

List of Approved Non-Freeze, Non-Polluting Sanitary Exterior Drinking Fountains and Yard Hydrants

Drinking Fountains need to meet the NSF/ANSI standard for sanitary drinking fountains. Free standing fountains must be sanitary with no drain hole exposed to the soil. The following are examples of Approved Non-Freeze, Non-Polluting Sanitary Exterior Drinking Fountains and are approved by the Indiana State Department of Health for use in regulated facilities.

Drinking Fountains:

Murdock Models	M80 – NP M80 – 2 – NP M-82 NP M84 – NP M88 – NP M88 – 2 – NP “Ejecto-San” M – 35
Sunroc W/Freeze Resistant Valving	SF – 8000 – SF 8055 SF – 8125 – SF 8130 SF – 8180 – SF 8185 SF – 8200 – SF 8255 SF – 8475 SF – 8300 – SF 8255 SF – 8375 – SF 8385 SF – 8600 – SF 8655 SF – 8670 – SF – 8675 SF – 0170 Underground Freeze-Resistant Valve SF – 0175 Underground Freeze-Resistant Valve
HAWS W/“Enviro-Guard” Freeze Resistant Valves	Model 6531 FR Models: 3060, 3121, 3150, 3176, 3202, 3271, 3300, 3376, 3380

Yard Hydrants:

Any Freeze Resistant Sanitary Yard Hydrants with Backflow Protection that comply with the ASSE 1057 – 2012 *Performance Requirements for Freeze Resistant Sanitary Yard Hydrants with Backflow Protection* are approved by the Indiana State Department of Health for use in regulated facilities.
