PETITION

The City of (Name) (Name) County, Indiana, (Petitioner), respectfully petitions the Indiana Department of Transportation (INDOT) for approval of the establishment of a crossing at grade at the junction of the proposed Name Street and the Railway tracks Name Railroad.

In support of this petition, Petitioner alleges the following:

1. Petitioner is a duly constituted, authorized and elected public body legally authorized and charged with the responsibility of constructing, reconstructing, maintaining the operating all streets and roads, with the exception of state highways, in the City of Name, Indiana.
2. (Name Railroad) is named as Respondent for the reason that it owns the railway tracks over which the new proposed at grade crossing is to be constructed.
3. The Utility Consumer Counselor of Indiana is named Respondent pursuant to the Indiana 8-1-1-5.
4. Accordingly, this petition is filed to the provisions of Indiana Code 1971 8-6-1-7 for the construction of a highway crossing over a railroad line.

5. (Name Street) as proposed will intersect railway tracks currently operating by (name railroad) requiring the installation of an at grade crossing. These railway tracks and the point of intersection of the proposed at grade crossing are in the vicinity of, and adjacent to: _____.

6. Petitioner desires to construct the proposed (Name Street) to provide (please provide a detailed reason) _____.

7. The tentative location, details and blueprints of the proposed construction are shown in exhibit A, which is attached hereto and made a part hereof by reference (all parties of record shall be furnished with a copy of the plans).

8. Petitioner shall respond in detail to the 105 Indiana Administrative Code (IAC) 5-10-1 criteria listed and provide proper documentation as set forth in the IAC.

9. Under the designated plans of the Petitioner, the proposed (Name Street) will intersect (Railroad Name) Railway tracks at an angle of degrees.

10. Average daily vehicular traffic (ADT) over the proposed (Name Street), which has a design speed of MPH, is estimated at _____ vehicles.

11. The proposed rail-highway intersection profile is _____?

12. Approximately _____ trains per week presently use the (Name Railroad) railway tracks. These trains travel at an approximate speed of MPH.

13. What are the roadway view sights for a motorist at the new proposed at grade crossing?

14. The plans for this project demonstrate that the crossing should be what type of protection?
