October 19, 2018

Mr. E. Curtis Gassert, Director  
Water and Wastewater Division  
Indiana Utility Regulatory Commission  
101 W. Washington St., Ste. 1500 E  
Indianapolis, IN 46204

RE: Community Utilities of Indiana, Inc. – Tariff addition to allow deduct meter and backflow provisions

Dear Mr. Gassert:

Community Utilities of Indiana, Inc. (“CUII”) desires to add language to our tariff to allow for the installation of a deduct meter for non-sewer flow. CUII therefore requests approval of the enclosed tariff language through the Commission’s 30-day filing procedure in accordance with 170 IAC 1-6. This filing is allowable under the 30-day filing rule because it is a filing of “changes to rules and regulations of the utility” as permitted under 170 IAC 1-6-3(3).

Enclosed are CUII’s proposed tariff language changes along with the supporting documentation required under 170 IAC 1-6. We have provided three copies of the schedules and supporting documents to the Office of Utility Consumer Counselor.

CUII has provided notice of the filing as required under 170 IAC 1-6-6. The notice and proofs of publication of such notice are included herein.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin P. Kersey", is written over a light blue horizontal line.

Justin. P. Kersey  
Vice President – Midwest/Mid-Atlantic Operations  
Community Utilities of Indiana, Inc.

**VERIFIED STATEMENT IN SUPPORT OF FILING RULES AND REGULATIONS  
GOVERNING WATER AND WASTEWATER SERVICE**

TO THE INDIANA UTILITY REGULATORY COMMISSION

1. Community Utilities of Indiana, Inc. under and pursuant to the Public Service Commission Act, as amended, hereby files with the Indiana Utility Regulatory Commission its proposed deduct meter tariff language ("Tariff Language").

2. All of the matters and facts stated herein and in the attached exhibits are true and correct. The Tariff Language shall take effect upon final approval by the Commission.

3. All affected customers have been notified as required under 170 IAC 1-6 (list means of written notification: Newspaper publication and posted on Company website) and include copies of any written notifications to this verified statement.

RULES, REGULATIONS AND CONDITIONS OF SERVICE - WATER

33. DEDUCT METERS.

- A. If a residential, commercial, industrial, or governmental customer believes that a significant volume of metered water is not discharged to the wastewater facilities, said user can, at its own expense and with approval from the Company, install such additional meters, metered services, or building sewer flow meters as required to establish the volume of metered water not discharged to the wastewater facilities or the actual volume of wastewater discharged to the wastewater facilities. Metered water that is not discharged to the wastewater facilities shall not be subject to sewer service charges.
- B. All requests to install additional water meters, meter services, or building sewer meters shall be made in writing to the Company. The request shall clearly state the reasons why the customer believes these facilities are needed and shall include a detailed description of the facilities proposed. No water meters, meter services, or building sewer meters may be installed without written approval from the Company.
- C. All building sewer meters shall be installed by a licensed plumber while a representative of the Company is present to observe and inspect said installation. Only Company-approved building sewer meters will be allowed. All deduct water meters and meter couplings shall be furnished by the Company. All costs for the installation of the meters shall be at the expense of the customer requiring the meter.
- D. Backflow prevention device required. All buildings connected to the Company's private water supply shall be equipped with backflow prevention devices, as designated by the Company's representative. All such devices shall meet the State of Indiana requirements and shall be installed within 30 days of written notice to the owner of such property to correct such deficiency. In addition, there shall be a backflow device installed when there is a deduct meter installed. The type of device is determined by Indiana State Plumbing codes; at a minimum, the device will need to be a testable device. The costs for this device, installation, and annual testing shall be borne by the customer.
