CMN-RUS, Inc., d/b/a MetroNet

July 1, 2019; revised on July 16.

IC 8-1-2-88.6, 170 IAC 1-6, and IURC Cause No. 44004; FCC USF/ICC Transformation Order and related FCC rules.

CMN-RUS, Inc., qualifies for the FCC’s “Rural Exemption” and has consistently applied the Rural Exemption since its inception. The Rural Exemption allows a rural competitive local exchange carrier (CLEC) offering service within the territory of a nonrural incumbent local exchange carrier (ILEC) to “benchmark” to the highest possible local switching rates prescribed in the National Exchange Carriers Association (“NECA”) interstate access tariff, instead of mirroring the competing nonrural ILEC’s interstate local switching rates, as would otherwise be required under 47 C.F.R. § 61.26(c). In this case, the competing nonrural ILEC is AT&T Indiana.

This intrastate access tariff is separate from, and does not mirror, CMN-RUS, Inc.’s interstate access tariff (FCC Tariff No. 2).

Although federal law provides for a Rural Exemption and explicitly states what intrastate rates a rural CLEC taking advantage of the Rural Exemption is able to charge, those rates can only be captured in an intrastate tariff filed with a state commission. Consistent with the FCC’s rural CLEC exemption, the FCC’s 2011 USF/ICC Transformation Order, and the applicable NECA rates, MetroNet is proposing the following revisions to its existing intrastate rates, as follows:

- Originating Switched End Office rate: $0.048712
- Terminating Switched End Office rate: $0.0007
