

IOT Data Exchange - 2021

Who We Are: A team that provides data transfer management using Secure File Transfer (SFTP), Managed File Transfer (MFT) and custom application development on Biztalk, GoAnywhere and MuleSoft platforms.

Our Mission: To provide high-quality, innovative solutions to problems using custom application development and industry best practices SDLC processes.

Department: 493021

Manager: Larry Jenkins

Formed: September 2019

What We Do: Data Exchange is responsible for managing the systems along with the safe and secure exchange of data between core systems both inside and outside the State of Indiana.

Our Products:

- 1023 Cerberus SFTP
- 1023B Cerberus Internal SFTP (PZ)
- 1226 MuleSoft API Management
- 1227 GoAnywhere MFT
- 1227B GoAnywhere Domain
- 1227C GoAnywhere User fee
- 1227D GoAnywhere Agent
- 1227E GoAnywhere Agent/Domain Support

Our Metrics: A Project Charter created between our department and our customer drives our metrics. We define such elements as timeline, scope and cost.

Our Customers:

State agencies that use any of our data exchange products. The most active customers include: FSSA, DCS, DWD, & ISDH.

Major Accomplishments:

Transitioning state agencies from multiple file transfer systems onto new standardized platforms.

Current Projects:

GoAnywhere Migration from Cerberus (SFTP), SafT (MFT) and BizTalk.
MuleSoft C4E Initiative
