FACT SHEET: Biofuels Plants in Indiana

The Pence/Ellspermann Administration recognizes that bioenergy is making a significant contribution to the Hoosier economy with the current production in ethanol and its byproducts worth more than \$2.5 billion at current prices.

Indiana has a distinct advantage in energy production and distribution due to our feedstock availability, transportation infrastructure and proximity to consumers. Looking to the future, this sector continues to hold tremendous promise for our state.

Indiana currently has 13 completed ethanol plants. The combined production of the plants exceeds 1 billion gallons of ethanol annually and uses approximately 431 million bushels of corn.

Completed ethanol plants	Year	Town/County	Corn needed in millions of bushels	Estimated production capacity in million gallons
New Energy Sold: Not Producing	1985	South Bend/St. Joseph	0	0
Central Indiana Ethanol	2007	Marion/Grant	15	40
Iroquois BioEnergy	2007	Rensselaer/Jasper	15	40
POET Biorefining	2007	Portland/Jay	24	65
The Andersons	2007	Clymers/Cass	40	110
Valero Energy	2007	Linden/Montgomery	37	0 (100)*
Poet Biorefining	2011	Cloverdale/Putnam	30	90
Cardinal Ethanol	2008	Harrisville/Randolph	37	100
Indiana Bio-Energy	2008	Bluffton/Wells	37	110
POET Biorefining	2008	Alexandria/Madison	22	60
POET Biorefining	2008	North Manchester/Wabash	24	65
Abengoa Bioenergy Indiana	2009	Mt. Vernon/Posey	32	88
Aventine Renewable Energy (Idle)	2011	Mt. Vernon/Posey	0	0 (220)*
		subtotal	313	768

**Potential use when in production*

 Gina Sheets, Indiana Agriculture Director

Indiana is the fourth largest soybean state and now has five biodiesel plants with a combined capacity of just under 100 million gallons of biodiesel.

New biodiesel plants	Year	Town/County	Soybeans needed in millions of bushels	Estimated production capacity in million gallons
e-Biofuels (Not producing)	2007	Middletown/Henry	0	10
Integrity Biofuels	2006	Morristown/Shelby	3	5
Louis Dreyfus	2007	Claypool/Kosciusko	58	88
		subtotal	61	98

Today, Indiana has more than 145 E85 public pumps and numerous biodiesel pumps. To find a biofuels pump close to home, visit Indiana's biofuels website at www.biofuelsindiana.com.
