

GANG GUNS DRUGS

Collect. Analyze.

INGangNetwork | Statewide Gang Database

Statewide Gang Database

The INGangNetwork hosts a criminal gang Intelligence database (CrimeNtel). All law enforcement and criminal justice personnel are eligible to become members. Membership is **FREE**. Intelligence entered in CrimeNtel can be accessed via mobile devices or online, allowing gang intelligence to be shared and updated. INGangNetwork is a powerful tool that makes it easy to collect, analyze, and share gang intelligence in a single location. Individuals entered into the database do not have to meet an age requirement but rather criteria required of INGangNetwork and approved by Bureau of Justice Assistance.
