

After going to IURC website and clicking the link “Watch the IURC Live”, you will be directed to the LINK to watch the stream. After clicking that link, if you do not see the player window after scrolling down, you will need to do the following:

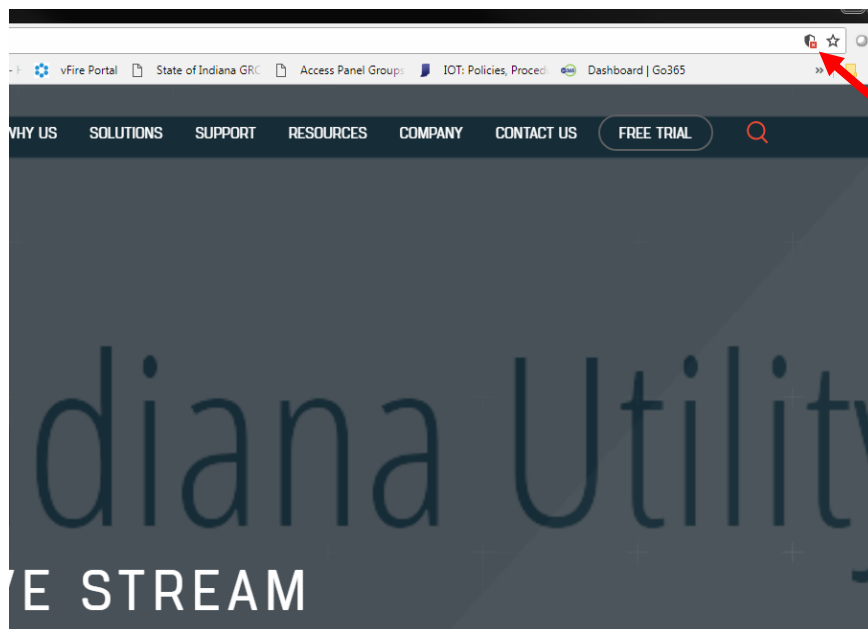

Welcome to the IURC live feed

*If audio/video doesn't play automatically, please click on the play bar at bottom of image.*

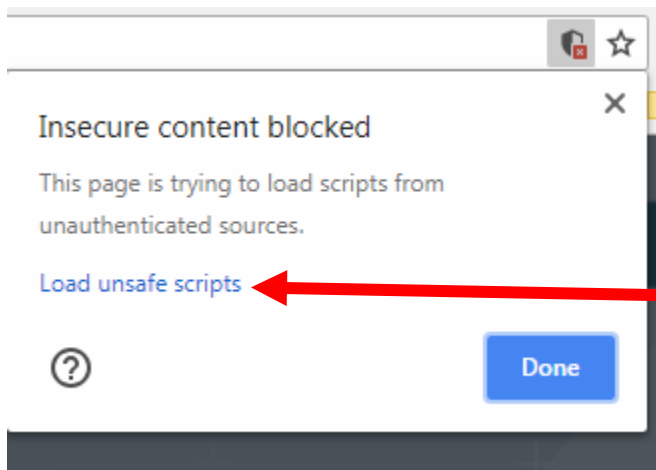

### In Chrome:

- Click on the red X (covering a shield) in upper right corner of the browser address bar

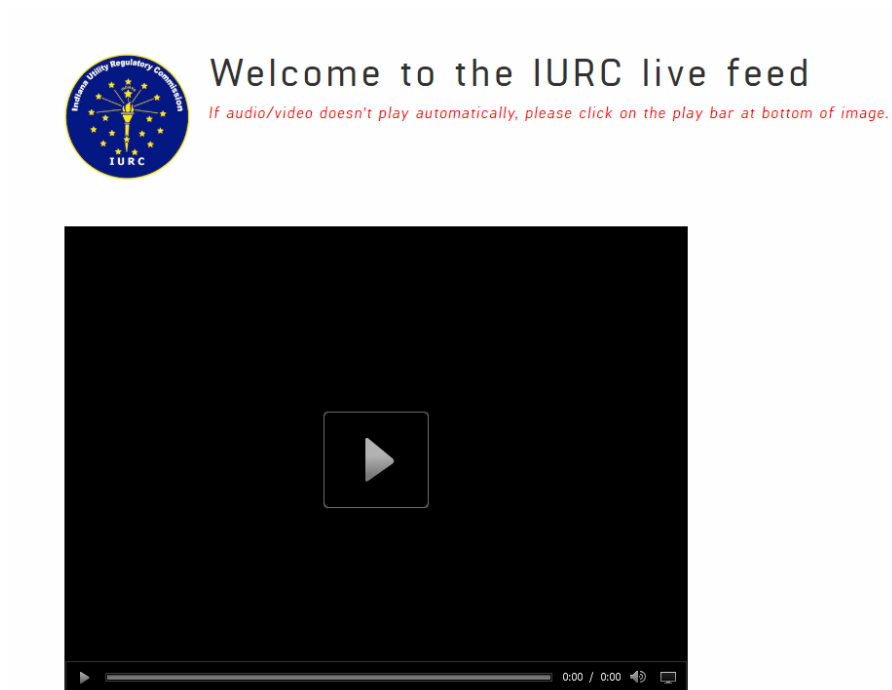

- A box will open that says “Insecure content blocked”

- Click the link that says “Load unsafe scripts”

- Scroll down the page and you should then see the player window

- Click the play icon and if stream is live, you should then begin seeing the video stream in the window

## In Internet Explorer:

- After clicking the link and arriving at the stream page, you will see a pop-up at the bottom of the browser regarding secure content

Welcome to the IURC live feed

*If audio/video doesn't play automatically, please click on the play bar at bottom of image.*

- Click on the button that says "Show all Content"

- The page will refresh. Scroll down the page and you will now see the player window
  - If the stream is live you should see the stream playing
  - If the stream is not turned on, you will see the player buffering
