

Mitchell E. Daniels, Jr.  
Governor

Gregory N. Larkin, M.D., F.A.A.F.P.  
State Health Commissioner

**DATE:** February 2, 2012  
**TO:** All Local Health Departments  
Attn: Chief Food Inspection Officer  
**FROM:** *DLG*  
A. Scott Gilliam, MBA, CP-FS  
Director, Food Protection Program  
**SUBJECT:** Michael Foods, Inc. Recall

**SUGGESTED**

**ACTION:** **Unclassified Recall; Specific lot dates of hard-cooked eggs in brine sold in 10- and 25-pound pails for institutional use that were produced at its Wakefield, Nebraska facility because the product has the potential to be contaminated with *Listeria monocytogenes*; Recommend notification of affected stores via phone, fax or e-mail.**

From the information provided by FDA, the products being recalled were distributed in the State of Indiana. The recalled eggs were purchased by food distributors and manufacturers located in 34 states (AL, AR, AZ, CA, CO, FL, GA, IA, IL, IN, KS, KY, LA, MI, MN, MO, MS, MT, NC, ND, NE, NJ, NV, OH, OK, OR, PA, SC, TN, TX, UT, WA, WI, WV). The recall is limited to hard-cooked eggs in brine in 10- and 25-pound pails prodced at its Wakefield, Nebraska facility, which are labeled under six brand names (Columbia Valley Farms, GFS, Glenview Farms, Papetti's, Silverbrook, Wholesome Farms) and bearing lot codes of **1 LOT 1350W through 1 LOT 2025W** and expiration dates ranging from **1/30/2012 to 3/10/2012**. Detail information is not available at this time. In addition, if any recalled products are found, please notify this office at 317-233-7360.

**FOR IMMEDIATE RELEASE** - February 1, 2012 -Michael Foods, Inc. is recalling specific lot dates of hard-cooked eggs in brine sold in 10- and 25-pound pails for institutional use that were produced at its Wakefield, Nebraska facility because the product has the potential to be contaminated with *Listeria monocytogenes*. *Listeria monocytogenes* is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women.

The recalled eggs were purchased by food distributors and manufacturers located in 34 states (AL, AR, AZ, CA, CO, FL, GA, IA, IL, IN, KS, KY, LA, MI, MN, MO, MS, MT, NC, ND, NE, NJ, NV, OH, OK, OR, PA, SC, TN, TX, UT, WA, WI, WV). The recall is limited to hard-cooked eggs in brine in 10- and 25-pound pails produced at its Wakefield, Nebraska facility, which are labeled under **six brand names (Columbia Valley Farms, GFS, Glenview Farms, Papetti's, Silverbrook, Wholesome Farms)** and bearing lot codes of 1 LOT 1350W through 1 LOT 2025W and expiration dates ranging from 1/30/2012 to 3/10/2012

Only lot codes immediately preceded by a "1" AND ending in a "W" are affected, please see the following example:

Here is an example of the lot codes on the packaging: USE BY 11 FEB 12 1 LOT 1362 W

USE BY 11 FEB 12 = Use by Date

1 = line impacted by recall

LOT 1362 = Lot Number

W = Wakefield

None of the eggs were sold directly by Michael Foods to retailers or consumers. However, food distributors and manufacturers who purchased the eggs could have used them in products that were sold to retail outlets or used in foodservice settings. Michael Foods is working with customers who purchased eggs from these lots to ensure that all product is removed from the market. Consumers who believe they might have purchased product affected by the recall, or those who are unsure, should contact the original place of purchase.

There have been no confirmed reports of illness in connection with this product.

The recall was initiated after lab testing revealed that some of the eggs within the recalled lot dates may have been contaminated with *Listeria monocytogenes*. A recall of three lot dates was announced on Thursday, January 26. As a precautionary measure, the recall was expanded today to include additional lot dates. Michael Foods reached the decision to expand this recall after a

thorough investigation which indicated a specific repair project that took place in the packaging room as the likely source of the contamination. The company has taken a number of corrective steps to address the issue and prevent recurrence.

For further questions regarding this recall, please call Michael Foods at 877-367-3447, Monday through Friday, 8am – 5pm EST.
