

Readoption Review

Residential On-Site Sewage System 410 IAC 6-10.1

IC 4-22-2.5-3.1(c) requires an agency to conduct a review to consider whether there are alternative methods of achieving the purpose of the rule that are less costly or less intrusive, or that would minimize the economic impact of the proposed rule on small business.

Description of Rule:

This rule provides standards for the safe and sanitary site evaluation, design, installation, and operation of commercial on-site sewage systems.

Readoption Analysis:

1) Is there a continued need for this rule? Please explain.

Yes, the predominate purpose and effect is to address matters of health and safety by making sure that commercial on-site sewage systems are installed, operated and maintained in a safe and sanitary manner to prevent the creation of a health hazard.

2) What is the nature of any complaints or comments received from the public, including small business, concerning the rule or the implementation of the rule by the agency?

The Indiana State Department of Health has not received any complaints or comments about the implementation of this rule.

3) Examine the complexity of the rule, including difficulties encountered by the agency in administering the rule and small businesses in complying with the rule.

The agency has not encountered any difficulties administering it and small businesses have not had difficulties complying with it.

4) To what extent does the rule overlap, duplicate, or conflict with other federal, state, or local laws, rules, regulations, or ordinances?

The rule does not overlap, duplicate, or conflict with other federal, state, or local laws, rules, regulations, or ordinances.

5) When was the last time the rule was reviewed under this section or otherwise evaluated by the agency, and the degree to which technology, economic conditions, or other factors have changed in the area affected by this rule since that time?

The rule was last revised in 2014 and factors have not changed since that time.
