Project 421 is the Indiana Department of Transportation’s study of the half-mile section of U.S. Route 421 through Madison that approaches the Milton-Madison Bridge, which spans the Ohio River between Madison and Milton, Ky. The purpose of the project is to select a route that best addresses the safety concerns, mobility challenges and economic development needs of Madison.

The Project 421 team wants to meet with the community to gather input before substantially beginning the study of U.S. 421. This is an informal meeting, so there will be no formal presentation.

**Enter via north park gate off SR 62. There is no admission charge to enter the park for this meeting.*
