

Greening the Government

ISSUE	GREEN ALTERNATIVE & COST SAVINGS
Desktop Printer	Multi-Function Device (MFD) - print, copy, scan, fax
Right-Size Fleet	MFD produces reduced downtime Reduction in toner used
Carbon Emissions	Energy Saver Feature Reduction in desktop printers / copiers
Document Output Process	Default duplex print/copy Default black & white output

DID YOU KNOW?

- 8,333 sheets of copy paper is equal to 1 tree. If you print 348 million pages a year, that is the equivalent of over 43,200 trees. Simply by duplexing you could save 21,600 trees per year.
- By reducing the number of printers you reduce your carbon footprint as well as save money on electrical costs.
