Director, Food Protection Program

SUBJECT: Natura Pet Products Recall

SUGGESTED ACTION: Unclassified Recall; Specific lots of dry pet food because it has the potential to be contaminated with *Salmonella*; Recommend notification of affected stores via phone, fax or e-mail.

From the information provided by FDA, the recalled products were distributed in the State of Indiana. The affected products are sold in bags through veterinary clinics, select pet specialty retailers, and online in the United States, Canada, Korea, Malaysia, Japan, Hong Kong, and Costa Rica. Detail store information is not available at this time. In addition, if any recalled products are found, please notify this office at 317-233-8475.

Recall -- Firm Press Release

FDA posts press releases and other notices of recalls and market withdrawals from the firms involved as a service to consumers, the media, and other interested parties. FDA does not endorse either the product or the company.

Natura Pet Issues Voluntary Recall of Specialized Dry Pet Foods Due to Possible Health Risk

FOR IMMEDIATE RELEASE -March 18, 2013 - Natura Pet Products is voluntarily recalling specific lots of dry pet food because it has the potential to be contaminated with *Salmonella*. No *Salmonella*-related illnesses have been reported.

Salmonella can affect animals eating the products and there is risk to humans from handling contaminated pet products, especially if they have not thoroughly washed their hands after having contact with the products or any surfaces exposed to these products.

Healthy people infected with *Salmonella* should monitor themselves for some or all of the following symptoms: nausea, vomiting, diarrhea or bloody diarrhea, abdominal cramping and fever. Rarely, *Salmonella* can result in more serious ailments, including arterial infections, endocarditis, arthritis, muscle pain, eye irritation, and urinary tract symptoms. Consumers exhibiting these signs after having contact with this product should contact their healthcare providers.

Pets with *Salmonella* infections may be lethargic and have diarrhea or bloody diarrhea, fever, and vomiting. Some pets will have only decreased appetite, fever and abdominal pain. Infected but otherwise healthy pets can be carriers and infect other animals or humans. If your pet has consumed the recalled product and has these symptoms, please contact your veterinarian.

These products were made in a single production facility during a two week window in December 2012. Routine testing by the Michigan Department of Agriculture collected from a single retail location tested positive for the presence of *Salmonella*. As a precautionary measure, Natura is voluntarily recalling all products from this production window.

The affected products are sold in bags through veterinary clinics, select pet specialty retailers, and online in the United States, Canada, Korea, Malaysia, Japan, Hong Kong, and Costa Rica. Product expiration dates range from 12/17/2013 – 1/2/2014. Product was distributed by Natura Pet Products between December 18, 2012 through March 15, 2013. No other dry food, canned food, biscuits, bars or treats are affected by this announcement.

A complete list of products in the scope of this recall are listed at the end of this release. Additional information on these products can be found at www.naturapet.com².

Consumers who have purchased the specific dry pet foods listed should discard them.

For further information or a product replacement or refund call Natura toll-free at 800-224-6123. (Monday – Friday, 8:00 AM to 5:30 PM CST).

Please see the [Table of Affected Products](#).
