RE: Southern Indiana Gas and Electric Company's, d/b/a CEI South 2022 Integrated Resource Plan
("IRP") Submission

Dear Dr. Borum:

Pursuant to the Commission's Rule 170 IAC 4-7-2(a)(3), CEI South is scheduled to submit its IRP on November 1, 2022. On June 17, 2021, CEI South filed a petition requesting a certificate of public convenience and necessity ("CPCN") for the construction of two natural gas combustion turbines ("CT") providing approximately 460 MW of capacity, which is docketed as Cause No. 45564. In recognition that the outcome of Cause No. 45564 will have a significant impact on future resource portfolio planning, CEI South proposes to delay initiating its 2022 IRP process to allow time for the Commission to issue an Order in Cause No. 45564.

For the reason set forth herein, CEI South requests under 170 IAC 4-7-2(b) that the submission date for its 2022 IRP be extended to June 1, 2023.

Sincerely,

A handwritten signature in blue ink, appearing to read "S.C. Greenley", with a large, stylized flourish extending from the end.

Steven C. Greenley
Senior Vice President, Generation Development
