway Performance Program (NHPP), National Highway Freight Program (NHFP), and Surface Transportation Block Grant (STBG) funds (excluding urbanized area dedicated funds), along with State Construction funds, ODOT, KYTC and INDOT use a data-driven performance-based process to help prioritize projects for inclusion in the recommended State Transportation Improvement Program (STIP). For example, KYTC has developed a data-driven, objective approach to compare capital improvement projects and prioritize transportation spending. The approach is called The Strategic Highway Investment Formula for Tomorrow (SHIFT).

OKI has identified FY 2026-2029 TIP projects, regardless of funding source, that are expected to contribute toward accomplishing the state safety targets, highway and bridge condition targets, system performance targets and regional transit targets. A summary of the number and programmed costs (combined federal, state and local funds) are provided in the tables below. Only costs within the TIP timeframe are included.

TIP Project Impacts on Performance Measures		
Projects Improving Safety	# of Projects	Total \$ (Millions)
Ohio	58	\$196.10
Kentucky	20	\$226.30
Indiana	6	\$10.94
Projects Improving Pavements Interstate	# of Projects	Total \$ (Millions)
Ohio	16	\$178.70
Kentucky	1	\$20.00

Indiana	1	\$7
Projects Improving Pavements Non-Interstate NHS	# of Projects	Total \$ (Millions)
Ohio	19	\$98.30
Kentucky	9	\$35.70
Indiana	2	\$15.43
Projects Improving NHS Bridges	# of Projects	Total \$ (Millions)
Ohio	41	\$192.10
Kentucky	5	\$149.38
Indiana	8	\$21.80
Projects Improving Travel Time Reliability Interstate	# of Projects	Total \$ (Millions)
Ohio	10	\$718.10
Kentucky	5	\$1,154.20
Indiana	0	\$0
Projects Improving Travel Time Reliability Non-Interstate NHS	# of Projects	Total \$ (Millions)
Ohio	2	\$470.20
Kentucky	11	\$298.51
Indiana	0	\$0
Projects Improving Peak Hour Excessive Delay	# of Projects	Total \$ (Millions)
Ohio	16	\$1,210.80
Kentucky	4	\$114.90
Indiana	0	\$0.00
Projects with CMAQ Funding	# of Projects	Total \$ (Millions)
Ohio	14	\$22.40
Kentucky	0	\$0.00
Indiana	0	\$0.00
Projects Improving Non-SOV Travel	# of Projects	Total \$ (Millions)
Ohio	37	\$121.10
Kentucky	29	\$92.44
Indiana	0	\$0.00

CHAPTER 3: FINANCIAL

Federal Funds

Federal transportation funding is authorized through the federal transportation bill, the Infrastructure Investment and Jobs Act (IIJA). The IIJA was signed into law on November 15, 2021. The IIJA represents a historic investment to modernize the nation's roads, bridges, transit, rail, ports, airports, broadband, drinking and wastewater infrastructure. The Federal Highway Administration (FHWA) and Federal Transit Administration have many formula-based and discretionary funding programs. Most FHWA and FTA funding programs require a state or local match. Fiscal Constraint for Federal Funds Allocated to the States

An additional feature of the TIP is that the projects listed in the document are financially constrained. All highway and transit programs list associated funding sources and amounts that are needed to complete the projects. These sources include federal, state, and local funds that have been committed to a project in a specific fiscal year. Table 3-1 shows budgets, estimates, and balances for federal funding types in the Ohio portion of the TIP. Budgets include any carryover from the prior fiscal year. In Ohio, ODOT sub-allocates Surface Transportation Block Grant Program (STBG), Carbon Reduction (CRP), and Transportation Alternatives (TA) federal funds to the MPO's, including OKI. The OKI budget is fiscally constrained in Ohio during the period fiscal year 2026 through 2029. The Ohio CMAQ program is a statewide program for the MPO's, and fiscal constraint is demonstrated on a statewide level rather than on an individual MPO level.

Fiscal Constraints

STIP Year	2025	2026			2027			2028			2029		
STIP Fund Type	Carry Forward	Budget	Estimate	Cumulative Balance	Budget	Estimate	Cumulative Balance	Budget	Estimate	Cumulative Balance	Budget	Estimate	Cumulative Balance

Federal budgets are estimated full-year apportionment amounts assuming no inflation.

Note: The funding information is for S/TIP planning purposes only and is not intended to be the official record of carry forward, budgets, and fiscal balances.

Table 3-2 provides information on the fiscal constraint analysis for OKI's sub-allocated federal funds for Kentucky. The Kentucky Transportation Cabinet sub-allocates Surface Transportation Program for Northern Kentucky (SNK) funds, CRP, and TA federal funds; the Cabinet does not pass through CMAQ funding to the MPO's, nor does it require constraint against a pass-through obligation ceiling. The table documents that the Kentucky portion of the region has achieved fiscal constraint for pass-through funds with the FY 2026 – 2029 TIP. Table 3-3 provides information on the Kentucky and Indiana funding in the TIP for all funding sources. In Indiana, the Indiana Department of Transportation (INDOT) does not sub-allocate federal capital funds to OKI. As of the 2020 Census, all portions of Dearborn County Indiana are outside of the Cincinnati Urban Area and therefore not eligible for sub-allocated funds.

Fiscal Constraint for Funds Allocated to Transit Agencies

There are six transit agencies in the OKI region: Butler County RTA, City of Cincinnati Streetcar, Clermont Transportation Connection, SORTA, TANK and Warren County Transit System. These agencies rely on federal, state, and local funds for operations, maintenance and capital expenses. The Federal Transit Administration (FTA) has several funding sources for operating, maintenance and capital expenses. Section 5307 funds can cover up to 50% of annual operating costs and 80% of annual capital and planning costs, after excluding projected annual fare revenue. Section 5339 funds can cover up to 80% of capital costs to replace, rehabilitate and purchase buses and related equipment, and to construct bus-related facilities. Section 5310 funds are used for the transportation needs of seniors and persons with disabilities and can cover up to 80% of capital costs to replace, rehabilitate and purchase paratransit vehicles and equipment. OKI acts as the designated recipient for the Section 5310 program. 5310 funds have been awarded to various private non-profit agencies in the region. In addition, the transit agencies can apply to receive OKI sub-allocated FHWA STBG and CMAQ funds.

Table 3-4 below, summarizes the transit funds and fiscal constraint for Ohio transit projects included in the TIP. Table 3-5 summarizes the transit funds and fiscal constraint for Kentucky transit projects included in the TIP. Table 3-6 shows the most recent funding split for all six agencies in the OKI region.

Fiscal Constraints

OKI-SNK	\$754,761	\$3,907,415	\$3,456,000	\$0	\$8,118,176
				Total	\$114,362,720

Table 3-6: FY 2024 Cincinnati UZA Apportionment Funding Split to Transit Providers

	Final 5307/5340 Apportionment	Final 5339 Apportionment	Final 5337 Apportionment
SORTA	\$19,186,569	\$1,650,323	\$37,376
CONNECTOR	\$283,375	\$0	\$329,747
TANK	\$5,897,607	\$515,611	\$0
BCRTA	\$1,755,666	\$224,985	\$0
CTC	\$0	\$0	\$0
WCTS	\$673,640	\$0	\$0
TOTAL	\$27,796,857	\$2,390,919	\$367,123

Authorized representatives from each agency have reviewed, discussed, and agreed upon these funding splits. In addition, the \$2,192,171 FY24 Section 5310 funds apportioned to the UZA is awarded competitively to agencies providing transportation to seniors and those with disabilities.

CHAPTER 4: PUBLIC INVOLVEMENT

Title VI, ADA Compliance & Public Involvement

OKI actively incorporates the transportation provisions of the Americans with Disabilities Act (ADA) of 1990 into the urban transportation planning programs. The purpose of ADA/Title II is to ensure that individuals with disabilities have the opportunity to use the transportation system in an accessible and safe manner. An integral component of the ADA planning process is for local government transportation infrastructure owners to prepare and implement ADA Transition Plans that inventory accessibility conditions and define strategies and schedules for implementing fully accessible pedestrian networks. OKI is incorporating ADA Transition Planning into the regional transportation planning programs by:

- Surveying member local governments to establish and determine whether they have active ADA Transition Plans.
- Serving as ADA Transition Plan information and requirements clearing house for member local governments
- Reviewing local government transportation improvement project funding requests for consistency with ADA accessibility standards
- Assisting member local governments in surveying their transportation infrastructure to develop ADA inventories.

Each project considered for inclusion in the FY 2026-2029 TIP using OKI sub-allocated federal funds was reviewed by OKI's Community Advisory Committee. The committee awarded points based upon the anticipated impacts and benefits on the local community. The point structure is shown in Appendix C. Public involvement requirements for applicants seeking federal funds through OKI ensure that public involvement and Title VI compliance is achieved by project applicants and OKI throughout the development of the TIP.

All public input requirements for the TIP followed the requirements of the OKI Participation Plan, last updated in 2022.

The draft TIP, as well as a video presentation, was presented for public comment via an online posting on March 10, 2025. The comment period remained open until April 9, 2025. A public meeting was held in the OKI office, and virtually, on April 1, 2025. The announcement of the scheduled public meeting was published in the *Cincinnati Enquirer*, the *Cincinnati Herald*, and *La Mega Media/Urban 1* Facebook page and website, and on OKI social media and website. Comments were submitted to OKI in writing, by e-mail, in-person or virtually during the public meeting. A summary of the public comments was presented to the OKI Board of Directors at their April 10, 2025 meeting. The public comment summary is provided in Appendix C.

CHAPTER 5: AMENDMENTS/MODIFICATION GUIDELINES

TIP Amendments/Administrative Modifications

Occasionally, TIP amendments will be needed when project information currently listed in the document needs to be changed or projects need to be added or deleted. Project sponsors, such as the Departments of Transportation, local communities or transit agencies will inform OKI when such changes are needed to reflect current conditions for transportation projects. Any capacity adding project must already be listed in the OKI Regional Transportation Plan before inclusion in the TIP. These amendments are presented in resolution form to the ICC and the Board of Directors/Executive Committee for approval.

Some changes to a transportation project are minor and only require an administrative correction to show the change in the TIP. Typically, these minor changes involve a movement of a particular phase of a project from one fiscal year to another, within the four-year planning horizon of the TIP, or a minor change in the funding amount. The addition or deletion of a project or project phase, or a significant change in funding amounts or scope would require a TIP amendment.

The following guidelines are used to determine if a change may be made using an administrative modification. If the change falls within these guidelines, an administrative modification may be used; changes that exceed these guidelines require an amendment. These guidelines are based on recommendations from ODOT and were approved by the OKI Executive Committee in November 2021. TIP Amendments and Administrative Modifications can be found in Appendix D.

<u>Highway (FHWA Projects)</u>	<u>Transit (FTA Projects)</u>
Revision to projects in TIP Grouped Project	Revision to projects in TIP Grouped Project
Phase funding revision within threshold (see below)	Project funding revision within threshold (see below)
Revision to TIP Fund Type or FY within TIP period	Revision to TIP Fund Type of FY within TIP period

\$10,000,000 or greater	20%	\$5,000,000 or greater	20%

CHAPTER 6: PROJECT IMPLEMENTATION

Project Implementation

Since FY 2023, more than \$768 million in federal, state, and local funds have been awarded to projects. This includes nearly \$70 million of OKI sub-allocated federal funds. The project listings on the following pages illustrate the progress made in implementing the highway and transit programs in the previous FY 2024-2027 TIP. Once projects are awarded for construction, they are removed from the TIP.

TIP Projects Awarded since in July 1, 2023

CHAPTER 7: CURRENT HIGHWAY PROJECTS IN OKI REGION

Highway Project Listing and Maps by County

1. Ohio – Butler
2. Ohio – Clermont
3. Ohio – Hamilton
4. Ohio – Warren
5. Kentucky – Boone
6. Kentucky – Campbell
7. Kentucky – Kenton
8. Indiana – Dearborn

How to Read the Highway Projects Listing

The following pages present the funding and implementation schedules for all transportation improvement projects proposed to be undertaken in the state fiscal years 2026-2029. Project cost estimates in the FY2026-2029 TIP are developed by individual project sponsors in year of expenditure estimates. The cost estimates for projects new to the TIP were developed by the project sponsors based on historical costs for projects of comparable scale and design. In addition to providing the year(s) of funding, funding types, and funding estimates, these schedules also provide the information shown in Table 7-1. Details on the types of federal, state and local funds can be found in Table 7-2. Phase codes and descriptions can be found in Table 7-3. Project costs are monitored on an ongoing basis. The projects costs listed are updated periodically with TIP amendments or modifications.

Table 7-1: Project Information

<u>Name/Abbreviation</u>	<u>Definition</u>
TIP ID	Identification number assigned to the project by the state department of transportation when the project is entered into the state system. In Ohio, this is referred to as a Project ID (PID). In Kentucky, this is referred to as an Item Number. In Indiana, this is referred to as a Des Number.
Project Name	May include road name or road number. Projects in Ohio proceed the road number with a three letter county designation.
Location	Describes the project location.
Description	Description of the project including, but not limited to, the type of work, additional location details and associated projects.

Sponsor	State agency or local government sponsor. The sponsor is responsible for the state or local matching funds and the overall implementation of the project.
Air Quality	Projects are either “Exempt” from transportation air quality conformity requirements or “Non-exempt (Analyzed)”. “Non-exempt” projects have been included in a regional emission analysis and conformity determination.
Total Project Estimate:	Total costs to complete the project. May include costs that fall outside the fiscal years of the TIP.

Table 7-2: Funding Types-FHWA Administered Funds

Listing in TIP	Description
BRO	Federal funds administered by KYTC for bridge program
Discretionary / Earmark	FHWA administered discretionary programs representing special funding categories where FHWA solicits for candidates and selects projects for funding based. Each program has its own eligibility and selection criteria that are established by law, by regulation, or administratively.
Emergency	Federal Emergency Relief Program to repair damaged roads and bridges.
Federal	Undefined Federal funds
Garvee / SIB Repayments	State authorized debt instruments in Ohio issued to advance construction of certain capital highway projects. The bonds are 80% to 90% reimbursable by the federal government. The State Infrastructure Bank (SIB) is used as a method to fund transportation projects and is capitalized with state general revenue funds, state motor fuel tax funds and Federal Title XXIII Highway Funds.
Local Programs	Local sponsored projects from ODOT-attributable federal funding programs such as County Surface Transportation, County Highway Safety Program, County Local Bridge, Municipal Bridge, Local Major Bridge, Small Cities, Transportation Alternative Program, Safe Routes to School
Major Programs	Federal funds administered by ODOT such as ODOT’s Major Bridge Program, Multi-Lane Major Rehab Program, and Transportation Review Advisory Council (TRAC)
MPO CMAQ	OKI-allocated federal CMAQ funds in Ohio. Managed statewide amount 8 largest MPO’s
MPO CRP	OKI-allocated federal Carbon Reduction Program funds
MPO STBG	OKI-allocated federal Surface Transportation Block Grant funds
MPO TA	OKI-allocated federal Transportation Alternative funds

National Highway Freight	Maritime and Freight Program
Preservation	Federal funds administered by ODOT for District Pavement and Bridge Preservation
Rail	Federal funds administered by ODOT for Railroad Crossing Safety
Rec Trails	Recreational Trails Program administered by Ohio Department of Natural Resources
Safety	Federal funds administered by ODOT for the Highway Safety Improvement Program
State	ODOT State Funded Programs or state matching funds
NH	National Highway Performance Program
OKI-CRP	OKI's Sub-allocated Carbon Reduction Program federal funds for Kentucky
OKI-SNK	OKI's Sub-allocated Surface Transportation Block Grant Program federal funds for Northern Kentucky
OKI-TAP	OKI's Sub-allocated Transportation Alternatives federal funds for Kentucky
PM	Preventative Maintenance in Kentucky
STBG	Federal Surface Transportation Block Grant funds administered by KYTC or INDOT.
TAP	Federal Transportation Alternatives funds administered by KYTC.

Table 7-2: Funding Types-State and Local Funds

<u>Listing in TIP</u>	<u>Description</u>
Garvee Debt Service / SIB	State authorized debt instruments in Ohio issued to advance construction of certain capital highway projects. The bonds include 10% to 20% state funds. State Infrastructure Bonds in Ohio also include some state funds.
SPP	State Priority Project in Kentucky
Labor	State funds for labor in Ohio
State	State matching funds
Local	Local matching funds. Typically 10%-20% match required for federal funds.
Contrib Svcs	Local contributed services used to match federal funds

Table 7-3: Phase Codes

<u>Phase Name/Abbreviation</u>	<u>Definition</u>

CHAPTER 8: GROUPED PROJECTS

Transportation planning regulations applicable to the development and content of TIPs allow that projects that are not considered to be of appropriate scale for individual identification to be combined or grouped under a single listing. Such listings are grouped by function, work type, and/or geographic area and must be consistent with the exempt project criteria contained in the Environmental Protection Agency's Transportation Conformity Regulations (40 CFR part 93). Such projects are usually non-controversial and produce negligible impacts - other than positive benefits for safety, traffic operations, system preservation, etc. Typically, these projects are undertaken to correct existing problems/deficiencies, enhance preservation, or improve safety. Many are initiated by DOT traffic operations or maintenance staff to correct existing problems or deficiencies, or they are the result of successful grant applications by local government agencies.

When utilizing a Grouped Project, the below processes and criteria are followed:

- Projects are Air Quality exempt status
- Projects have Environmental document type of D1 or below
- Projects are non capacity-adding
- Projects are consistent with ODOT, KYTC, INDOT plans and the OKI Metropolitan Transportation Plan

A project utilizing a Grouped Project does not require a TIP amendment. They will be incorporated into the TIP with an Administrative Modification. Funding thresholds for each Grouped Project will be monitored by ODOT, KYTC and INDOT. If a Grouped Project estimate for a fiscal year reaches the threshold, then an amendment would be needed to increase that particular Grouped Project estimate in the statewide TIP.

The list of Ohio, Kentucky, and Indiana Grouped Project categories and budgets are provided in the Tables 8-1, 8-2, and 8-3 below. A listing of individual projects within each category is shown in Table 8-4 and 8-5. The listing of individual projects should be considered as information only, and ODOT, KYTC and INDOT maintain the official listing as part of the STIP. However, OKI believes it is important to list these projects so local officials, and the public are aware of all transportation projects in the region. All OKI funded highway and transit projects, regardless of any other criteria, will not be listed under a Grouped Project.

Group Budgets

CHAPTER 9: TRANSIT PROJECTS

Transit Project Listing and Agency

1. **Butler County Regional Transit Agency**
2. **City of Cincinnati Streetcar**
3. **City of Middletown Transit Service**
4. **Clermont Transportation Connection**
5. **OKI-5310 funds for local non-profits**
6. **Southwest Ohio Regional Transit Agency**
7. **Warren County Transit Service**
8. **Transit Authority of Northern Kentucky**

There are six public transit agencies in the OKI region: Butler County RTA, City of Cincinnati Streetcar, Clermont Transportation Connection, Southwest Ohio Regional Transit Authority (SORTA), Transit Authority of Northern Kentucky (TANK) and Warren County Transit. All the transit systems, except Warren County Transit, provide fixed route service. Warren County Transit operates only demand responsive service. Butler County RTA and Clermont Transportation Connection operate both fixed route and demand responsive service. Middletown Transit is managed by BCRTA and operates fixed transit within the City of Middletown.

The transit agencies receive most of their funding directly through the Federal Transit Administration (FTA). Some of the agencies also receive state funds. Section 5307 and 5339 federal funds are apportioned to the Cincinnati urbanized area and the transit agencies agree annually on how these funds are shared based on a variety of factors such as population, passenger miles operated and vehicle revenue miles. Warren County Transit is ineligible to receive Section 5339 federal funds since they do not operate fixed route service. Section 5337 funds provide capital assistance for maintenance, replacement, and rehabilitation projects of high-intensity fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair. SORTA and the City of Cincinnati receive Section 5337 funds.

A small portion of the transit agency capital program is funded competitively through OKI sub-allocated federal funds. Transit agencies are eligible to apply for Surface Transportation Block Grant (STBG) and Congestion Mitigation and Air Quality (CMAQ) funds sub-allocated to OKI in Ohio. In Kentucky, the transit agencies may apply for STBG funds for Northern Kentucky (SNK). If the transit projects are selected for funding, the federal funds are transferred from FHWA to FTA before being placed into a grant. OKI maintains a program of sub-allocated Section 5310 funds for capital projects that enhance the mobility of seniors and individuals with disabilities. Local non-profits are eligible to apply for OKI 5310 funds.

How to Read the Transit Projects Listing

The following pages present the funding and implementation schedules for all transit TIP projects proposed to be undertaken in the state fiscal years 2026-2029. Project cost estimates in the FY2026-2029 TIP are developed by individual project sponsors in year of expenditure estimates. In addition to providing the year(s) of funding, funding types, and funding estimates, these schedules also provide the information shown in Table 9-1. A description of the FTA Administered Federal funds can be found in Table 9-2. State and local funds for transit are listed in Table 9-3. Transit projects are classified as either Capital, Operating or Planning. The projects costs listed are updated periodically with TIP amendments or modifications.

Table 9-1: Project Information

<u>Name/Abbreviation</u>	<u>Definition</u>
TIP ID	Project Identification number (PID) assigned to the project. In Ohio, this is assigned by ODOT. In Kentucky, the transit PID is assigned by OKI.
FTA ALI Code	The FTA Activity Line Item code
Project Name	Name assigned to the project.
Description	Description of the project.
Quantity	Number of capital items to be acquired (i.e. transit vehicles)
Air Quality	Projects are either “Exempt” from transportation air quality conformity requirements or “Non-exempt”. “Non-exempt” projects must be included in a regional emission analysis and conformity determination.
Total TIP Estimate	Total amount of funding programmed within the TIP timeframe

Table 9-2: FTA Administered Funds

<u>Listing in TIP</u>	<u>Description</u>
5307	Section 5307 Funds allocated by FTA to the Cincinnati Urbanized Area (UZA) for use by fixed-route transit providers. The Cincinnati UZA 5307 funds are split among the region’s six transit providers by annual agreement. The program is for transit capital, operating assistance and transportation related planning.
5310 (Non-ODOT)	Section 5310 Funds allocated to OKI for award to eligible subrecipients within the OKI region. This program provides funding to meet the transportation needs of seniors & individuals with disabilities.
5337	Section 5337 State of Good Repair Funds for maintenance, replacement, and rehabilitation projects of high-intensity fixed guideway and bus systems.

5339 (Non-ODOT)	Section 5339 Funds for Buses and Bus Facilities program to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.
Discretionary – 5339(c)	Non-formula 5339 funds awarded by FTA. ODOT may submit applications and administer these funds on behalf of transit operators.
Federal Flex Funds – CMAQ, CRP	State DOT administered FHWA Surface Transportation, Congestion Mitigation and Air Quality, or Carbon Reduction Program funds flexed to FTA for use in specific transit projects.
MPO CMAQ	OKI-allocated federal Congestion Mitigation and Air Quality funds awarded and flexed to transit projects
MPO CRP	OKI-allocated federal Carbon Reduction Program funds awarded and flexed to transit projects
MPO STBG	OKI-allocated federal Surface Transportation Block Grant funds awarded and flexed to transit projects

Table 9-3: State and Local Funds

<u>Listing in TIP</u>	<u>Description</u>
State	State matching funds
KYTC Match/TDC	Kentucky state matching funds for transit. May include federal toll development credits.
Local	Local matching funds.

CHAPTER 10: AIR QUALITY

This chapter documents the conformity process used by OKI to determine that the *OKI FY 2026-2029 Transportation Improvement Program (TIP)* and the *OKI 2050 Metropolitan Transportation Plan (OKI MTP)* and are in conformance with the State Implementation Plans (SIP) of Ohio, Kentucky and Indiana and complies with the Clean Air Act.

The region continues to be classified as a maintenance area for the 2008 Ozone National Ambient Air Quality Standard (NAAQS). The 2008 ozone area includes the counties of Butler, Clermont, Clinton, Hamilton, and Warren in Ohio; a portion of the counties of Boone, Campbell and Kenton in Kentucky; and a portion of Dearborn County Indiana (Figure 10-1). The region is also classified as a maintenance area for the 2015 NAAQS. The 2015 ozone area includes the counties of Butler, Clermont, Hamilton, and Warren in Ohio; and a portion of the counties of Boone, Campbell and Kenton in Kentucky (Figure 10-2).

On June 9, 2022, the U.S. Environmental Protection Agency (EPA) found that the Cincinnati, Ohio area had attained the 2015 ozone NAAQS and redesignated the Ohio portion of the area to attainment. This area includes the Ohio counties of Butler, Clermont, Hamilton, and Warren. EPA also approved Ohio's motor vehicle emission budgets and maintenance plan. Counties in the Cincinnati area designated in the 2015 ozone NAAQS are shown in Figure 1. On July 28, 2023, EPA found that the Kentucky portion of the Cincinnati area had attained 2015 ozone NAAQS and has been redesignated to a maintenance area. Nonattainment and maintenance areas must demonstrate transportation conformity. Transportation conformity is a mechanism to ensure that federal funding and approval are given to those transportation activities that are consistent with air quality goals as contained in the State Implementation Plans (SIPs). OKI is responsible for the air quality conformity determination for the region's Transportation Plan and Transportation Improvement Program.

In February 2018, the U.S. Court of Appeals for the D.C. Circuit issued a decision in *South Coast Air Quality Management District v. EPA*. The decision impacts the Kentucky portion of the Cincinnati area that was formerly nonattainment under the 1997 ozone standard (Figure 3) but is now in attainment for all other standards. This "orphan area" includes the more rural southern tier of Boone, Campbell, and Kenton counties. This area has not been subject to conformity since the 1997 ozone standard was vacated. In June 2018, OKI redemonstrated conformity with the 1997 ozone standard. U.S. DOT approval of the conformity determination occurred on September 6, 2018. Per recent guidance, OKI will continue to qualitatively demonstrate Kentucky's conformity with the 1997 standards for future MTP and TIP amendments.

Figure 10-1

Cincinnati-Middletown-Wilmington OH-KY-IN Ozone Maintenance Area - 2008 Ozone

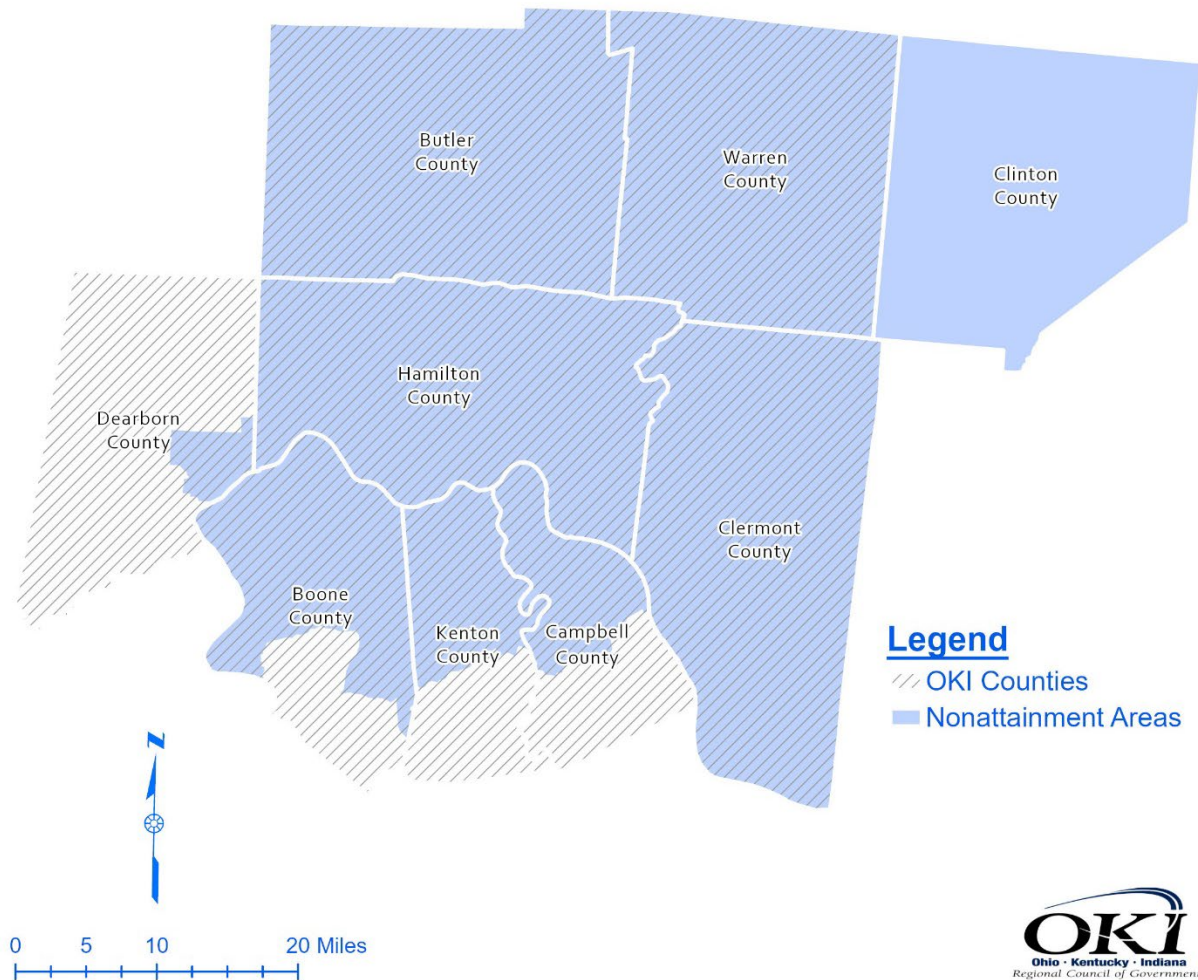

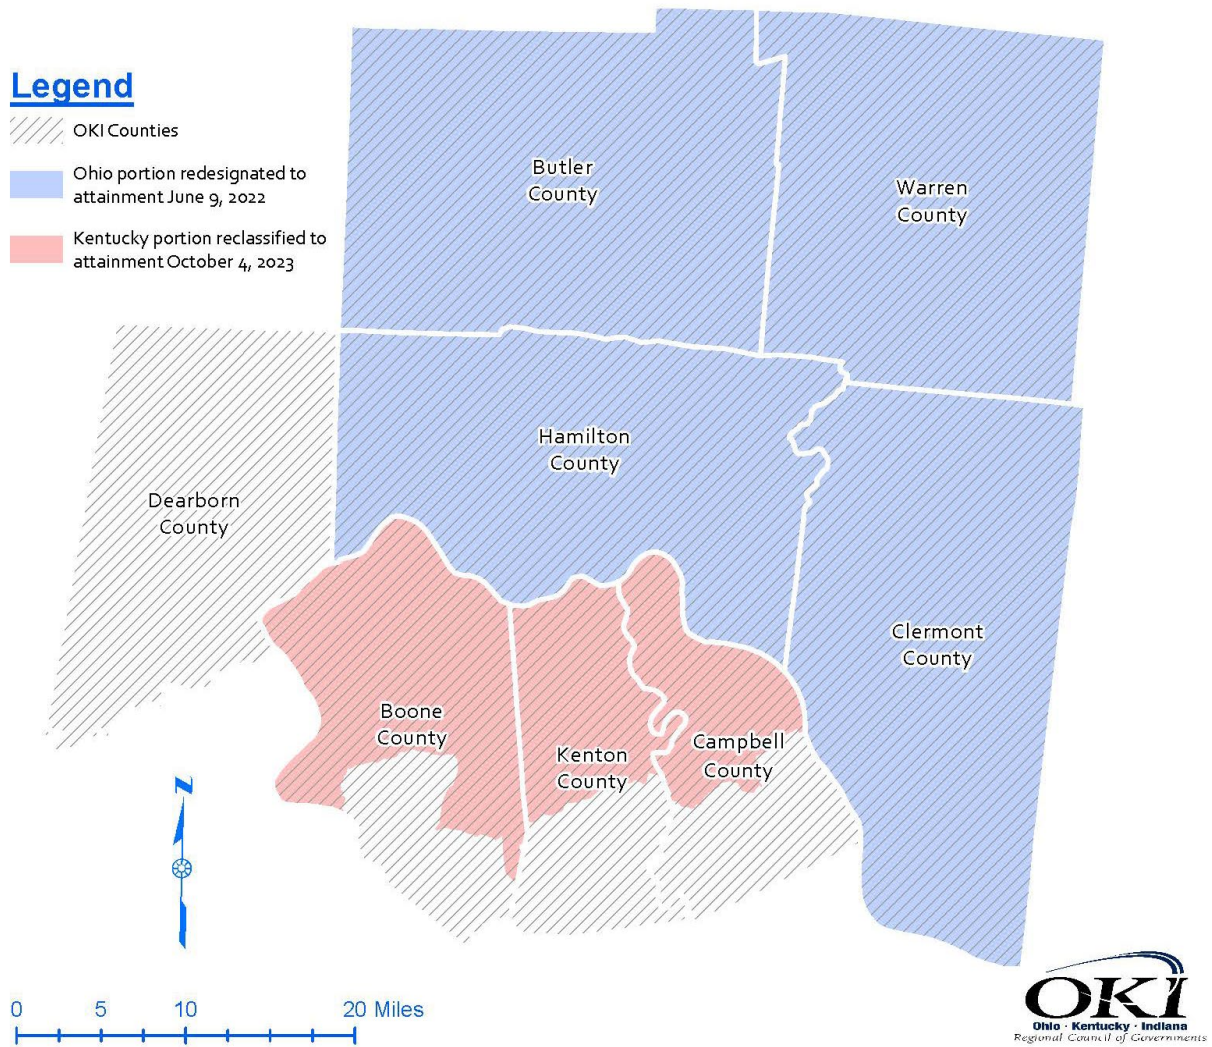

Figure 10-2

Cincinnati Ozone Area - 2015 Ozone Standard

Conformity Determination for the Ohio and Indiana Portion of the Maintenance Area

Under the 2008 Ozone NAAQS, the Ohio counties of Butler, Clermont, Clinton, Hamilton and Warren and a portion of Dearborn County Indiana remain as a maintenance area. OKI has determined that the projects in the *OKI FY2026-2029 TIP* are consistent with the air quality goals of the SIP and the conformity requirements under the 2008 8-hour ozone standard. OKI's quantitative conformity findings for ozone-forming emissions of volatile organic compounds (VOC) and oxides of nitrogen (NO_x) for the 2008 ozone maintenance area are found in Table 1 and Table 2. Table 1 utilizes the approved Ohio and Indiana combined motor vehicle emissions budget (MVEB) and Table 2 shows the MVEB from the *Second 10-Year Maintenance Plan for the Ohio Portion of the Cincinnati, OH-KY-IN 8-Hour Ozone Maintenance Area*, pending EPA approval.

Table 1 - Quantitative Conformity Findings of Ozone-forming Emissions (tons per day) for the Ohio and Indiana Portion of the 2008 Ozone NAAQS Maintenance Area

	<u>2026</u>	<u>2030</u>	<u>2040</u>	<u>2050</u>
Ohio/Indiana VOC Budget	30.00	18.22	18.22	18.22
Ohio/Indiana VOC Emissions	14.93	12.48	9.08	7.60
Ohio/Indiana NO _x Budget	30.79	16.22	16.22	16.22
Ohio/Indiana NO _x Emissions	20.68	14.25	7.39	6.00
<i>*Includes the Counties of Butler, Clermont, Clinton, Hamilton, and Warren in Ohio.</i>				
<i>**Includes Lawrenceburg Township, Dearborn County, Indiana.</i>				

Table 2 – Regional Emission Analysis of Ozone-forming Emissions (tons per day) for the Ohio* and Indiana Portion of the 2008 Ozone NAAQS Maintenance Area- using the pending MVEB's from the second 10-year maintenance plan**

	<u>2037</u>	<u>2040</u>	<u>2050</u>
Ohio/Indiana VOC Budget	11.01	11.01	11.01
Ohio/Indiana VOC Emissions	9.57	9.08	7.60
Ohio/Indiana NO _x Budget	9.32	9.32	9.32
Ohio/Indiana NO _x Emissions	8.10	7.39	6.00
<i>*Includes the Counties of Butler, Clermont, Clinton, Hamilton, and Warren in Ohio.</i>			
<i>**Includes Lawrenceburg Township, Dearborn County, Indiana.</i>			

Under the 2015 Ozone NAAQS, the Ohio counties of Butler, Clermont, Hamilton, and Warren have been designated as a maintenance area. OKI has determined that the projects in the *OKI FY2026-2029 TIP* are consistent with the air quality goals of the SIP and the conformity requirements under the 8-hour ozone standard. OKI's quantitative conformity findings for ozone-forming emissions of volatile organic compounds (VOC) and oxides of nitrogen (NO_x) in the Ohio portion of the ozone maintenance area are found in Table 3.

Table 3 – Regional Emission Analysis of Ozone-forming Emissions (tons per day) for the Ohio Portion* of the 2015 Ozone NAAQS Maintenance Area

	<u>2026</u>	<u>2035</u>	<u>2040</u>	<u>2050</u>
Ohio VOC Budget	14.15	10.58	10.58	10.58
Ohio VOC Emissions	14.08	9.81	8.55	7.15
Ohio NO _x Budget	25.30	18.98	18.98	18.98
Ohio NO _x Emissions	19.89	8.89	6.90	5.66
<i>*Includes the Counties of Butler, Clermont, Hamilton, and Warren in Ohio.</i>				

- For the Ohio and Indiana 2008 ozone maintenance area, emissions in the analysis years do not exceed the VOC and NO_x budgets, emissions in the 2040 and 2050 analysis years also do not exceed the VOC and NO_x budgets.
- For the Ohio 2015 ozone maintenance area, VOC and NO_x emissions do not exceed the VOC or NO_x budgets for the budget years 2026 and 2035, the interim year 2040, or the Plan year 2050.
- OKI qualitatively finds no factors in the *OKI FY 2026-2029 TIP* that would cause or contribute to a new daily ozone violation or exacerbate an existing violation in the year before 2026 for the Ohio and Indiana portion of the maintenance area.
- OKI qualitatively finds that no goals, directives, recommendations, or projects identified in the *OKI FY 2026-2029 TIP* contradict in a negative manner any specific requirements or commitments of the applicable state implementation plan.

Conformity Determination for the Kentucky portion of the Maintenance area

OKI has determined that the projects in the *OKI FY2026-2029 TIP* are consistent with the air quality goals of the SIP and the conformity requirements under the 8-hour ozone standard. The quantitative conformity findings for ozone-forming emissions of volatile organic compounds (VOC) and oxides of nitrogen (NO_x) in the Kentucky portion of the ozone maintenance area found in Tables 4, 5 and 6. The motor vehicle emissions (MVEB's) for the 2008 ozone standard

were approved in April 2018. In February 2025, the Kentucky Division for Air Quality (KDAQ) proposed new MVEB's for their upcoming second 10-year maintenance plan for the Kentucky portion of the region. Table 5 shows the proposed Kentucky 2008 MVEB's.

The MVEB's for the 2015 ozone standard were approved in July 2023. For the 1997 ozone nonattainment "orphan" area in Northern Kentucky, OKI qualitatively finds that the *OKI FY2026-2029 TIP* meets all conformity requirements.

Table 4 – Quantitative Conformity Findings of Ozone-forming Emissions (tons per day) for the Kentucky Portion of the Maintenance Area – 2008 Ozone Standards (partial counties)- *using the April 2018 approved MVEB's*

	<u>2026</u>	<u>2030</u>	<u>2040</u>	<u>2050</u>
N. Kentucky VOC Budget	4.36	2.86	2.86	2.86
N. Kentucky VOC Emissions	2.93	2.45	1.83	1.63
N. Kentucky NOx Budget	9.03	5.19	5.19	5.19
N. Kentucky NOx Emissions	5.55	3.63	1.79	1.51
<i>*Includes portions of Boone, Campbell, and Kenton Counties in Kentucky.</i>				

Table 5 – Quantitative Conformity Findings of Ozone-forming Emissions (tons per day) for the Kentucky Portion of the Maintenance Area – 2008 Ozone Standards (partial counties) – *using the proposed MVEB's for the upcoming second 10-year maintenance plan*

	<u>2037</u>	<u>2040</u>	<u>2050</u>
N. Kentucky VOC Budget	2.19	2.19	2.19
N. Kentucky VOC Emissions	1.90	1.83	1.63
N. Kentucky NOx Budget	2.29	2.29	2.29
N. Kentucky NOx Emissions	1.99	1.79	1.51

Table 6 – Quantitative Conformity Findings of Ozone-forming Emissions (tons per day) for the Kentucky Portion of the Maintenance Area – 2015 Ozone Standards (partial counties)

	<u>2026</u>	<u>2035</u>	<u>2040</u>	<u>2050</u>
N. Kentucky VOC Budget	2.94	2.25	2.25	2.25
N. Kentucky VOC Emissions	2.93	2.07	1.83	1.63
N. Kentucky NO _x Budget	6.92	4.84	4.84	4.84
N. Kentucky NO _x Emissions	5.55	2.34	1.79	1.51
<i>*Includes portions of Boone, Campbell, and Kenton Counties in Kentucky.</i>				

- For the 2008 ozone standards, VOC and NO_x emissions in the Kentucky portion of the ozone maintenance area do not exceed the VOC or NO_x budgets for the attainment year 2026, and the budget year 2030, the interim year 2040, or the Plan year 2050.
- For the 2015 ozone standards, VOC and NO_x emissions in the Kentucky portion of the ozone maintenance area do not exceed the VOC or NO_x budgets for the attainment year 2026, and the budget year 2035, the interim year 2040, or the Plan year 2050.
- OKI qualitatively finds that no goals, directives, recommendations or projects identified in the *OKI FY2026-2029 TIP* contradict in a negative manner any specific requirements or commitments of the applicable state implementation plans.
- The applicable implementation plan in Kentucky does not contain any transportation control measures (TCM's), therefore; nothing in the *OKI FY2026-2029 TIP* can interfere with their timely implementation.

APPENDIX A: AIR QUALITY CONFORMITY NON-EXEMPT PROJECTS AND INTERAGENCY CONSULTATION

February 6, 2025 Interagency Consultation Meeting

Pre-meeting Information: Interagency Consultation for Transportation Conformity for the new OKI FY2026-FY2029 Transportation Improvement Program

Relying on Previous Regional Emissions Analysis for Conformity

- Schedule
 - 1/31/25 - Draft project list available and 1st Draft TIP to ODOT, KYTC, INDOT
 - 2/6/25 – Interagency consultation (via Teams) with federal and state review agencies
 - 2/28/25 – Conformity analysis and documentation complete
 - 3/13/25 – presentation of Draft TIP to OKI Executive Committee
 - 3/10/25 – Start of Public Involvement Period. Draft TIP and recorded presentation available on OKI website.
 - 4/1/25 – Public meeting (in-person and virtual) on OKI Draft TIP and conformity
 - 4/10/25 – OKI Board of Directors approves TIP via resolution. End of Public Involvement Period.
 - 4/18/25 - Final TIP and Conformity documentation to ODOT, KYTC, INDOT
 - 4/30/25 – Final STIP/TIPs submitted to USDOT (ODOT)
 - 5/1/25-6/30/25 – USDOT Review & Approval
 - 7/1/2025 – Effective date of approved TIP
- Conformity summary
 - Relying on previous regional emissions analysis
 - 2008 Ozone Maintenance Area, approved 2020 and 2030 budgets (second maintenance plan for Ohio/Indiana currently in review/comment)
 - 2015 Ozone Maintenance Area, approved 2026 and 2035 budgets
 - Orphan area in Northern Kentucky is subject to South Coast decision and is subject to qualitative analysis.
 - All new FY26-29 TIP projects are exempt. All non-exempt TIP/Plan projects were modeled for June 2024 MTP Update and new TIP makes no changes to timing or scope.
- Conformity Criteria
 - Previous regional emissions analysis used latest planning assumptions and modeling
 - OKI Travel Demand Model with model base year of 2020. Highway and transit networks developed for 2020, 2030, and 2050
 - MOVES4 model in inventory mode by county. ODOT generates emissions for Clinton County and OKI incorporates into conformity document
 - SIP TCM status
 - No TCM's in SIP

- Interagency consultation
 - Kickoff consultation process by 2/7/2025
- Conformity data/information included in TIP
- Process is consistent with OKI's Public Involvement Process
- Process to result in new MPO and US DOT conformity determination for the existing OKI 2050 Metropolitan Transportation Plan and new FY 2026-2029 Transportation Improvement Program.
-

Dianna Myers (EPA Region 4)

Simone Jarvis (EPA Region 4)

Claire Oyler (Kentucky DAQ)

Blake Borwig (Kentucky DAQ)

Graham Johnson (Ohio EPA)

Jay Mitchel (INDOT)

Meeting Notes

The meeting began at 11:00 AM

Andy Reser (OKI): I will send out the air quality chapter with the documentation budgets, the previous conformity runs as well as the nonexempt list. I also sent out a summary with our schedule for adoption. The full tip was sent out by ODOT. I will send out the full TIP to anyone that would like to review it.

Andy Reser (OKI): We are relying on a previous regional emissions analysis and did not do any new model runs. So, the conformity analysis is complete, but we'll respond to any comments by the end

of the month and make sure it gets into the. The start of the public involvement period will begin March the 10th, and we will make it available on our website and announce it to our committees. We will also have a presentation on the draft TIP that will be on our website and then have a public meeting here at OKI offices in person and a virtual meeting on the draft TIP and conformity on April 1st. We will go to the Board of Directors for approval of the TIP via resolution on April 10th. The final TIP and conformity documentation will be finalized by the end of the month.

Andy Reser (OKI): We have the 2008 ozone maintenance area with approved 2020 and 2030 budgets. I know Ohio was doing their second maintenance plan for the 2008 standard that went through the state public comment period, but I haven't heard or seen anything from US EPA yet about if EPA comment started.

Anthony Maietta (EPA Region 5): The second maintenance plan for the 2008 Ozone is nearly in signature. We only received it in November, I think.

Anthony Maietta (EPA Region 5): I will update the group when I do hear more from our SIP person working on this.

Andy Reser (OKI): That does have some updated budgets in it because we would add some different budget years, but we started the process for this new TIP before that gets approved. We don't need to incorporate those new budgets in here yet. That is my understanding.

Anthony Maietta (EPA Region 5): Well, we do anticipate them being approved. It's sort of like a little gray area. Diana, please correct me if I am wrong. I don't think that you technically have to now, but we recommend that you do because I think we are going to approve them. Is that right?

Dianna Myers (EPA Region 4): You have the SIP in the concurrence chain, or have you proposed approval, Tony?

Anthony Maietta (EPA Region 5): We haven't published the proposed approval yet, but it's just about in signature.

Dianna Myers (EPA Region 4): Oh, you must use the budget if you expect that the budgets are going to be approved by EPA before your conformity determination is made. If Region 5 approves the set before July 1st then you're expected to use those budgets for the conformity determination.

Andy Reser (OKI): Well, for this next draft, we can put those new budgets in there.

Dianna Myers (EPA Region 4): What are the budget years for the SIP that you you're working on?

Andy Reser (OKI): This is for the 2008 ozone standard. Right now, we have 2020, and 2030. Obviously 2020 goes away.

Claire Oyler (Kentucky DAQ): We're working on our version of that same document and working with base year 2016 and maintenance year of 2037.

Dianna Myers (EPA Region 4): In that case I don't know if you will be able to rely on the previous regional emissions analysis, because you're going to have to include in your analysis years those budget years. You can either model the budget year, or you can interpolate. So, if region 5 approves the SIP before Federal Highway makes the conformity determination, then you're going to have to

include those budgets and original emissions analysis. So, relying on the previous one would not suffice.

Andy Reser (OKI): We did the previous regional emissions analysis for conformity for our Metropolitan Transportation Plan in June 2024, and the new budgets for the second maintenance plan, we did those model runs in August with the same networks.

Dianna Myers (EPA Region 4): The previous regional emissions analysis, if it didn't include 2037 either as a model one or an interpolation, then you would have to incorporate that year in the analysis.

Andy Reser (OKI): And technically, it would not be relying on a previous analysis since we didn't have that year in there.

Andy Reser (OKI): We'll update the second draft with the new budgets.

Andy Reser (OKI): And the maintenance plan and budgets in Kentucky, where are they in the process?

Claire Oyler (Kentucky DAQ): Ours has not gone to the state public comment period yet. Ours is a little bit behind Ohio's in terms of due dates, so we're not due until July. We're working on it in house right now, but we do intend on delivering it on time in July, so it'll take our EPA folks probably a little bit to approve that.

Andy Reser (OKI): Alright. And we do have a 2015 ozone maintenance area as well with approved 2026 and 2035 budgets. Those aren't changing. So, we have those in the document as well. There is a comment that says all new TIP projects are exempt, with exception of one new TIP project in Kentucky that's not exempt. The PID for that project is 6-80316 and is a widening project on US-25. This project was modeled as a Plan project in our Metropolitan Transportation Plan. There is no change in timing or scope.

Claire Oyler (Kentucky DAQ): I was wondering if you have heard anything or if somebody from Ohio EPA had any comments on if they're planning on implementing any contingency measures for the violation of Ozone standard in Cincinnati?

Graham Johnson (Ohio EPA): Not personally heard anything about that, but I can get back to you in an e-mail after consulting others on our team.

Claire Oyler (Kentucky DAQ): OK, that would be great. I might shoot you an e-mail just to kind of send you some of the questions we're having, but yeah, that'd be great.

Andy Reser (OKI): Our public comment period coincides with the ODOT schedule. And in terms of a follow up to this meeting, we'll have some minutes that we will send out. When we have a second draft at the end of the month, we'll send that out as well.

Dianna Myers (EPA Region 4): Will that update include the updated regional emissions analysis to incorporate potential budgets that will be approved?

Andy Reser (OKI): Yes, that is the expectation.

The meeting ended at 11:19 AM

Non-Exempt Project Listing

Plan ID	TIP PID	Facility	Location	Description
Non-Exempt Projects Identified for Ohio			Existing + Committed (2035) Transportation Network	
Butler County				
9635	115755	BUT North Hamilton Crossing	North side of Hamilton, crossing Great Miami River in area between SR 129 and N of Black St Bridge	New east-west route connecting NW Washington Blvd, US 127, SR 4, and SR 129 <i>[uncommitted in TIP timeframe but on TRAC list]</i>
9965	113647	BUT IR 75 8.50	In the area of I-75 & Millikin Road in Liberty Twp	Evaluate and implement transportation improvements including new full I-75 interchange in the vicinity of Millikin Rd and associated I-75 widening <i>[uncommitted in TIP timeframe but on TRAC list]</i>
9613		Grand Blvd	SR 4 to Tylersville Rd	Add a two-way left turn lane, travel lane in each direction and multi-use trail
12009		NW Washington Widening	Eden Park Dr to Cleveland Ave	Widen from 2 to 5 lanes with a roundabout at Cleveland Ave and NW Washington
12157		SR 4	Crescentville Rd to Mulhauser Dr	Add SB Lane
12158		Symmes Rd	SR 4 to North Gilmore Rd	widen to 5 lanes
Clermont County				
9556	114042	CLE US 52 4.67 New Richmond	US 52 from Front Street to just east of the Village of New Richmond corporation limit.	Convert the existing four lane divided section of US 52 to one lane of traffic in each direction using existing northbound lanes of US 52, and convert the existing southbound lanes to a shared use path. Convert four existing intersections (Front, Sycamore
12025		SR 32 & Herold Rd	Batavia Township/Village of Batavia	Elimination of at-grade intersection on LA highway - Creation of local access Rd connecting Herold Rd to the interchange at Batavia Rd to the east or Bauer Rd to the west

Plan ID	TIP PID	Facility	Location	Description
Hamilton County				
9956	115417	HAM IR 275 28.69	IR 275 from US 42 to SR 28	Implement Smart Lane by installing DMS and variable speed limit signs EB from US42 to SR28 & WB from SR28 to Loveland-Madeira. Identify capacity improvements at I-75 interchange. <i>[uncommitted in TIP timeframe but on TRAC list]</i>
12075		SORTA Reading Rd and Hamilton Ave BRT	Reading Rd and Hamilton Ave corridors	The planning and implementation of Bus Rapid Transit Routes routes. FTA locally preferred alternative (LPA) Process.
9968	116649	Brent Spence Bridge Corridor	South of Dixie Highway interchange in Kentucky north to Linn St. in Ohio	The construction of the Brent Spence Bridge Corridor Project including the companion bridge from just south of Dixie Highway interchange in Kentucky north to Linn St. in Ohio. Project will be delivered via a progressive design-build procurement led by OD
9974	117167	HAM IR 75 10.40	Galbraith Road to Shepherd Lane, southbound only (phase 5)	Add a fourth lane, construct C-D for Galbraith/Anthony Wayne and southbound IR75 to westbound SR126 ramp, and unify both directions of I-75 onto the existing southbound alignment. This PID is the next step following the approval of the PID 113687 AER
307	117525	HAM IR 75 8.91	Begin near Regina Grater Way and at the SR126 interchange, 8.91 to 10.30	Phase 8C of the Mill Creek Expressway Project. Project will widen for additional through lanes, rehabilitate existing pavement and bridges. Complete minor improvements to the Paddock Road interchange and tie into the existing SR 126 interchange
314	88124	HAM IR 75 10.10	1010 Bridge over Mill creek to Galbraith Road (phase 3)	Ph3 TTV. Add fourth lane in each direction, add auxiliary lanes from bridge at 10.10 (over Mill creek) to SR126, reconstruct left hand exit from northbound IR75 to Galbraith Road as a right hand exit and improve ramps

Plan ID	TIP PID	Facility	Location	Description
				from: eastbound SR126 to southbound IR75
314	82288	HAM IR 75 12.60	From 0.3 miles south of Shepherd Lane to 0.2 miles north of Glendale-Milford Rd.(phase 1)	Phase 1&2 TTV Phase 1: Reconstruct the interstate between Shepherd Lane and Glendale-Milford Rd. Work includes the redesign of the Shepherd Ln. interchange, removal of the collector distributor system, and improvements to th
307	77889	HAM IR 75 7.85	Begin south of SR562 interchange and at the SR126 interchange, 7.85 to 10.30	Phase 8 of the Mill Creek Expressway Project. Project will widen for additional through lanes, rehabilitate existing pavement and bridges. Reconstruct SR 562 interchange, remove the Towne Ave. inter
9702		Reading Rd (US 42)	Victory Pky to Reading Corp Line	Provide 5 lanes, intersection and pedestrian improvements. Project to improve efficiency and capacity.
9704		Wooster Rd	Beechmont Ave to 5163 Wooster Rd	Part of the Eastern Corridor. Add center turn lane. Geometric improvements to improve efficiency and capacity.
9953		I-71	Ronald Reagan Cross County Highway to Pfeiffer	Construct a NB auxiliary lane from Ronald Reagan Cross County Highway to Pfeiffer interchange
9954		TSMO Corridor 9: Smart Lane I-71	McMillan Ave to I-275	Install hard shoulder running (HSR) smart lane with fiber, DMS, cameras, poles, and power on I-71 from McMillan Ave to I-275.
12050	120804	I-75	I-275 Interchange to Union Centre Blvd	Construction of a flyover ramp from SB I 75 to EB 275 to eliminate weaving movements at the interchange, and addition of an additional NB auxiliary lane from I 75 to Union Centre Boulevard to increase capacity.
12075		SORTA Glenway Ave and Montgomery Rd BRT	Glenway Ave and Montgomery Rd corridors	The planning and implementation of next 2 Bus Rapid Transit Routes routes. FTA locally preferred alternative (LPA) Process.

Plan ID	TIP PID	Facility	Location	Description
Warren County				
9946		US 22/SR 3	From Creekwoods to Willow Pond	Widen US 22/SR 3, includes bridge
10035		SR 48	Mason-Morrow-Millgrove Rd to Ridgeview	Widen by one lane in each direction, exclude bridge over Little Miami River
10037		SR 63	SR 741 to 1500 LF East of McClure Rd	Widen from 2 to 3 lanes including TWTL
10976		TSMO Corridor 10: Smart Lane I-71	I-71 NB from I-275 to SR 48	Implement smart lane I-275 to SR 48
12156		I-75	Greentree Rd	New interchange at Greentree Rd

Plan ID	TIP PID	Facility	Location	Description
Non-Exempt Projects Identified for Ohio			2045 Transportation Network	
Butler County				
9658		Tylersville Rd	Grand Blvd to Bypass 4	Add TWLTL
Clermont County				
12023		SR 32	Dela Palma to Herold	Construction of grade separated intersections
Hamilton County				
12049		SR 32	Roundbottom Rd Intersection	Capacity improvements to the intersection of SR 32 with Roundbottom Rd by adding turn lanes and an additional through lane EB on SR 32. Bike and ped facilities included in the preferred alternative.
12054		I-74	I 74 in the overlap section with I 275	Widen from 6 to 8 lanes to improve capacity
12055		I-275	US 52 to Five Mile Rd	Widen bifurcated section from 4 to 6 lanes
12149		Loveland Madeira Rd	I-275 to Loveland Corp	Rdway widening for additonal lanes, improvements to side Rds

Plan ID	TIP PID	Facility	Location	Description
Warren County				
11		Gateway Blvd	SR 63 north to Union Rd	Upgrade SR 63 and Union Rd intersection. Construct 5 lane extension on new alignment
10030		US 22/SR 3	Lakeshore Dr to West Rd	Add one lane each direction
10031		US 22/SR 3	West Rd to Zoar Rd	Add one lane each direction
10044		SR 741	SR 63 to Greentree Rd	Widen by one lane each direction and continuous left turn lane
10051		King Ave (Kings Mills Rd)	Columbia Rd to Oak St	Add one lane each direction
10064		Glosser Rd Extension	Glosser Rd from US 42 to Kingsview Dr	Widening and extension (2.5 miles)
12102		US 42	Mason Montgomery to Hanover	St Resconstruction, RAB improvements, add MUP

Plan ID	TIP PID	Facility	Location	Description
Non-Exempt Projects Identified for Kentucky				Existing + Committed (2030) Transportation Network
Boone County				
4662	6-446	Mall Road Connector Ph 1&2	Between KY 237 (Pleasant Valley Rd) and KY 3157 (Mall Rd)/I-75 Interchange	Provide east-west connectivity and improved mobility
9584	6-80207	CR 1001 (Camp Ernst Rd)	Pleasant Valley Rd (KY 237) to Hathaway Rd (KY 536)	Improve safety and mobility, reduce congestion and address geometric deficiencies
11281	6-80212	IR 71	from the interchange of I-75 to Boone-Gallatin County Line	Widen I-71 to 6 lanes
9903	6-80000	KY 237 (Gunpowder Rd)	KY 536 to US 42	Reconstruction and major widening
11002	6-80150	KY 717	KY 1017 to KY 236	Major widening
9881	6-447	US 25	Winning Colors Drive to the Norfolk Southern RR x-ing south of KY 1829	Improve mobility and reduce congestion on US 25 from Winning Colors Drive to the Norfolk Southern Railroad

Plan ID	TIP PID	Facility	Location	Description
				Crossing south of KY 1829 (Industrial Road); excludes grade separation at KY 536
37	6-80150	KY 717	KY 236 (Donaldson Hwy) to KY 3076	Widening
Campbell County				
5027	6-8105.06	I-275/AA Connector	Johns Hill Road to AA Highway (KY 9)	New road connecting the AA highway to end of new construction just south of John's Hill Rd
9880	6-8105.07	I-275/AA Connector	Johns Hill Road to AA Highway (KY 9)	New road connecting the AA highway to end of new construction just south of John's Hill Rd (D under 6-8105.06)
335	6-352	KY 536	US 27 to AA Highway (KY 9)	Extension of existing roadway
Kenton County				
701	6-17.00 6-17.30 6-17.31 6-17.32	IR 75	Brent Spence Bridge Corridor Project	Initiate Preliminary Engineering, environmental studies and other preconstruction activities to upgrade the I-75/71 Brent Spence Bridge Corridor. Construction under PID 116649
9866	6-162.40	KY 536	Williamswood Rd/Calvary Drive to KY 17	Improve safety and reduce congestion, widen to 2 lanes each direction on new alignment
9910	6-1086	4th Street Bridge (KY 8)	Over Licking River on West 4th Street in Covington/Newport at Kenton/Campbell line	Address deficiencies of bridge, additional lane WB
9905 9899	6-80203	KY 536	KY 17 to Campbell County Line	Reconstruct to a 4-lane urban section
9833		I-75	Bracht Piner / Eads Rd interchange. MP 168-169	Construct new full-service interchange for mobility and economic development
41	6-162.40	KY 536	Williamswood Rd/Calvary Dr to KY 17	Widen to 2 lanes each direction on new alignment

Plan ID	TIP PID	Facility	Location	Description
Non-Exempt Projects Identified for Kentucky			2035 Transportation Network	
Boone County				
10		KY 20	Graves Rd to KY 237 (North Bend Rd)	Widen to 2 lanes each direction
9575		Bullittsville Rd	Conrad Lane to KY 20 (Petersburg Rd)	Widen Bullittsville Rd from two to four lanes with multi-use path to improve mobility in northern Boone County
9887	6-80316	US 25	Logistics Dr to KY 14 (Mary Grubbs)	Widen US 25 from two to four lanes with multi-use path to reduce congestion and support economic development.
11975		Litton Lane Extension	Existing Litton Lane to Graves Rd	Provide a two-lane extension of existing Litton Lane to Graves Rd that includes a multi-use path.
11977		KY 536 Hathaway Rd Reconstruction	Old Union Rd to Camp Ernst Rd	Add TWLTL and multi-use path. 6-80358
11985		KY 3076 (Mineola Pk)	South Airfield Dr KY 3076 (Mineola Pike) & KY 236 (Donaldson Highway)	Extend KY 3076 (Mineola Pike) approximately 0.5 miles to provide a new, four lane direct connection from the Cincinnati/Northern Kentucky International Airport to I-275. Extend KY 3076 (Mineola Pike) south approximately 1.15 miles to KY 1017 (Aero Pkwy) along a new four lane facility. Reconstruct a portion of KY 717 (Turfway Rd) to intersect with the new Rdway. Construct a multi-use path as part of the CVG Loop Trail.
11989	6-80317	Hangar Row Rd	New/Improved Rdway connecting Limaburg Rd to KY 18. Phase I.	Phase I: Widen Limaburg / Youell Rd from Gateway to Site. Includes turn lanes and intersection improvements on

Plan ID	TIP PID	Facility	Location	Description
				KY 237 and Limaburg Rd at Gateway Blvd
11990		Hangar Row Rd	New/Improved Rdway connecting Limaburg Rd to KY 18. Phase II:	New Rdway from (new) Youell Rd to KY 18, via widened Limaburg Creek Rd.
10008		TSMO Corridor 3: Dixie Hwy Enhanced Bus Transit Corridor	Pike St to Ewing Blvd	Create a 9.5 mile high-frequency, enhanced bus transit corridor on US-25 (Dixie Hwy) from Pike St. to Ewing Blvd., with improved bus stop/station design and amenities. Add wireless interconnect, 6 -20 signals suburban, adaptive, transit signal preemption, adaptive signals.
Campbell County				
12017	6-80314	US 27	KY 709	Construct a southbound truck climbing lane on US 27 and a right turn lane on US 27 to KY 709. 6-80314
29		KY 9	EB I-275 Ramp to Rosewood Dr	Add SB Lane from EB I-275 ramp to near Rosewood Dr
12015	6-23, 6-81.00	I-471	From US 27 to Ohio State Line	Reduce congestion along the I 471 corridor from US 27 to Ohio State Line. 6-81

12164		KY 16	Boone Co line to KY 2043	Widen KY 16 to improve safety and mobility and

Plan ID	TIP PID	Facility	Location	Description
				support economic development

APPENDIX B: OKI PLAN GOALS, CRITERIA AND PROCESS TO EVALUATE/PRIORITIZE TIP PROJECTS

Goals and Objectives

Since the Transportation Improvement Program (TIP) is the “short-range planning element” of the Metropolitan Transportation Plan (MTP), each highway and transit project contained within the OKI TIP must demonstrate that it conforms to the goals and objectives listed in the OKI MTP. This conformity is achieved through the adopted scoring process that has taken these goals and objectives into consideration. The *OKI 2050 Metropolitan Transportation Plan Update* was adopted by the OKI Board of Directors on June 13, 2024. The following narrative, including the list of goals and objectives, is taken from the MTP.

We are living in one of the most intriguing times for transportation. Technology is driving us toward a new mobility landscape. The marriage of transportation and technology has given rise to the driverless car. Automobiles reshaped our world in the twentieth century. Autonomous vehicles will transform it in the twenty-first. OKI is planning accordingly, melding evolving technologies into our mission, knowing that smart cars — smart vans, trucks, buses and semis — will require smart infrastructure. A healthy transportation system has long been a driving force behind our region’s quality of life and economic prosperity. It is a diverse, well-developed one for moving people and goods. Broadly speaking, the system’s efficiency affects the entire economy. In this spirit, we have developed the 2050 OKI Metropolitan Transportation Plan. Its vision: to develop innovative, sustainable and multimodal transportation solutions that support the goals and economy of the Greater Cincinnati area. Under the 2050 Plan, the system will continue to be reliable, flexible and affordable, connecting people safely to one another, to their workplaces, to the institutions that matter to them and to the services on which they depend.

It also lays the foundation for a transportation system that increasingly relies on system management, operations, Mobility as a Service (MaaS) and a system that includes connected and autonomous vehicles. These principles will usher in an era of enhanced mobility, safety and efficiency for moving people and goods. Using best practices, a strategic mix of traditional and technology-based projects will allow the region to compete successfully in the global economy.

The following goals serve to define how to meet this region’s transportation needs both now and in the future. Each goal represents a key issue addressed in the metropolitan transportation plan and TIP.

Goal: Safety

The transportation system should work to reduce the risk of crashes that cause death or injuries. The plan will consider recommendations to address problem crash locations for all travel modes, with the goal of reducing vehicle accidents.

Goal: Infrastructure Condition

This plan's foundation is preserving and optimizing the region's existing transportation system and infrastructure. In addition to improvement projects to meet this goal, this 2050 Plan includes a roadway maintenance and transit operation budget of more than \$8.2 billion.

Goal: Mobility and Congestion

This goal can also be referred to as System Performance or how well people and commodities can move with greater speed and less congestion to improve efficiency.

Goal: Environment Sustainability

Strategies that promote the effective and efficient use of natural resources would reduce mobile source emissions, and they would benefit other environmental issues and quality of life. Transportation recommendations that promote multimodal travel alternatives and reduced vehicle trips can help address this goal.

Goal: Economic Vitality

In addition to the four performance goals presented in MAP-21 and continued in The FAST Act, OKI has added a fifth goal of Economic Vitality. The transportation network can support the economic vitality of the region by enabling global competitiveness, productivity, and efficiency, as shown by the plan's emphasis on improvement projects that address this issue.

STBG/CMAQ/TA Prioritization Process and Ranking Process

The OKI Project Prioritization Process continues to address the Planning Factors identified in USC 23 CFR 134 Metropolitan Planning and responds to the BIL requirements for performance-based planning and programming. To the extent practical, the OKI process includes metrics that allow for assessment of the progress towards achieving measurable progress towards targets for safety, pavement and bridge condition, travel time reliability, freight reliability, traffic congestion, mobile source emissions reductions and transit asset management.

OKI receives a sub-allocation of federal Surface Transportation Block Grant (STBG), Transportation Alternatives (TA) funds, and Carbon Reduction Program (CRP) funds and has the authority and responsibility as the MPO to allocate these to transportation projects in the region. In addition, OKI participates with other large MPO's in Ohio to allocate and manage CMAQ funds.

The OKI Board of Directors has established the following process for soliciting, reviewing, and ranking highway, transit, bicycle/pedestrian and non-highway freight projects funded with OKI-allocated funds. The Prioritization Subcommittee, a subcommittee of the OKI Intermodal Coordinating Committee (ICC), reviews and revises the scoring process for applications on an "as needed" basis.

1. **Establish a project solicitation period** based on a TIP/STIP development schedule responsive to the needs of local and state transportation agencies.
2. **Advertise the project solicitation period** via the OKI website, social media, etc.

3. **Hold a workshop** for prospective applicants to inform them of the application process, deadlines and scoring procedures developed by the OKI Prioritization Subcommittee.
4. **Accept completed applications until the advertised deadline.** Once the application has been submitted to OKI, the project request is fixed—no changes in cost, scope or other aspect will be allowed. The only exception to this requirement will be if non-OKI funding becomes available to the applicant and the requested amount of OKI funding can be reduced.
5. **Hold ICC Prioritization Subcommittee Review Meetings.** These meetings allow for discussion of individual highway and transit projects by the subcommittee and the eventual ranking of projects funded with OKI-allocated funds. The ranking of projects is based on the ICC adopted scoring process shown later in this document.
6. **Recommendation by the ICC.** The ICC reviews the findings of the Prioritization subcommittee. The ICC will review the recommendations to determine that “Regional Priorities” are achieved through the suggested rankings and recommends a list of funded projects to the OKI Board of Directors.
7. **Adoption by OKI Board of Directors.** Funding awards for projects are approved.
8. **Added to the OKI Transportation Improvement Program (TIP).** Projects and funding amounts are added to the TIP and submitted for inclusion in the Statewide TIPs (STIPs).

Project Conditions

The following funding limitations will be applied to each project requesting OKI STBG/CMAQ funding in Ohio.

1. Eligible Phases
 - a. Ohio: Preliminary Engineering--Right-of-Way Services (PE-RWS), Right-of-Way (ROW), Utilities (UT) and Construction (CON) phases are eligible for funding. Preliminary engineering (not associated with PE-RWS), environmental and contract plans are the responsibility of the applicant. PE-RWS funds may be used for limited right-of-way services (such as title searches, appraisals, and appraisal reviews) prior to approval of the environmental document with approval from the OKI TIP Manager.
 - b. Kentucky: Design (D) (includes Preliminary Engineering (PE) and right-of-way services (PE-RWS), Right-of-Way (ROW), Utilities (UT) and Construction (CON) phases are eligible for funding.
2. Applicants who receive funding through OKI should work closely with OKI and the district office on a coordinated schedule. OKI will work with the district office to set milestone and sale dates to achieve a balanced program across the fiscal year with a goal to implement projects in the most timely manner and to achieve favorable bid prices. Strict adherence to schedule milestones is a fundamental requirement.
3. The standard local match requirement for OKI allocated federal funds is 20%. Applicants may commit a higher percentage to gain additional points as shown in the Planning

Factors section of the adopted scoring process. The same local match percentage will apply to all funded phases

4. Applicants must provide a certified or otherwise official cost estimate for each project request. At the applicant's discretion, the cost estimate may include an additional 10% contingency for construction activities. All cost estimates should be in current year dollars.
5. The maximum to be awarded will be the amount listed in the application, as adjusted for inflation, or as determined by the OKI Board of Directors. The Cost Estimate sheet in the application will apply a compounded growth rate to the construction costs based on the ODOT inflation calculator. Applicants should make sure their request is sufficient to cover the cost of the activities shown in their application. Applicants may include the addition of a 10% contingency for the construction phase. Each phase of funding requested must include at least 20% non-federal match.
6. The following scope limitations will apply to each project request:
7. Each applicant is limited to a total of two project applications requesting STBG funds in Ohio or limited to two project applications requesting Kentucky SNK funds. If an applicant is making an application on behalf of another entity, that application will not count towards the total number of applications allowed. For example, if a county makes an application on behalf of a township, which is ineligible to apply directly to ODOT, that application will not count towards the county's total applications allowed.
8. Total funding request per Ohio application cannot exceed \$6,000,000 for STBG funds (the cap). Total funding request per Kentucky application cannot exceed \$5,000,000 for SNK funds (the cap). The total project funding for a single application is capped at the approved amount. The OKI TIP Manager may approve one-time requests for additional funding up to 10%. Additional funds are subject to fund balances and normal OKI procedures for amending and modifying the TIP.
9. Projects must be located within the OKI urban area boundary. OKI has historically not funded projects outside the urban area boundary since other funding sources, such as the County Engineers Association of Ohio, are available.
10. Projects must be listed or consistent with the OKI 2050 Metropolitan Transportation Plan. Roadway projects must be located on functionally-classified collectors or higher.

APPENDIX C: COMMUNITY ADVISORY COMMITTEE/PUBLIC INVOLVEMENT

Community Advisory Committee Review Activity

OKI has defined and considered mobility impact zones, which include low-income areas, zero-car households, elderly persons and persons with disabilities. Each project considered for inclusion in the draft of the FY 2026-2029 TIP using OKI sub-allocated federal funds were reviewed by the Committee and awarded points based upon the anticipated impacts and benefits on the local community. Applicants receive maximum points if their application is expected to have good to excellent overall net benefits. A net benefit indicates a subjective consideration of both positive and negative impacts. The point structure is as follows:

Overall net benefits (good to excellent) = 8 – 10 points

Overall net benefits (fair to good) = 4 – 7 points

Overall net benefits (none to fair) = 0 – 3 points

During the last OKI project applications cycle, the Committee reviewed and awarded points for (18) Ohio STBG applications, (5) Ohio TA applications, (13) Kentucky SNK applications and (7) Kentucky TA applications.

Public Involvement

The draft TIP, as well as a video presentation, were presented for public comment via an online posting on March 10, 2025. An invitation and instructions on how to provide comment was provided via OKI's website, through various OKI social media outlets, and via ODOT STIP public involvement notices. The comment period remained open until April 10, 2025. A public meeting was held in the OKI office, and virtually, on April 1, 2025. The announcement of the scheduled public meeting was published in the *Cincinnati Enquirer*, the *Cincinnati Herald*, and *La Mega Media/Urban 1* Facebook page and website, and on OKI social media and website. Comments were permitted to be submitted to OKI in writing, by e-mail, in-person or virtually during the public meeting. During the April 1 public meeting, 22 public meeting attendees provided remarks. An additional 64 people provided comment via e-mail. A summary of the public meeting and a summary of emailed public comments are provided below.

2025 TIP Public Meeting
OKI Office, Commonwealth Room (hybrid)
Public Meeting Comments
April 1, 2025

Summary:

38 people attended the April 1, 2025, public meeting on the TIP. Twenty-two people attended in person, 16 attended online, and 22 attendees gave remarks.

Comments, generally, expressed appreciation for and asked for increases to funding of multi-modal transportation, specifically increased bicycle and pedestrian infrastructure and safety, transit (including Bus Rapid Transit), and light rail. Concerns were expressed about increased traffic, pollution, the environment, health, and vibrant, connected neighborhoods. The top requests include the following:

- 9 people asked for a delay to the Brent Spence Bridge
- 4 people asked for no funding for the Brent Spence Bridge
 - a. 1 person asked leaders to reimagine the design of I71-75, and
 - b. 1 person asked for a delay of the TIP.
- 8 people requested more transit funding with two specifically supporting BRT
- 7 people requested more funds for bicycle and pedestrian infrastructure
- 6 people asked OKI to do comprehensive, robust multimodal planning, and
- 6 other people asked the region to leave car-centric transportation planning
- 3 people asked for more light rail funding, and
- 1 person asked for more safety funding.

Specific project requests included support for widening SR 63, funding for the North South Plan, to address safety on SR 741, to oppose Exit 26 at Millikin Road because it is an economic development project unrelated to traffic, and to delay or oppose the Brent Spence Bridge (BSB) and be aware of impacts of the BSB to the West End.

Suggestions were made to look at multimodal, transit, and bike ped planning and funding in Japan, the Netherlands, the United Kingdom, Durham, Tucson, and Duluth.

In-person remarks summaries:

- Bob Hyland, Cincinnati, OH:
I am for more bicycle and rail funding. For foreign visitors to the area, in particular, it would be surprising that Cincinnati lacks a zero-car route from the airport to downtown to the stadium. Request: Please invest accordingly. Vote No on Brent Spence Bridge (BSB) funding.
- Matt Butler, Covington, KY:
Rebalance the funding investments to increase transit funding, increase safety funding and results. Do this to improve safety, the environment, and health. The 25% of

Cincinnati homes with zero-car bear the brunt of the safety, environmental, and health burden. Request: increase transit funding to 25% of the TIP, delay the BSB pending further studies.

- Suzanne Fuhrman, Cincinnati:
I am a public health expert who worked overseas and recently lost my job. Pedestrian safety and pollution are my top concerns. I lived in Afghanistan but now that I live in Cincinnati, I have asthma. Thank you for the funding to date for bicycle and pedestrians. Request: Delay BSB funding – more lanes = more traffic. Increase bike and pedestrian infrastructure.
- Mitch Radakovich, Over the Rhine (OTR), for All Aboard Ohio:
I am a Chair for All Aboard Ohio, which has 500 members in the OKI region. Request: I feel the TIP should emphasize high density traffic solutions by incorporating rail, Bus Rapid Transit (BRT), and bicycle and pedestrian funding. We should move away from the car-centric emphasis.
- Matt Smeal, Sustainable Cincinnati:
Funding for transportation must be diverse. OKI was an early supporter of light rail. (He left handouts, some with links to videos). Please look at the Dutch and other models of coordinated density in a planned transit region. Request to move Cincinnati from a car-centric system to multimodal. He believes car centric systems will cause youth to leave the area. Request: Please consider a BSB delay, and multimodal and transit.
- Joe Humpert, President Queen City Bike:
Noted the Flat Frank Henson Santa Statue at the foot of the Purple People across from the OKI building is for a previous Queen City Bike President, and the bicycle routes in Cincinnati. He noted his friend Gloria San Miguel, a cyclist wearing safety gear, died struck by a vehicle on the 11th Street bridge in Newport, riding from Newport into Covington. Request: Thank you for a great increase in funding from the previous TIP for bicycling, and please continue to increase spending, with urgency. Reconsider the BSB design which will literally cut us off, alienate neighborhoods.
- Mackenzie Mason, Sustainable Cincy:
I am a Community Organizer for Sustainable Cincinnati. I am concerned about climate health and community. I acknowledge the investments made in transit and for bicycles, yet the region remains car-centric. We at Sustainable Cincinnati are on the ground and see the lack of true engagement in neighborhoods (ie. West End) about the BSB. We are not just advocates, but people who want change to move freely through the region. Request: Delay the BSB and study it.
- Terry Banker, Lebanon:
Has a historic farm bounded by Turtle Creek Township and Lebanon. Provided local history of a development (*Neil Hughes*) which is to provide \$6-M in funding to widen US 63. Request: Help ensure the funding is available for widening US 63.

- Jim Banker, Lebanon:
Is husband to Terry (above). Please address the safety issues on SR 741 which grow as the area grows. The issues include no shoulder and steep embankments. After hearing others, regarding the BSB, DC has changed and be alert as to whether the funding will arrive for the BSB. Request: Address US 741 safety issues. Target money to neighborhoods.
- Kean Babcock, Covington, Sustainable Cincy:
He is a 7-year Navy veteran who lived in Japan. Japanese transit is amazing, people can get everywhere on transit and live without a car. A connector to UC would be nice and could narrow highways that negatively impact communities. He has concerns about pollution and traffic, look at Houston. Invest in better and cheaper alternatives to cars. Request: Invest in public transit.
- Nathan Haim, All Aboard Ohio, Cincinnati:
Thank you for increase in funding in the TIP for transit and pedestrian/bicycle paths. Please make transportation safe and efficient. My grandma with ALS cannot do a car and needs more robust transit for independence.
- Katharine Ruegger, Cincinnati:
She has ADHD and allergies, in part attributable to growing up along I75 in Indianapolis. She teaches children at the Mobile Bicycle Co-Op who could not be here due to meeting time. Please delay the BSB as it, and the TIP, will negatively impact 50-years of area infrastructure. Children will be impacted. Cincinnati needs robust multimodal planning, look at Durham for a good example. Look at the Big Dig as a bad example of growth, as mentioned earlier. Request: Delay BSB.
- Braden Pulte, Cincinnati:
I do not own a car and often feel left behind in transportation. I worked in a restaurant in Newport and with varying departure times from the end of the shift, it was difficult to see if I can catch the TANK, and then if I could make my connection to METRO. Billions of dollars are spent on roads, but we are not comprehensively addressing the rest of multimodal transportation. METRO is doing a great job, like BRT, and this is needed to address the 20% of households in Cincinnati with zero-car. Exit 26 on Millikin Road is an economic development project, not a traffic need.
- Ryan Minnick, All Aboard Ohio, Northside Cincinnati:
I am a local chapter leader of All Aboard Ohio. I bike 4-miles to and from work. I took the streetcar here and then walked several blocks. TIP funding should reflect pedestrian, bicycle, transit, then car and truck. Request: Fund the North South plan. Increase bicycle infrastructure funding from 1% to 10% in the TIP.
- Vida Manuel, West End Ambassador, West End:
I am a West End Ambassador. There are so many ideas represented in these comments and none are road and bridge. I have asthma and road projects do not help. When I think of these projects and our region, I see the Highway scene from The Office. I take

Clay Wade Bailey to be off of 75. Request: Take people off the streets to reduce congestion. If other areas have evidence of good plans, try them.

Online Attendee Remark Summaries:

- Lucy Knight, Cincinnati:
My mother and grandma talk of a vibrant Cincinnati of connected neighborhoods. There have been transit improvements, but neighborhoods are carved up by bridges, roads, and even parking lots. I grew up in Price Hill. I75 cut the West End off from the rest of the city. Request: reimagine the I71/75 design and improve low income opportunity that has been lost.
- Ray Jacobs, West End:
I grew up next to traffic that would shake the walls of my apartment building as a child. I am a climate migrant. I left Salt Lake City due to lack of water. I enjoy the neighborhoods here, chatting with neighbors, watching children. I want to continue this experience. Request: I oppose funding for the BSB. Put funding toward transit and bike/ped.
- Andrea (no last name provided), Cincinnati living in the United Kingdom:
I want Cincinnati to have the public transit we have in the U.K. Cincinnati has 20% zero-car households and this should be planned for. Cincinnati did not get the World Cup in part due to lack of public transportation for an event of that size. What other events and revenue might Cincinnati be missing out on? I appreciate the efforts of OKI to date, but request greater equity across multimodals. Request: Delay BSB for a study, and increase transit funding.
- Daniel Guthrie, Cincinnati:
I am a 14-year resident of Cincinnati and have come to love it, as so many do. The country is coming to terms with debt and finances and the BSB should be part of the conversation as waste. Request: I support the OKI North South plan. OKI should direct ODOT and KYTC to study alternatives, like congestion pricing which could fund alternative transportation.
- Logan S. (no last name provided), Cincinnati:
I agree with all that has been said.
- Anthony Isaacs (no residence provided):
There is so much roadway to maintain already. Use the TIP funding to dig in and fill in maintenance needs and reduce cost burdens, especially by decreasing car ownership which is a cost burden. Request: Fund light rail. Do not fund the BSB.
- Joseph (no last name provided), hometown is Cincinnati:
I am blessed to work remotely primarily. Tucson and Duluth are among the good examples for development of parks and bike paths which create a boon. I am traveling with my girlfriend, who is from Chicago, and the choices made in the TIP will impact my life. When we settle in, infrastructure choices will make a difference in where we live.

OKI calls for any additional remarks. There are none. The meeting is adjourned.

FY26-29 TIP Summary of e-mail comments(64) submitted during the comment period March 10, 2025 through April 10, 2025:

Cory Aldrich – Cincinnati:

Prioritize public transit over automobile-focused transportation

Chris Anderson – Cincinnati:

The Brent Spence Bridge Project must prioritize bike/ped infrastructure over car traffic and expand reclaimed land.

Andrea Bailey-United Kingdom

Need better transit in Cincinnati. 20% of households do not have access to a car.

David Barnett-Cincinnati

Delay funding for highway expansion and study transportation options that don't harm the environment.

Alison Baer-Cincinnati

Reconsider funding for the BSB. Explore alternatives.

Shad Beard-Covington

Stop prioritizing expensive and ineffective highway projects. Leads to unhealthy, poorer and less happy communities.

David Benson-Cincinnati

Likes the recent increases in quality transit, bike lanes and streetcar. Want to see pedestrian, bike, and bus mobility options as core parts of the TIP.

Jacob Breazeale-Cincinnati

Do not invest in expanding highways. Use tax dollars to improve road conditions and safety for all users including pedestrians and cyclists. Expand transit connections to surrounding communities.

Noah Breeze-Cincinnati

Do not spend money on expanding I-75. It is not consistent with climate and mobility goals.

Richard Boyce-Cincinnati

Expanding I-75 is inconsistent with climate and mobility goals. Should prioritize transit.

Blake Cox-Cincinnati

Focus more on transport options that do not add highway lanes.

Christine Curran-Cincinnati

Adverse health effects of high levels of ozone, Nox and particulates. Scale back size of Brent Spence bridge project.

Stefan Fiol-Cincinnati

Need to incorporate community perspectives into the development plan. Delay funding of the BSB and study alternatives that prioritize equitable and accessible transportation options.

John Freeman-Dayton OH

Expand public transit and make walkable cities.

Brandon Gabbard-Covington

Don't need a new bridge. Prioritize transit.

Maxwell Gaston-Dayton KY

Need viable alternatives to driving on the highway.

Lauren Ghidotti-Cincinnati

Do not expand I-75. Support transit, density, and mobility.

John Gray-Batavia

SR222 from Batavia Village to SR125 is very dangerous with several 90-degree curves. It needs improvement.

Michael Guarente-Madeira

Diversify funding into multimodal solutions like mass transit, bike and pedestrian infrastructure.

Sarah Guarante-Cincinnati

Do not expand I-75. Follow the "Bridge Forward" recommendations and allow for more public transit.

Jim Guthrie-Newport

Delay funding of Brent Spence Bridge and study alternatives. We can do better.

Scott Hand-Cincinnati

No more expansion of I-75 and Brent Spence Bridge. It is wasteful and not sustainable.

Chris Heckman-Cincinnati

Focus our transportation dollars on mass transit to help meet our climate and mobility goals.

Ronald Hischak-Cincinnati

The companion Brent Spence Bridge is a waste of resources. A toll on the current bridge would reduce the traffic.

Marissa Hoffman-Ulmer-Cincinnati

Adding more highway lanes is not helpful. Need more biking, walking and public transit.

Kurt Holocher-Cincinnati

Adding lanes on I-75 does not improve traffic. Delay the BSB to complete full EIS and alternative study. We should focus on improvements that slow traffic and increase safety.

Joe Hornsby

Encourages funding for ODOT's I-75 Thru the Valley Project.

Kaylee Humbert-Covington

Prioritize transit over highways.

Anson Jeng-Covington

Noise and pollution will continue to get worse with induced demand.

Kathy Kugler-Cincinnati

Invest in convenient public transportation.

Milan Kulics-Cincinnati

Do not expand the BSB. Prioritize people and public transit.

Brent Lightner-Liberty Twp.

Need sidewalk on Milliken Road from Morris to Liberty-Fairfield Road.

AJ Moeller

Do not expand I-75. Invest in bike/ped improvements and public transit.

Tom Moosbrug-Cincinnati

The BSB needs to be built with mass transit in mind.

Eduardo Moreno-Cincinnati

Prioritize transit instead of highways.

Nolan Nicaise-Covington

Don't expand highways. Too much pollution.

Linda Noll-Giska-Covington

Keep climate goals and mass transit goals possible. No expanded highways.

Crystal Paul

Buses are a waste of money.

Katie Peyton-Cincinnati

Reconsider funding for the Brent Spence Bridge Project and prioritize transit and bike/ped infrastructure. Expanding I-75 is inconsistent with climate and mobility goals.

Julie Potter-Cincinnati

Use the money for BSB on public transit instead.

Melanie Powers-Ft. Thomas

Delay funding for the BSB and explore bike/ped and mass transit options.

Michael Resnick-Montgomery

Delay funding the BSB and study alternatives that prioritize equitable and accessible transportation options.

Jacob Richard-Cincinnati

Against highway expansion and for public transit and walkable neighborhoods.

David Roland-Cincinnati

Invest in public transit and active transportation. Don't prioritize the BSB and moving cars.

Millie Schafer-Cincinnati

Stop destroying our green space and homes for more vehicle traffic.

Craig Schoenberger-Cincinnati

No more expansion of I-75. Allocate more money for public transit.

Charlie Schwartz-Cincinnati

Oppose expansion of I-75. Prioritize more money for public transit.

Matthew Smeal-Reading

Invest in multi-modal transportation again instead of highway expansions. We should entice more people to live in the urban core again. Commenter included concept maps and drawings of changes to the city's planning vision.

Kathleen Smythe-Cincinnati

We should rely less on fossil fuels and support public transit and active transportation.

Jessica Spencer-Covington

Do not fund highway expansion. Use the funding for more public transit, bike lanes, tree buffers, road diets and greater connectivity.

Anshul Sukhlecha-Cincinnati

Concerned about expansion of I-75. We should invest in a sustainable, accessible, and equitable future with public transit and infrastructure that serves everyone.

Taylor Fields-Cincinnati
Prioritize transit over highways.

Samuel Tonucci-Cincinnati
No to highway expansion. Support alternative modes like streetcar and BRT.

Amy Townsend-Small-Covington
Expanding the Brent Spence Bridge Corridor is the wrong decision for the environment and health.

Evan Walker-Cincinnati
Less funding for expanding I-75 and more for mass transit and safe walkable neighborhoods.

Will Weber-Southbank Partners Newport
Expresses support for Riverfront Commons project and provides clarification on Riverfront project descriptions. Affirms support of several regional projects in NKY.

Jake Wermes-Cincinnati
Against expanding BSB. Consider mass transit solutions.

Elliot Willoughby-Cincinnati
The City needs safe and convenient bike/ped infrastructure.

Shaun Wilson-Woodrow
Driving cars are wasteful and inefficient.

Nick Wright-Cincinnati
TIP is inconsistent with environmental and transit goals. Prioritize public transit as well as bike and pedestrian infrastructure.

Christopher Wyatt-Cincinnati
The Brent Spence corridor expansion plan is the wrong solution. Focus on designing highways for resilience and safety. Invest in biking and transit options.

Caroyn Young-Cincinnati
Against I-75 expansion. Should focus on environmentally conscious and people focused transportation.

Kaitlyn Zibton-Cincinnati
Reconsider funding the BSB and prioritize transit and bike/ped infrastructure.

Jodie Zultowsky-Cincinnati
Prioritize transit over expanding the BSB.
