This is the quick reference guide (QRG) for adjusting the wage and contribution submission for uploading into the Employer Reporting and Management (ERM) application.

ERM W and C Adjustment

- In ERM
- In Excel
 - Reformat W & C History Report
- In the ERM Wage & Contribution Template
- In Notepad

In ERM

- 1. Launch ERM.
- 2. Navigate to

Employer Reports > Wage & Contribution History Report

- 3. Enter the payroll date range and either **Pension ID** or **SSN** of the member.
- 4. Click Search and export results to Excel.

In Excel

Launch Excel and import the results from the Wage & Contribution History Report in ERM.

Reformat the Wage & Contribution History Report

1. Column I and Column J: Period Start Date and Period End Date. Navigate to:

Home > Number > Format cells, Number tab > Category - Custom.

In the Type field enter mmddyyyy. Click OK.

2. Column Q: Total Employer Share. Navigate to:

Home > Number > Format cells, Number tab > Category - Number.

In the **Decimal places** field, enter **2**. Click **OK**.

- 3. Highlight Column R Wages. Right click and choose Insert. A new, blank Column R is added and Wages moves to Column S.
- 4. Enter -1.00 in Cell R3. Column R Wages is now Column S Wages.
- 5. Highlight and Copy Cell R3.
- 6. Highlight the **Wages Column S**. Right click and from **Paste Options** choose **Paste Special**. On the **Paste Special** screen, in the **Operation** section, click the **Multiply** radio button. Click **OK**.
- 7. Repeat the above steps for any other columns needing to be reversed (converts amounts in column to negative amounts)

In the ERM Wage & Contribution Template

Open the <u>ERM W and C Template</u>. It is an Excel template, and this link is to the version used by employers from the INPRS website.

Version: 1.0

Column	Title	Description					
AB	Record Type	Enter A for Adjustment to previous data (must be in all capital letters)					

^{*} Two of the three identifiers must be entered.

Completing the Spreadsheet

- 1. In Column A, Agency Code, leave the field blank
- 2. In Column B, SU #, enter 7 digit submission unit number
- 3. In Column C, Fund, enter PERF or TRF (must be all caps).
- 4. In Column D, SSN, enter full SSN (no spaces or dashes). Must enter 2 of 3 identifiers.
- 5. In Column E, PID, enter member PID (9 digits). Must enter 2 of 3 identifiers.
- 6. In Column F, Last Name, enter member last name. Must enter 2 of 3 identifiers.
- 7. In Column AB, Record Type, enter A for adjustment to previous data (must be in caps).
- 8. If multiple entries for one member, copy the above data to populate enough rows for the transactions.
- 9. From the Wage & Contribution History Report, copy the reformatted date in Columns I and J, Period Start Date and Period End Date, and paste on the Wage & Contribution Template in Columns Z and AA, Pay Period Start Date and Pay Period End Date.
- 10. If there are multiple entries for one member, copy the above data to populate enough rows for the transactions.
- 11. From the *Wage & Contribution History Report*, copy the reformatted data and paste to the appropriate column on the *Wage & Contribution Template*.
- 12. If the member's demographic data was copied down to extra rows, delete the data from those rows. Enter the payroll date to be used during the upload process in **Cell A1**. Format is mmddyyyy.
- 13. Enter the number of rows of member transactions in **Cell B1**. Delete the blank **Row 2** and the header **Row 3**.
- 14. File > Save As > CSV (Comma delimited, with delimiter set to |)
- 15. Control Panel > Language > Change date, time or number formats > Additional Settings > List Separator: (change, to |) > Apply

These instructions are also available from the <u>ERM Create a Pipe Delimited Text File Using Windows 11 QRG – Employer</u> on the INPRS website.

- 1. In Excel, click in the **Search Windows** field and type **Region** and press **Enter**. The *Region* window displays. The **Formats** tab is the default.
- 2. Click the **Additional settings** button. The *Customize Format* window displays (Figure 3). The **Numbers** tab is the default. **Save** the file as a CSV file with delimiter set to | (pipe).
- 3. On the *Customize Format* window, on the **Numbers** tab, go to the **List separator** field and enter the pipe delimiter (|). This is not offered in the drop down list the first time it is used. It should be added to the list for the next time.
