COFFEE & FIRSTNET UPDATES

July 18, 2022

AGENDA

3

TIMES:	TOPICS:	PRESENTER:
8:30 – 9:00	Coffee, Donuts & FirstNet Updates	Angie Helminiak
9:00 – 9:30	IPSC Systems Updates	Kelly Dignin
9:30 – 10:30	Project Gold Line	Andi Baughn
10:30 – 10:40	Break	
10:40 – 11:10	Meet and Greet with all Vendors / Training Trivia	
11:10 – 12:00	Emerging Technology	Jon Allen
12:00 – 1:00	Working Lunch – Fire Accountability	
1:00 – 1:20	ICC Updates / Inventory Management	Zac Woodrum
1:20 – 1:30	Break	
1:30 – 2:00	Meet and Greet with all Vendors / Training Trivia	
2:00 – 2:45	Emergency Response	Tyler Clements
2:45 – 3:00	RESPONDER INPUT, FEEDBACK, SUGGESTIONS

July 2022

Governance

Integrated Public Safety Commission (IPSC)

The Integrated Public Safety Commission Quarterly meetings are held on the third Tuesday of every third month. Meeting dates for 2022 are March 15, June 21, September 20, and December 13.

Enabling Code: **Indiana Code 5-26**

COMMISSION MEMBERS

Chair: Douglas G. Carter, Superintendent, Indiana State Police

Michael Crider, State Senator

Mike Diekhoff, Chief, Bloomington Police Department

Randy Frye, State Representative

Jim Fulwider, Commissioner, Montgomery County

Benjamin Hunter, Associate Vice President, Indiana University

Brian Jones, Lemay Enterprises

Mike Nielsen, Sheriff, Boone County

Michael Pavey, Special Agent in Charge, Federal Bureau of Investigation

Douglas Randall, Plainfield Fire Department

Tim Smith, Vincennes Twp. Fire Department

Vacant, Mayor,

Statewide Interoperability Executive Committee(SIEC)

The SIEC serves as the formal advisory committee to the Integrated Public Safety Commission.

The SIEC has quarterly in-person meetings on the third Tuesday of every third month, at 10:00 am

CURRENT MEMEBRS

Ray Chambers - District 1 Representative

Gail Karas - District 2 Representative

Bill Grimm- District 3 Representative

William "Smokey" Anderson - District 4 Representative

Doug Burris - District 5 Representative

Darryl Brane - District 6 Representative

David Costin - District 7 Representative

Nick Klinger - District 8 Representative

Brad Meixell - District 9 Representative

Nick Adams - D10 Representative

Jeff Schemmer- PSAP Representative

Erv Faulk - State Agency Representative (ISP)

Mark Hahn - State Agency Representative (IDOC)

Lewis Hartman - State Agency Representative (IDHS)

Anthony Canaday- Indiana National Guard Representative (ING)

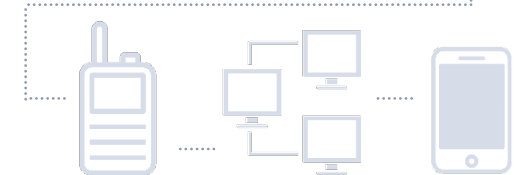

Mike Nichols- State Agency Representative (INDOT)

Michael Galloway -State Agency Representative (IDOH)

Sam Lashley- National Weather SRV

Jason Bradshaw- NGO (Red Cross)

Jim Jarvis- CISA

System Updates

7

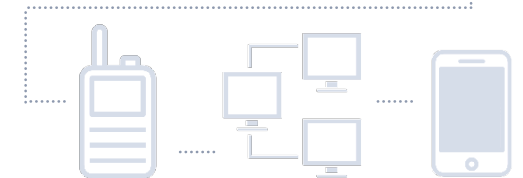

Land Mobile Radio – 2021.1m 7.18

- SmartConnect calls increase from 27-200
- Certified new backroom equipment (routers, switches, servers..)

FirstNet: 65K connections and over 800 agencies

- 99.8% coverage
- Uplift/Deployable
- LMR to Broadband
- Broadband to LMR
- Critical Connect

- **Data** -Caliber Public Safety Suite 10.20.3
 - Self Service password reset
 - First Alert
- **Microwave:** 54 Hop –Multiprotocol Label Switching, or MPLS

What's Next

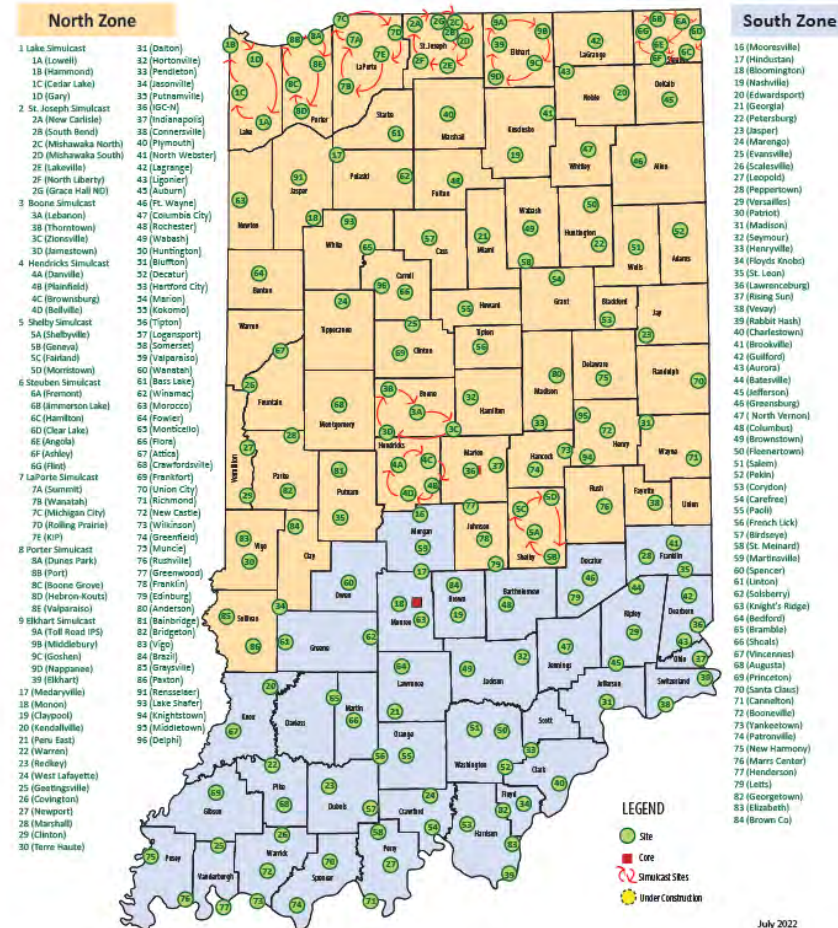

8

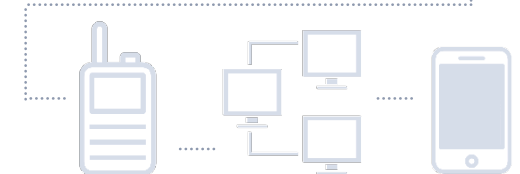

- ❑ TDMA
- ❑ Copper to fiber
 - Availability
 - Chronic Sites
 - Key Locations
 - Simulcast

IPSC

PLANNING TRAINING TECHNOLOGY

Goals

12

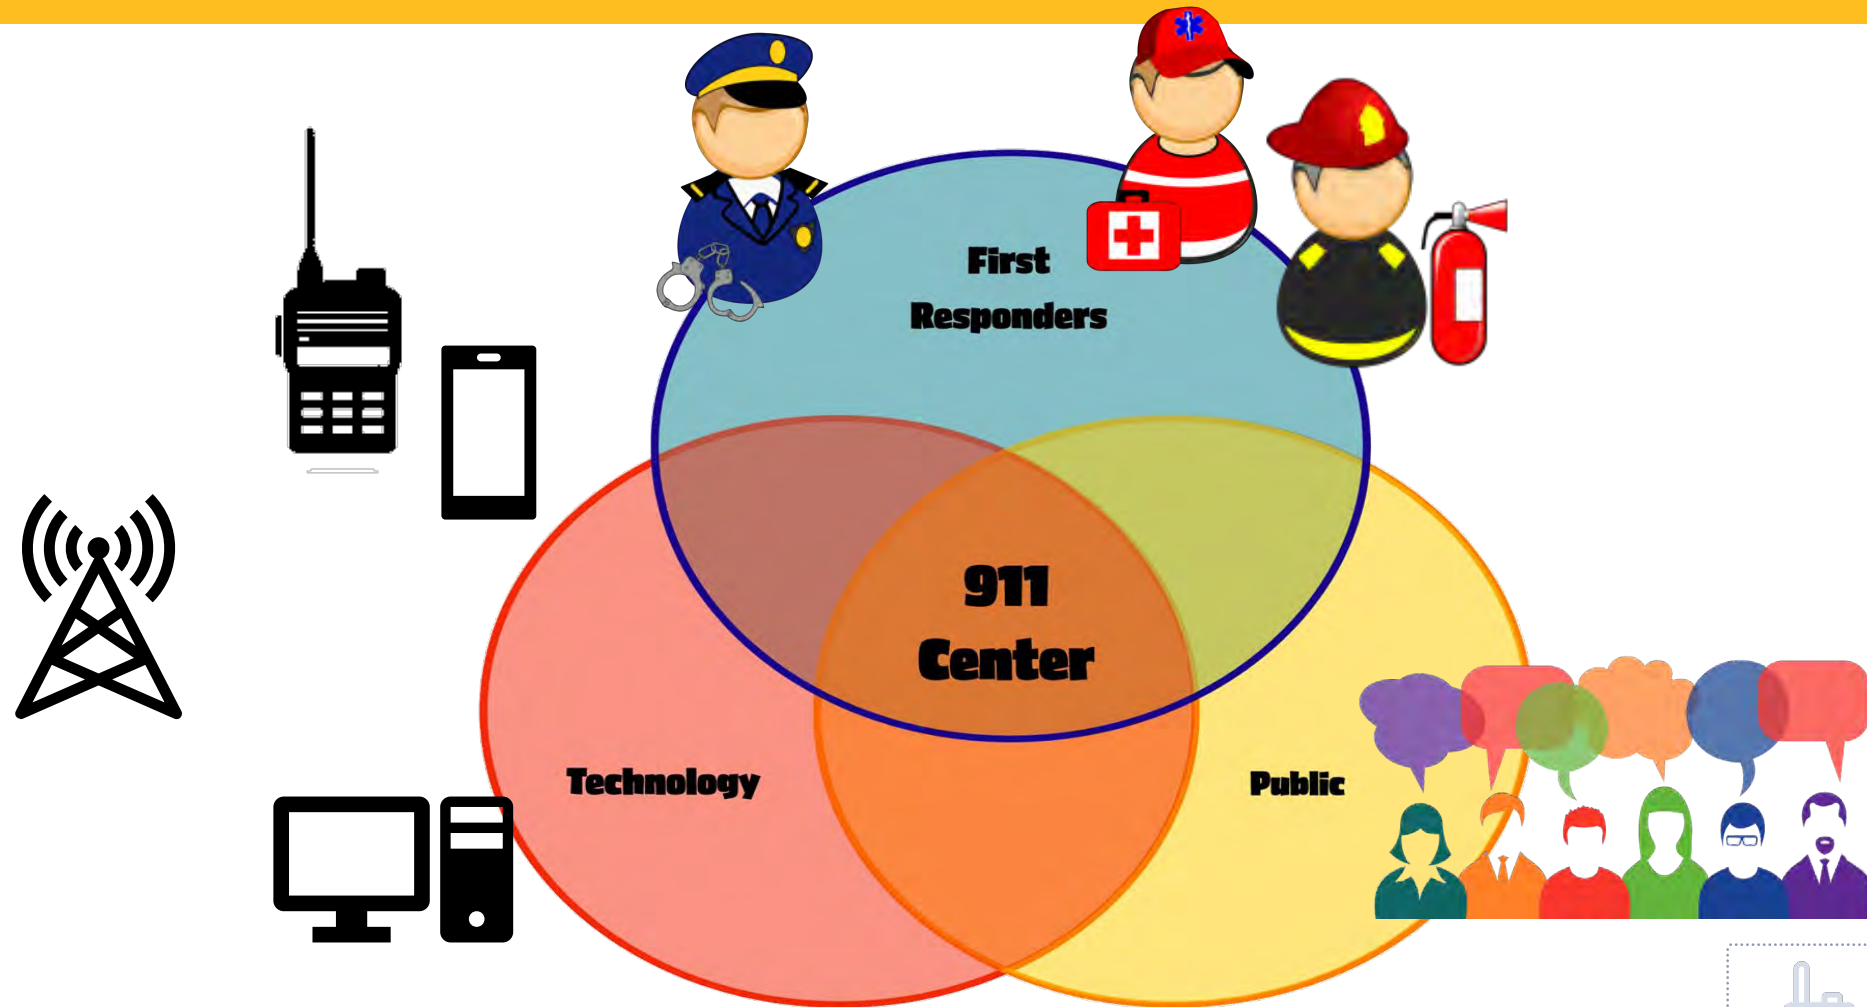

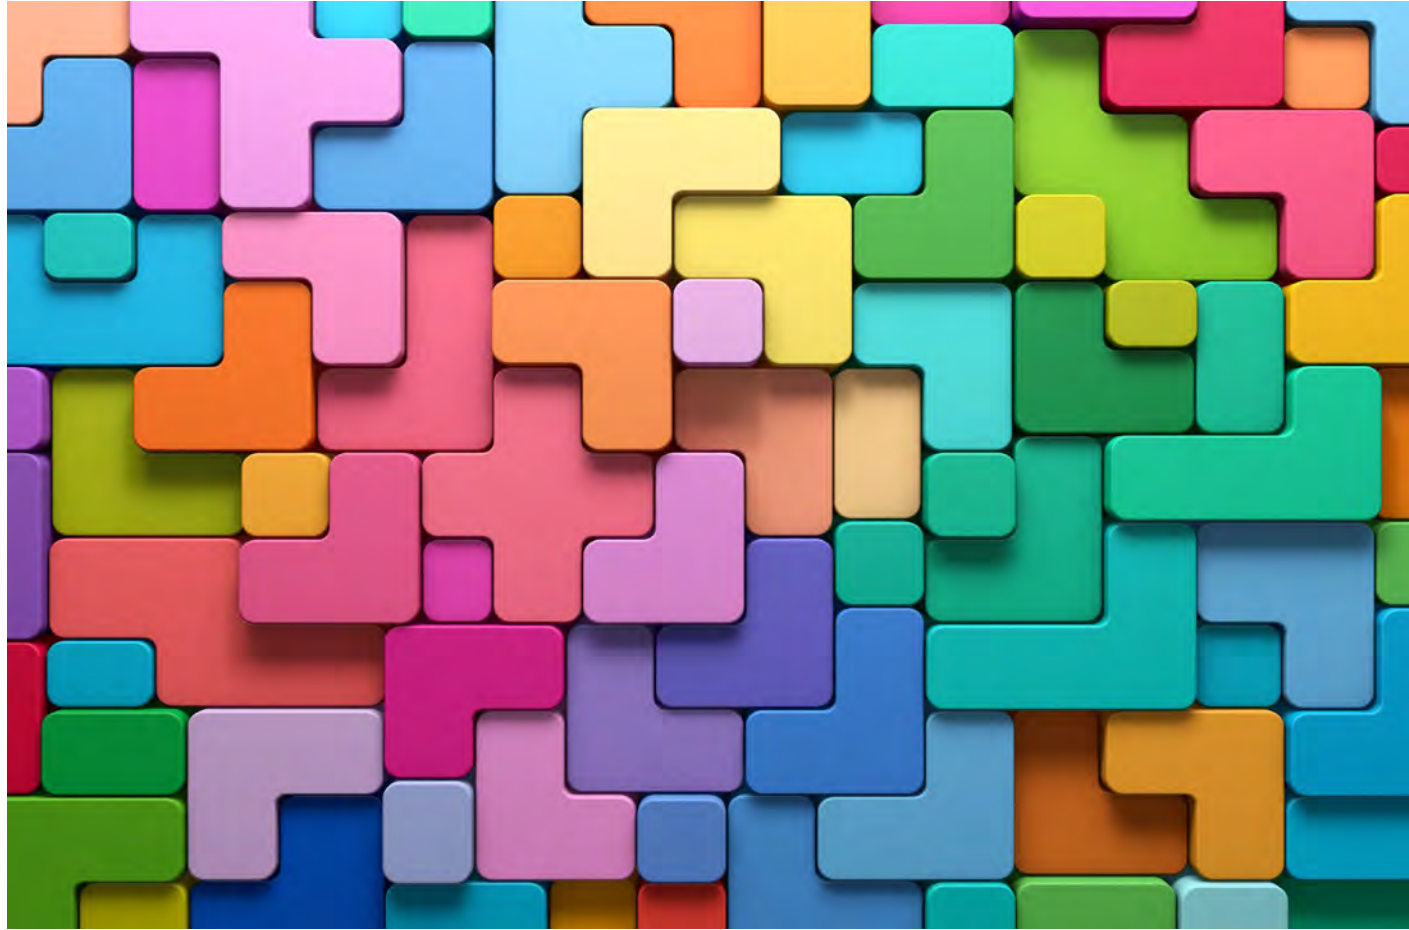

Connect to the PSAP's
by assisting with
planning, training
and **technology**
related to the radio
system

Always in the Middle

13

Planning

Planning

15

- Site Trunking plans
- Emergency Communication Plans
- PACE Plans
- Radio System Info for 911 Centers

Planning

16

Site Trunking

- Occurs when there is a disruption in the telco service
- Dispatch is the key to mitigating radio traffic until the service is restored
- There is no one size fit's all plan for site trunking

Large Event or Incident

- Involves multiple response agencies
- Usually, IPSC is told that the radio system didn't work
- Pre-planning communication for large events and disasters will mitigate most problems

How to Plan for site trunking

18

- ☐ Dispatch: Wireline or Wireless?
 - Wireline – what back up radios do you have? Consolettes?
 - Wireless – how many consolettes do you have? What tower sites can you reach?
- ☐ System: Simulcast System or Single Tower Site(s)?
- ☐ Talkgroups: What talkgroups are your priority if you have a site trunking event? This may mean consolidating to 1 PD, 1 FD, 1 EMS.
- ☐ Programming: What programming considerations are necessary for your plan to work?
- ☐ Responders: Do all the First Responders in your area know what to do if site trunking occurs?

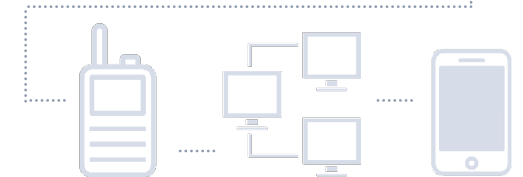

IPSC will help

Assisting with site trunking plans is one of the **FREE** services IPSC provides to any agency using the radio system

Set up an appointment today!

How do you plan for a disaster?

20

INCIDENT RADIO COMMUNICATIONS PLAN (ICS 205)

1. Incident Name: WECT - Woodville Emergency Communications Team		2. Date/Time Prepared: Date: 9/5/2018 Time: 12:00pm		3. Operational Period: Date From: 9/5/2018 Date To: 12/31/2018 Time From: 0600M Time To: 0600M						
4. Basic Radio Channel Use:										
Zone Grp.	Ch #	Function	Channel Name/Trunked Radio System Talkgroup	Assignment	RX Freq N or W	RX Tone/NAC	TX Freq N or W	TX Tone/NAC	Mode (A, D, or M)	Remarks
1		Regional Net			147.34 W	None	147.94 W	100.0	A	Net and primary traffic
2		Backup Net			147.52 W	None	147.52 W	None	A	Backup for net and traffic
3		Winlink			223.45 W	None	223.45 W	None	D	Winlink traffic (No voice)
4		Repeater Input			147.94 W	None	147.94 W	None	A	For monitoring incoming signals when Woodville repeater is offline
5										
5. Special Instructions:										
6. Prepared by (Communications Unit Leader): Name: Scott Green - K7JSG										Signature:

How to Plan for Events/Incidents

21

- ☐ What tower sites are your local talk groups are valid on?
 - How many channels at each site?
 - Channel capacity determines number of talk paths.
- ☐ System: Simulcast System or Single Tower Site(s)?
- ☐ Talkgroups: What talkgroups are your priority? This may mean consolidating talkgroups due to capacity.
- ☐ Interoperability talkgroups: Do you know how to use them?
- ☐ Dispatch:
 - How many dispatchers are needed for the Event/Incident?
 - How many dispatchers are needed for everyday 911?
- ☐ Responders: Do all the First Responders in your area know the plan?

IPSC will help

Assisting with Event/Incident plans is another one of the **FREE** services IPSC provides to any agency using the radio system. Along with **FREE** system training.

Set up an appointment today!

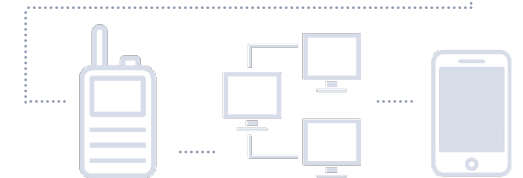

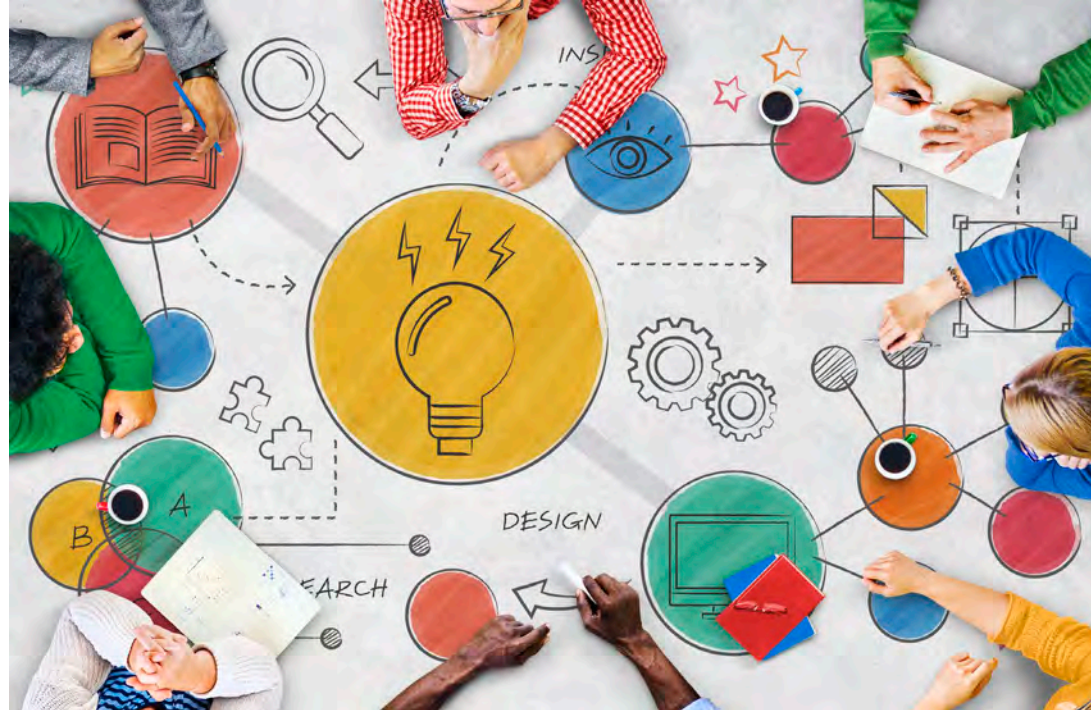

PACE Communication Plan

25

- Primary
- Alternate
- Contingency
- Emergency

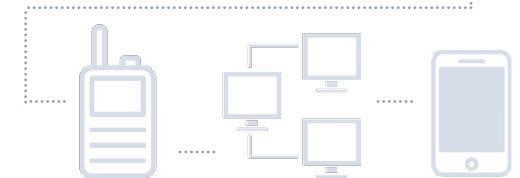

IN-TERT

26

IPSC is working with APCO and NENA leadership to help re-build the IN-TERT Team.

We hope to fill open TERT leadership positions and then discuss with current TERT leadership options to move forward.

Feedback Needed

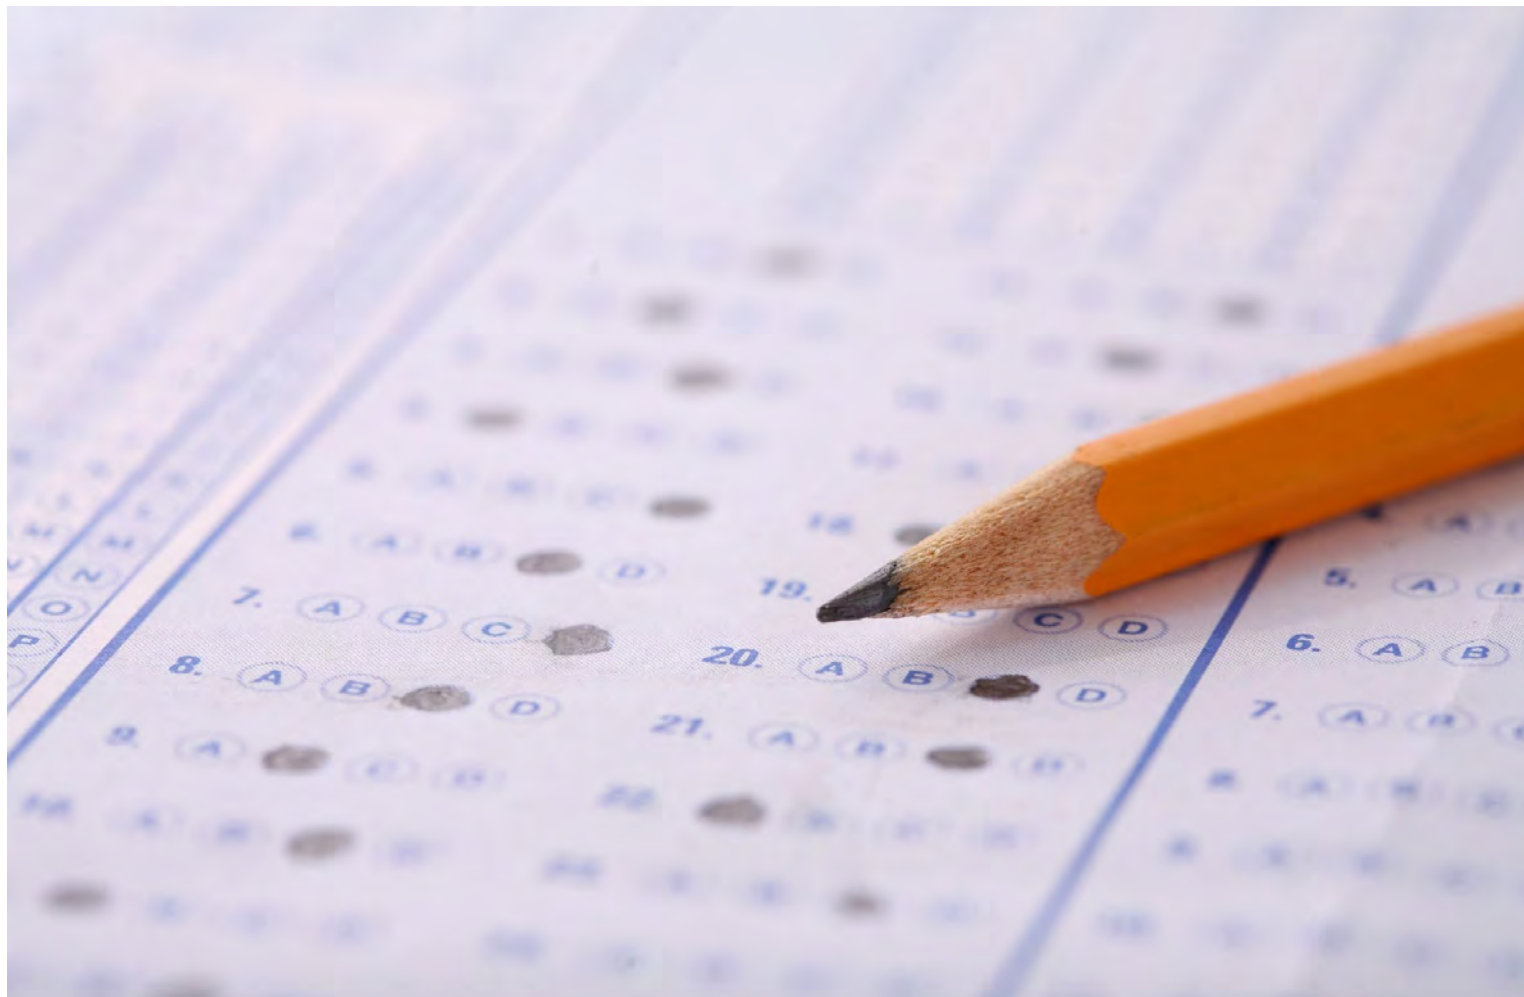

27

What type of information do the 911 Centers want to know to help make mitigating radio issues easier?

What format do you want it in?

Training

Training

29

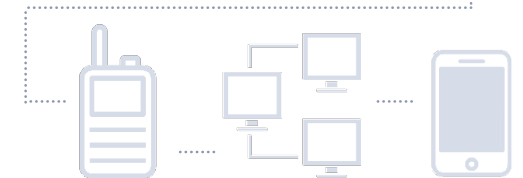

IPSC/State Specific

- ☐ Dispatch Pursuit Training
- ☐ Radio System Training

FEMA Type 3

- ☐ Communication Unit Leader (COML)
- ☐ Communication Unit Technician (COMT)
- ☐ Incident Tactical Dispatch (INTD)

CISA
CYBER INFRASTRUCTURE

Integrated Public Safety Commission

Cybersecurity for Public Safety

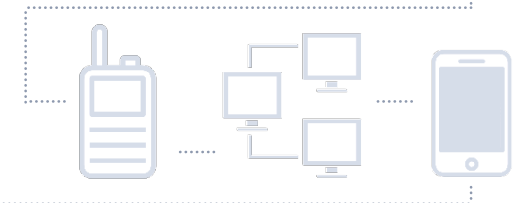

32

- Greater information sharing and improved interconnectivity enhances response operations, but also increases vulnerability to cybersecurity threats, such as malicious software, denial-of-service attacks, and unauthorized data access
- Public safety organizations have unique drivers that influence their cybersecurity architecture
- Traditional cybersecurity solutions may not provide adequate protection against cyber threats or account for mission needs

CISA
CYBER+INFRASTRUCTURE

Integrated Public Safety Commission

PUBLIC SAFETY CYBERSECURITY DRIVERS

- Cyber incidents have become one of public safety's greatest operational risks
- Public safety needs modernization of systems and customization of cybersecurity assessments and solutions to meet public safety's unique requirements

Cybersecurity Markers & Readiness Levels

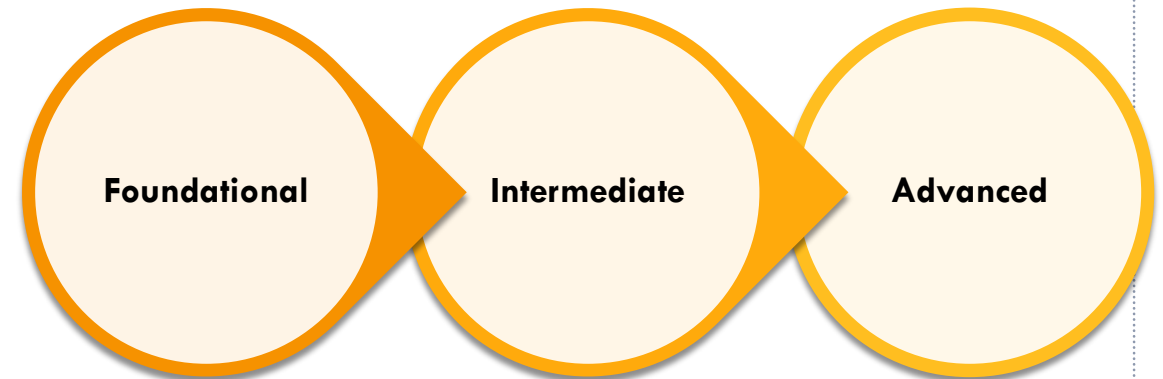

37

- Public safety communications network owners are aware of cybersecurity assessment availability and value

- Initial plus, Conducted assessment, conducted risk assessment.

- Defined plus, Availability of Cyber Incident Response Plan

- Services and resources that are available and recommended to all users regardless of capability.

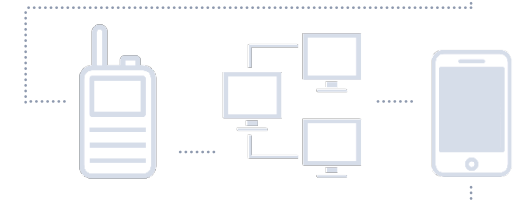

- Services that require users to have some experience developing and implementing security policies and procedures either on their own or through previous CISA engagements.

- Services that, because of their expansive scope and technical complexity, require pre-existing capabilities and programs already in place within an organization that can be leveraged as prerequisites for receiving that service.

ICC Updates / Inventory Management

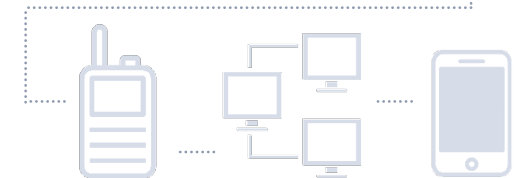

Zac Woodrum

Challenge

56

- Think of one question, comment, or concern.
- Write that down.
- We will address those at the end of this presentation.

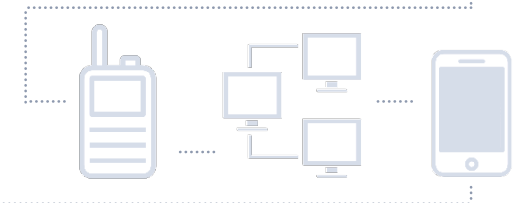

ICC Updates

57

- Staff Introductions
- Opening a 4th position in the ICC soon
- ICC Operating Hours
 - 7a-10p, Monday-Friday (Closed on Holidays)
 - Phone line is 24/7
- ID Requests and TDMA Capability

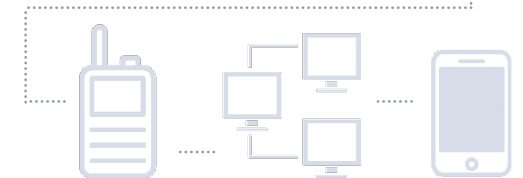

ICC Stats

58

- Total Active IDs: 95,927
- New IDs in 2022: 3,731
- Total Talkgroups: 2,424
- Talkgroups with Critical Connect Access: 17

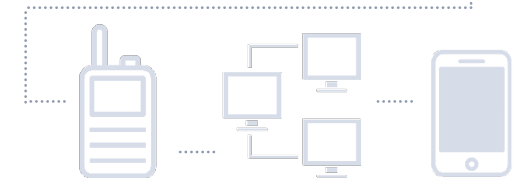

Creating a New ID

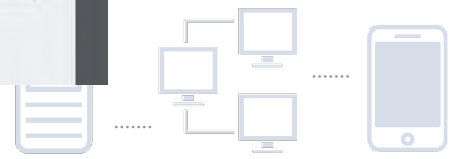

59

- Needed Information
 - Serial Number
 - Make and Model
 - Requesting Agency
 - Must be TDMA capable

System Name: IPSC

Range Name: BOONE

Radio ID: 610884

HEX: 95244

Alias: 06-JPD-10884

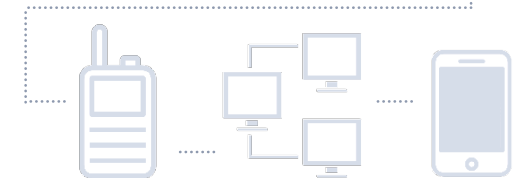

Inventory Management

62

- An average county has 500-1000 active IDs on the system.
- The cost of the most common radio on the IPSC system: **\$5,515.43**
- Without accurate information, we cannot place or remove inhibits. Must have ID and Serial Number.

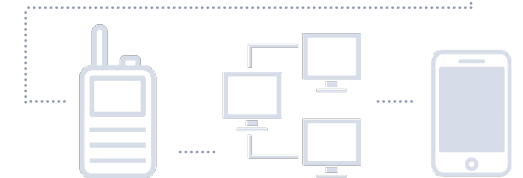

What To Do With Old Radios

63

- Trading IDs vs Cache Radios
- Buying radios from a public market
- Invites opportunities for malicious activity
