Engineer's Report

Mr. Ross reported that there was still no update from the FAA or Woolpert on the Master Plan forecast. Woolpert's Trent Holder, who was not present at the meeting, had just recently received an email response from the FAA that was needed to finish the revised forecast and is currently working to make the necessary edits. Mr. Ross advised the Board that they will likely have a revised forecast to submit in March.

Attorney's Report

Mr. Comingore presented the Municipal Nepotism Policy Certification for each Board Member to approve and sign.

Manager's Report

Ms. Hackler introduced Pamela Colby with American CropCare, an aerial application company interested in basing their operation at Jasper County Airport. Ms. Colby explained to the Board that the company would like to rent a hangar for aircraft storage as well as business handlings and that they would like to bring a mobile fuel tanker to park on the Airport during the crop dusting season. Discussions between the Manager and Ms. Colby prior to the meeting revealed that the Airport's standard T-Hangar Lease Agreement cannot accurately represent the logistics and needs of American CropCare; therefore, a commercial lease specific to the nature of the operation would need to be developed. Ms. Colby mentioned specifically that the insurance requirements on the standard T-Hangar Lease Agreement will not work for their company since they are flying a leased plane that is only insured by the company for the duration of the crop dusting season. Mr. Ross asked that specifications for the fuel tanker be sent to the Airport Manager. After some discussion, the Board welcomed the idea and directed the Manager to work on the lease agreement between the Airport and American CropCare.

The Manager reported hangar vacancies, fuel sales, rental aircraft usage, interest & investments, and operations for the month of January.

Ms. Hackler requested that the Board declare the Airport's retired courtesy car, a 2009 Ford Crown Victoria, as surplus to be listed in the next County auction. *Mr. Malone moved and Mr. Jackson seconded the motion to declare the Airport's retired courtesy car as surplus. The Manager presented her timesheets from 1/9/23-2/5/23 for the approval of her payroll and comp time. *Mr. Jackson moved and Mr. Malone seconded the motion to approve the Manager's payroll and comp time as reported. The Manager's payroll and comp time were approved by unanimous consent of the Board.*

Ms. Hackler reported the Airport's credit card activity, totaling \$149.42.

Ms. Hackler presented three Cash Farm Lease agreements to be approved and signed by the Board. The Manager explained that the future tenant is currently out of town and does not plan to return until after the start-date of the lease. The Board signed the lease agreements and advised the Manager to have the tenant send his rent payment prior to March 1st, 2023.

The Manager presented the amended JCAA Board Meeting & Holiday Schedule (see attached) for adoption by the Board. *Upon motion by Mr. Jackson, seconded by Mr. Malone, the Board adopted the amended schedule by unanimous vote.*

Treasurer's Report

Mr. Jackson presented the unreconciled Treasurer's report through January 31, 2023.

Claims Approval

The motion was made by Mr. Jackson and seconded by Mr. Pettet to approve the accounts payable summary vouchers for \$23,195.37. Following discussion of the same, the Board adopted by unanimous consent the motion approving the claims as presented.

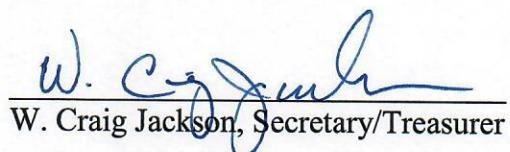

Board Comments

The Board engaged in a discussion regarding soil-sampling of the Airport's leased farmland. The Manager explained that the Airport had not received any soil-sampling test results for the duration of the current tenant's lease. The Board considered sampling to establish a baseline and discussed potential remedial action but were unable to come to an agreement.

BE IT RESOLVED that the JCAA's next, regular meeting shall be held on Tuesday, March 14, 2023 at 6:00 p.m. CST at Jasper County Airport, 2326 West Clark Street, Rensselaer, Indiana, 47978.

Mr. Ross informed the Board of some confusion from the FAA regarding documentation for grants that the Airport had previously submitted. Mr. Ross worked with Ms. Hackler to resolve the FAA's requests. Since 2023 is the last year for land reimbursement payouts from the AIP-14 multi-year grant, Mr. Ross encouraged the Board to look further into applying for a second grant in order to claim the remaining reimbursement funds from the FAA that were not included with AIP-14 due to its duration.

Attorney's Report

Mr. Comingore informed the Board that he would no longer be providing a laptop and camera for board meeting Zoom access. He suggested that the Manager search for new equipment to purchase for the Airport and send suggestions to the Board via email. The Board agreed.

Manager's Report

Ms. Hackler reported hangar vacancies, fuel sales, rental aircraft usage, interest & investments, and operations for the month of February.

Ms. Hackler presented a T-Hangar Lease Agreement with Just Plane Adventures, Inc. for the Board's approval. *Upon motion by Mr. Andree, seconded by Mr. Jackson, the Hangar Lease Agreement with Just Plane Adventures, Inc. was approved by unanimous consent of the Board.* She also reported that American CropCare, Inc. pulled out of the previously discussed Lease Agreement due to the Airport's new aerial applicator fees. The Board asked the Manager to send the draft lease agreement via email to review and eventually approve a general short-term land lease for other potential tenants.

Ms. Hackler informed the Board of her intention to use 32 hours of vacation time. The Board confirmed that these vacation hours would be deducted from the Manager's remaining 44 hours that were rolled over from 2022. Ms. Hackler requested the Board's approval to open the 2023 Summer Internship Program for applications under the premise that the Airport will hire one Jasper County high school or college student part-time for \$10 per hour. *Mr. Jackson moved and Mr. Malone seconded the motion to open the 2023 Summer Internship Program for applications. The motion was approved by unanimous vote of the Board.*

Ms. Hackler informed the Board that four area high school students had committed to the Aviation courses at Jasper County Airport for the 2023-24 school year. She suggested offering the courses anyway, citing that word-of-mouth will be the Airport's best tool in enrolling more students. The Board was in agreement with this suggestion and gave their blessing to begin courses.

The Manager presented a quote totaling \$5,359.00 from Facer Insurance Agency to renew the Airport's general liability insurance policy. *Upon motion by Mr. Andree, seconded by Mr. Malone, the renewal quote was approved by unanimous vote of the Board.*

The Manager suggested to the Board that the Airport provide the funds to complete the soil-sampling for the Airport's leased farmland in 2023 with the intention that the Board will have a

baseline to reference and an awareness of soil health. She will present a quote to the Board once the ground is dry enough to allow for vehicles on the property. *Mr. Yallaly moved and Mr. Jackson seconded the motion to adopt the Manager's recommendation, which was approved by unanimous consent of the Board.*

Ms. Hackler presented the Aerial Application Operation Agreement to the Board for adoption. *Upon motion by Mr. Andree, seconded by Mr. Jackson, the Aerial Application Operation Agreement was adopted by unanimous vote of the Board.*

Treasurer's Report

Mr. Jackson presented the unreconciled Treasurer's report through February 28, 2023. He also reported his submittal of the Airport's Annual Financial Report to the State Board of Accounts on March 1, 2023.

Engineer's Report: Mr. Holder reported that the FAA recently notified the consultants and Airport Manager that a forecast approval letter would be issued shortly. The future critical aircraft is recognized to be in ARC group B-II, specifically an Air Tractor 802A. The length of the proposed future runway will be determined based on the critical aircraft's approach speed and wingspan, designated as ARC. Mr. Holder obtained a takeoff performance chart for the AT-802A and determined the required takeoff distance to be 4,800 feet on an average July day. The FAA will examine the performance of the critical aircraft when determining runway length in future Master Plan chapters. Mr. Holder also explained that the FAA has become less accepting of Letters of Support like the letters KRZL obtained, preferring stringent data instead. Mr. Ross discussed the benefits of installing deer cameras on each end of the runway to capture agricultural operations and suggested counting operations manually to determine any error in the Airport's traffic counting system.

Mr. Ross suggested that the Board authorize the Airport Manager to work with Woolpert and proceed with the Master Plan as scheduled. *Upon motion by Mr. Jackson, seconded by Mr. Yallaly, the Manager's authorization was approved by unanimous vote of the Board.* Mr. Ross explained that next year, federal funding for the Master Plan will be available after receiving the last AIP-014 installment.
