Greg S. Loyd, Administrative Law Judge**

On April 17, 2024, the Indiana Utility Regulatory Commission (“Commission”) issued its Order in this Cause (“Final Order”). Ordering Paragraph 3 of the Final Order incorrectly stated Indianapolis Power & Light Company’s (“Petitioner”) rates and charges were to be designed to produce total annual operating revenues of \$1,705,842,000. This amount should have read \$1,642,636. To correct this error, the Commission now finds that the Final Order in this Cause should be corrected Nunc Pro Tunc to replace Ordering Paragraph 3 in the Final Order with the following corrected Ordering Paragraph 3:

3. Petitioner is authorized to adjust and increase its rates and charges for electric utility service to produce an increase in total annual operating revenues of approximately \$71,037,000 in accordance with the findings above, which rates and charges shall be designed to produce total annual operating revenues of \$1,642,636, which are expected to produce an annual net operating income of \$235,972,000.

**IT IS THEREFORE ORDERED BY THE INDIANA UTILITY REGULATORY COMMISSION that:**

1. The original Ordering Paragraph 3 in the April 17, 2024 Final Order in this Cause is replaced with the corrected Ordering Paragraph 3 above.

2. This Order shall be effective on and after the date of its approval.
