

The following identifies the changes between the proposed rule and final rule based on public comment for LSA # 18-158.

1. Changed 410 IAC 3-3-3 (a)(3)(A)(ii) from Argininosuccinic (argininemia) to Argininosuccinic aciduria to reflect the name of the disorder.
2. Changed 410 IAC 3-3-3(a)(3)(A)(viii) Hyperphenylalaninemia to Hyperphenylalaninemia (also called H-Phe) for clarification.
3. Changed 410 IAC 3-3-3(a)(3)(B)(vi) Glutaric acidemia to Gluteric acidemia type II to properly reflect the name of the disorder based on public comment.
4. Changed 410 IAC 3-3-3(a)(3)(B)(ix) Medium/short chain acyl-CoA dehydrogenase deficiency (M/SCHAD) to Medium/short chain L-3-hydroxyacyl-CoA dehydrogenase deficiency (M/SCHAD) to reflect the name of the disorder.
5. Changed 410 IAC 3-3-3(a)(3)(B)(x) Trifunctional enzyme deficiency to Trifunctional protein deficiency to reflect the name of the disorder.
6. Deleted 410 IAC 3-3-3(a)(3)(C)(xiii) Multiple CoA carboxybutyric aciduria (2M3HBA) because it was listed later in the rule and renumbered accordingly.
7. Changed 410 IAC 3-3-3(a)(5)(C) Spinal muscular atrophy to Spinal muscular atrophy (SMA) for clarification.
8. Changed 410 IAC 3-3-3(a)(6)(A) Tandem mass spectrometry: amino acid and acylcarnitine analysis to Tandem mass spectrometry based on public comment.
9. Changed 410 IAC 3-3-3(a)(6)(D) Time resolved fluoroimmunoassay to Time resolved fluoroimmunoassay: immunoreactive trypsinogen (IRT) measurement based on a public comment.
10. Changed 410 IAC 3-3-3(a)(6)(E) Enzymatic assay to other enzymatic assay based on a public comment.
11. Deleted 410 IAC 3-3-3(a)(6)(G) Immunoreactive trypsin (IRT) based on public comment.
12. Deleted 410 IAC 3-3-3(a)(6)(H) Biotinidase based on public comment and renumbered accordingly.
13. Changed 410 IAC 3-3-3(f) to remove the phrase “total exchange” before “transfusion” based on public comment.
14. Changed 410 IAC 3-3-3(f) to include a fourteen day repeat screen for babies with transfusions.

15. Changed 410 IAC 3-3-3(g) to include a fourteen day repeat screen for babies in the neonatal intensive care unit (NICU) based on public comment.
