

## **MAKING KIDS COUNT IN YOUR COMMUNITY**

Do you have young children? Do you work with young children? Would you like to have a more family friendly community? Come talk to us about it. Tell us what is working and what would make raising your children a little easier. There are many programs for young children, but are you finding out about them? Do the programs work together and are they available in all communities? As Indiana continues its efforts to improve the lives of young children and their families, we need your help. Come tell us how to make kids count in your community. Please attend any of the public forums convenient for you.
