63% did not use marijuana at any time during their life.

20% of high school students are current marijuana smokers, meaning they have used marijuana one or more times in the past month.

33% had at least one drink of alcohol in the past 30 days. Which is a 12% decrease from 2003.

All of the cool kids aren't doing it!

4 out of 5 students did not binge drink in the past month.

Binge drinking is having five or more drinks of alcohol in a row within a couple of hours.

21% have ever taken a prescription drug (such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax) without a doctor’s prescription.

What you can do:

1. Participate in social activities or after school programs that promote healthy behaviors.
2. Discuss substance use with a trusted friend or adult. Let them help.
3. Only take prescription medicines at the correct dosages that are prescribed for you.

The Indiana YRBS is part of a nationwide surveying effort led by the Centers for Disease Control and Prevention (CDC) to monitor students' health risks and behaviors in six categories. The YRBS is conducted every two years among a representative group of Indiana students in grades 9-12.
