FOREWORD

The 2016 Indiana Judicial Service Report marks the forty-first year of this publication. This Report, as it has for the forty times prior, compiles and presents data on activities such as case filings, court expenditures and revenue; however, the 2016 Report will be the first Report published since the Court finished its internal restructuring which began in 2015 when the Indiana Supreme Court asked the National Center for State Courts (NCSC) to evaluate its procedures and structure. The goal of this review was to create a sustainable Court support structure to enhance communication, clarify staff responsibilities, document institutional knowledge, and plan for the succession of key personnel. After interviews with judges and court staff, comparisons to other states, and document review, the NCSC provided the Indiana Supreme Court with recommendations for internal restructuring which included establishing a Chief Administrative Officer (CAO) to head the Office of Judicial Administration. The CAO is responsible for overseeing the work of all Indiana Supreme Court agencies. The internal transformation also combined the Division of State Court Administration and the Indiana Judicial Center into a single agency, the Indiana Office of Court Services (IOCS), headed by one Executive Director.

The 2016 Report will be the first to focus not only on programs and projects supported by the former Division of State Court Administration, but will also include highlights of some of the amazing programs guided by the former Indiana Judicial Center.

As always, we thank the Indiana's trial court judges, circuit court clerks, and their staffs, for the data gathered and submitted throughout the year. Their cooperation and hard work is what allows us to present the overview of the judicial branch that you see before you.

ON THE COVER

History of the Jefferson County Courthouse

The Jefferson County Courthouse, designed by architect David Dubach in the Classic Revival style, was built in 1854-1855 at a cost of \$36,000. The structure is located on Main Street in Madison, Indiana between Walnut Street and Jefferson Street. The building was built partly of brick and partly of stone. The stone and the marble pillars in the courthouse came from a nearby quarry in Marble Hill.

The current courthouse is the third courthouse building in Madison. The first courthouse, built of logs in 1811, was moved in 1823 to become a local business. The 1823 courthouse, an eight-sided building built near the current courthouse, was destroyed by arson on September 12, 1853. The keys to the current courthouse were received by the county commissioners on September 6, 1855.

Fire damaged the courthouse in 1859, requiring substantial repair to the building. Restoration costs were put at \$15,000. The restored roof leaked, and after trying several remedies, the decision was made in 1869 to place Vermont slate on the roof. However, the addition of the slate required that the roof's pitch be made steeper, involving reconstruction of the courthouse roof including raising the cupola 8 feet so the drum of the cupola would not be concealed.

Major reconstruction to the courthouse also took place in the 1950s when an entire new floor was added to the courthouse. The original design consisted of a basement, main floor, and two-story second floor. This two-story second floor was converted to an entirely new third floor.

In 2009, fire again challenged the existence of the Jefferson County Courthouse. On May 20, as the sun began to set, fire trucks rushed to the courthouse on what turned out to be a three-alarm fire. The fire department had received a frantic call from the public reporting smoke billowing from the cupola of the beautiful historic building. The fire most likely occurred from a spark from the welding work being done on the roof and cupola as part of restorations performed to get the courthouse ready to celebrate Madison's upcoming Bicentennial. The fire turned out to be extremely difficult to extinguish and as a result, the wood portion of the cupola and roof were destroyed, along with parts of the interior. The records contained in the courthouse were also seriously damaged due to the one million gallons of water pumped into the building to put out the fire. The renovation work done in the 1950s helped to reduce the water damage to the lower floors in the courthouse. Amazingly, in just over two weeks, the Circuit and Superior courts and the Circuit Clerk were open for business in a temporary office space.

The courthouse was rededicated on August 26, 2011 in a ceremony to thank the 200 firefighters and volunteers who had fought the May 20, 2009 blaze and to thank all the volunteers and employees who had worked tirelessly to secure and preserve the records that had been rescued from the fire. The cost of restoring the courthouse was approximately \$8 million.

INTRODUCTION

The *Indiana Judicial Service Report* is an annual publication that compiles statistical data on the workload and finances of the Indiana judicial system. This report covers calendar year 2016, with the exception of the Indiana Supreme Court data and certain state fiscal information which are reported on a July 1 to June 30 fiscal year basis. The Indiana Supreme Court's Indiana Office of Court Services (IOCS), the new court agency created by the merger of the Division of State Court Administration and the Indiana Judicial Center, publishes the report. The *Indiana Judicial Service Report* has been published every year since 1976.

Information is presented in three volumes:

- Judicial Year in Review (Vol. I)
- Caseload Statistics (Vol. II)
- Fiscal Report (Vol. III)

The Judicial Year in Review also includes data regarding the operation of Indiana's appellate courts. Excerpted statistical information and earlier reports are found on the Indiana Courts Website at courts.in.gov.

The statistical information published in this report was compiled from Quarterly Case Status Reports (QCSR) filed with IOCS by each trial court. All trial courts annually file a summary report on court revenue and a report on court expenditures and budget. Although the administrative offices of the appellate courts compile and publish their own caseload reports, Indiana law requires that appellate information also be included in this report. Fiscal data for the state is obtained from the annual report of the Auditor of the State of Indiana.

This report is not an exact accounting of funds or of every judicial decision. It is based on aggregate summary data and presents an overview of the workload and functioning of the Indiana judiciary. It is intended to be used by trial judges in evaluating their performance and monitoring the caseloads in their respective courts; by trial judges and county councils in the budgeting process; by the General Assembly and its committees in legislative deliberations; by IOCS in its support of judicial administrative activities; and by the Indiana Supreme Court in meeting its responsibility to foster the administration of justice. Additionally, the information detailed in this report provides a factual basis for long-term judicial planning in the State of Indiana.

The production of this report would not be possible without the diligent work of hundreds of Indiana judges, court employees, and clerks who ensure access to justice and provide exceptional service to the citizens of Indiana. IOCS is grateful to them for all of their assistance and to our own staff who coordinate the entire production of the *Indiana Judicial Service Report* each year.

Trends and Highlights: New Filings

The following highlights new filings statistics for Courts of Record, City and Town Courts, and Marion County Small Claims Courts in 2016.

Courts of Record

The 1,032,409 new cases filed in 2016 represent a decrease of 2.1 percent over the previous year. The number of new cases filed in 2016 is 29.4 percent less than the number of cases filed ten years ago in 2007. Of the total new cases filed, 78.4 percent were filed in Courts of Record¹. Criminal cases represent 23.4 percent of total cases filed in 2016². Infractions and Ordinance Violations constitute 32 percent of total cases filed in Courts of Record.

- ▲ Expungement case filings increased 158.9 percent.
- ▲ Termination of Parental Rights case filings increased 37.3 percent.
- ▲ Estate-Unsupervised case filings increased 23.9 percent.
- ▲ Estate Miscellaneous case filings increased 22.8 percent.
- ▲ Level 2 Felony case filings increased 16.3 percent.
- ▲ Adoption case filings increased 15.8 percent.
- ▼ Estate-Supervised case filings decreased 49.3 percent.
- ▼ Juvenile Status case filings decreased 17.4 percent.
- ▼ Mortgage Foreclose case filings decreased 17.2 percent.
- ▼ Ordinance Violation case filings decreased 16.4 percent.
- ▼ Civil Miscellaneous case filings decreased 14.7 percent.
- ▼ Small Claims case filings decreased 11.0 percent.

Three case types represent the largest numbers in case filings:

¹ Circuit, Superior and Probate Courts are considered Courts of Record in the state of Indiana.

² The Criminal category consists of the following case types: Murder, Felony, Class A Felony, Class B Felony, Class C Felony, Class D Felony, Level 1 Felony, Level 2 Felony, Level 3 Felony, Level 4 Felony, Level 5 Felony, Level 6 Felony, Misdemeanor, Post-Conviction Relief, and Miscellaneous Criminal.

City and Town Courts

- The 284,305 new cases filed in City and Town Courts represent a decrease of 7.6 percent over the previous year.
- The number of new cases filed in City and Town Courts in 2016 is also 31.5 percent less than the number filed in 2007.

Marion County Small Claims Courts

- The 57,069 new cases filed in Marion County Small Claims Courts represent an increase of 4.6 percent over the previous year.
- The number of new cases filed in Marion County Small Claims Courts in 2016 is 23.2 percent less than the number filed in 2007.

Trends and Highlights: Dispositions

Indiana courts disposed of 1,281,857 cases in 2016, which represents an 8.2 percent decrease over the previous year. The number of cases disposed in all Indiana courts in 2016 is 29.8 percent less than the number disposed in 2007. Criminal cases represent 19.9 percent of total cases disposed in 2016.

Three case types represent the largest number of dispositions:

Infractions	455,091
Small Claims	204,743
Misdemeanors	134,314

Courts of Record

Of the total cases disposed, 80.3 percent were disposed in Courts of Record.

- ▲ Expungement case dispositions increased 257.2 percent.
- ▲ Level 1 Felony case dispositions increased 101.3 percent.
- ▲ Level 2 Felony case dispositions increased 87.7 percent.
- ▲ Estate-Unsupervised case dispositions increased 78.7 percent.
- ▲ Level 4 Felony case dispositions increased 59.0 percent.
- ▼ Class B Felony case dispositions decreased 68.3 percent.
- ▼ Class D Felony case dispositions decreased 66.4 percent.
- ▼ Class A Felony case dispositions decreased 60.2 percent.
- ▼ Class C Felony case dispositions decreased 60.2 percent.
- ▼ Estate-Supervised case dispositions decreased 42.5 percent.

* The increases in Level 1, 2, and 4 felony dispositions and the decreases in Class A, B, C, and D felony dispositions were expected due to legislative changes made in 2013. Public Law 158-2013 and the subsequent changes to Administrative Rule 8 removed the four-level penalty felony classification (Class A, B, C, and D felonies) and replaced it with a new six-level classification (Level 1, 2, 3, 4, 5, and 6). As time passes, we expect to see a reduction in case filings and dispositions of A, B, C, and D felonies and an increase in case filings and dispositions of the new 1, 2, 3, 4, 5, and 6 felonies.

2016 Fiscal Highlights

Indiana's trial courts are financed primarily through county general revenue with a substantial portion coming from local property taxes. State General Fund revenues pay judicial salaries, appellate level courts, defray some of the expenses associated with indigent criminal defense, guardian ad litem services for abused and neglected children, court interpreter services, unrepresented litigant support, civil legal aid, Family Courts, and Problem-Solving Courts. City and town funds pay for the respective city and town courts, while the townships in Marion County (the most populous Indiana County) fund the nine Marion County Small Claims Courts.

The state of Indiana spent \$143,984,488 during fiscal year 2015/2016 on the operation of the judicial system. The counties, which report on a

calendar year basis, spent \$276,325,929; the cities, towns, and townships spent \$19,636,226 on their respective courts, for a total annual expenditure of \$439,946,643.

All courts in the state, including city courts, town courts, and Marion County Small Claims courts, generated a total of \$173,570,429 in revenue. Of that amount, \$90,040,604 (52 percent) went to state level funds and \$69,201,839 (40 percent) went to a variety of county level funds. The remaining \$14,327,986 (8 percent) went to various local funds. An additional \$2,074,504 was generated by Marion County Small Claims Courts and paid to constables for service of process.

2016 REPORT OF THE OFFICE OF JUDICIAL ADMINISTRATION

Overview

In 2015, the Indiana Supreme Court announced an internal restructuring plan to enhance communication, clarify staff responsibilities, document institutional knowledge, plan for personnel succession, and continue to move the judiciary forward. The Office of Judicial Administration was created as part of this plan and, after a nationwide search, Henry Circuit Court 1 Judge Mary G. Willis was appointed as the Indiana Supreme Court's first Chief Administrative Officer.

The Office of Judicial Administration includes 200 employees in the following departments:

- Appellate Clerk's Office
- Attorney Disciplinary Commission
- Communication, Education & Outreach
- Fiscal Office
- Indiana Office of Court Services
- Judges & Lawyers Assistance Program
- Judicial Qualifications & Nomination
- Office of Admissions & Continuing Education
- Personnel Management & Operations
- Indiana Supreme Court Services
- Trial & Appellate Court Technology

Among the many projects the Office of Judicial Administration directly oversees are the Senior Judge Program, the Special Judge Program, and evaluating submissions made under Trial Procedure Rule 53.1.

Special Judges

Under Trial Rules 79, 60.5, 53.1 and 53.2, and Criminal Rule 13, the Indiana Supreme Court is responsible for selecting a special judge to hear a case when the judge originally assigned to the case is unable to hear the case due to a conflict of interest, when a mandate action is filed, or when the judge has been removed from the case for failing to rule in a timely fashion. These appointments are made so that parties appear before neutral judges and to ensure that cases are heard and decided in a timely manner.

In 2016, sixty-five requests were submitted to the Indiana Supreme Court for the appointment of a special judge. The Indiana Supreme Court appointed special judges in 47 cases and remanded the case to the original judge in 18 instances.

Staff assists the Indiana Supreme Court in cases requiring appointment of a special judge. Appointments are necessitated when a local rule does not result in the selection of a special judge, the submission of a case has been withdrawn from the judge under Civil or Criminal procedural rules, or the particular circumstances of the case warrant an appointment by the Indiana Supreme Court.

Senior Judge Program

Senior Judges are a pool of retired judges who have been certified by the Judicial Qualifications Commission as meeting the senior judge requirements found in Administrative Rule 5(B)(3). They provide assistance to the judiciary by serving as judges and performing other tasks to assist the judiciary in managing caseloads and enabling cases to be processed in the absence of the regular judge. Senior Judges work at a lower rate of pay than regular judges in return for which they receive health insurance and the ability to establish a schedule that meets their needs.

In 2016, 82 individuals provided services as senior judges delivering services equivalent to that of 21 regular judicial officers.

Indiana Trial Rule 53

The Chief Administrative Officer is charged with evaluating requests to remove the submission of cases from judges who allegedly have not ruled in a timely manner as provided in Indiana Trial Rules 53.1 and 53.2, and Indiana Criminal Rule 15. When a judge fails to rule within the time prescribed by these rules, justice is delayed. Seeking the removal of a judge begins with the filing of a praecipe with the trial court clerk. The

clerk forwards the praecipe and the Chronological Case Summary to the Chief Administrative Officer for review and determination whether an inappropriate delay of a decision or ruling has occurred.

- Reviewed 94 requests for withdrawal of cases in 2016
- Issued Notice denying the requested withdrawal in 69 cases in 2016

DEPARTMENT REPORTS

Fiscal Department

In 2016, a dedicated Fiscal Department was formed to handle all financial transactions for the Indiana Supreme Court and its associated agencies. As a part of the reorganization, the new position of Chief Financial Officer (CFO) was created, and all Fiscal personnel became a united department under the CFO and were centrally located to better meet the financial needs of the organization as a whole. Previously, Fiscal personnel reported to various managers throughout the organization and sat in disparate locations.

The unified Fiscal department and CFO have ushered in several changes which have improved and streamlined financial processes, standardization, and improved internal financial controls for the Indiana Supreme Court. Before the reorganization, there were 5 separate accounting software systems used by various court agencies. These different systems have been consolidated into a single accounting system by the Fiscal department which allows the use of the same financial forms and reports for all areas, bringing consistency and efficiency. This reorganization has also allowed the Judiciary and its customers a clearly-defined, single point of contact and resource for financial questions allowing for a better coordination of efforts and collaboration with other Branches/Agencies throughout the State. It has also allowed the Indiana Supreme Court and its agencies to have better budgeting and reporting throughout the enterprise to help leadership make quicker and more-informed decisions based on relevant data. With the new department in place, invoices are

processed more efficiently and standardly, and the new team structure allows for knowledge-sharing, cross-training, and better business continuity.

Trial and Appellate Court Technology

The Indiana Supreme Court established a trial court technology section in 1999 in recognition of the impact of computer technology and innovation on the judiciary and the need for the implementation of uniform policies and practices. Indiana Supreme Court technology has the following core goals: equipping every court with a 21st century case management system; connecting the case management system with users of court information; and providing judges, circuit clerks, and other stakeholders with additional computer resources to better serve the public.

By the end of 2016, the Odyssey case management system had been deployed to a total of 255 courts in 59 counties resulting in sixty-six percent of all new cases being filed in Odyssey. Odyssey completes over 100,000 distinct transactions each day. Training continued throughout the year on myOdyssey, functionality that allows courts and clerks to process pleadings and orders electronically. Courts and clerks are trained on myOdyssey prior to e-filing beginning in that county.

Forty-five probation departments and twenty other programs were using Odyssey Supervision including Alcohol and Drug courts, Problem Solving Courts and Home Detention Programs supported by probation.

Court Technology processed more than thirty-three thousand traffic tickets online for Odyssey courts. Over \$1.2 million was collected in outstanding fines and court costs through the tax intercept project for courts using Odyssey.

A new public access site for Odyssey records found at mycase.in.gov was released as a pilot (beta) during 2016. The technology allowed for a responsive design and the new site was touted as more user friendly for personal devices. This new website also allowed Court Technology to display all cases designated by five of the six pilot commercial courts using Odyssey as ‘commercial cases’. Commercial courts were implemented during 2016, designed to promote efficient resolution of complex business litigation. Cases designated as commercial cases can now be identified and followed on the new mycase.in.gov.

Indiana Supreme Court Technology provides computer, network, and related infrastructure services to more than 250 staff in the Indiana Supreme Court, Court of Appeals, Tax Court, and the administrative agencies of the Office of Judicial Administration. Court Technology supports desktop applications and enterprise applications, including: appellate e-filing and case management; roll of attorneys; and education tracking for judges, attorneys, and mediators.

Attorneys, judges, and mediators can use the Indiana Supreme Courts Portal to manage their records with the Roll of Attorneys and the Office of Admissions and Continuing Education.

In 2016, attorneys submitted 1,824 requests for course accreditation and reported 12,358 CLE credit hours of course attendance through the portal.

In addition:

- Electronic Citation and Warning System (eCWS) - 411 law enforcement agencies using; over 14,600 users; 9+ million tickets and warnings written using eCWS
- Protection Order Registry – over 13,900 users; almost 200,000 victim notifications via text or email; over 34,000 new protection order cases filed
- e-tax warrants – 66 circuit court clerks using; over 9 million tax warrants processed to date
- Guardianship Registry – by the end of 2016, 41 counties using this registry tracking over 2,700 cases
- Mental Health Adjudication Reporting application – available to judges in every county; since 2009 over 10,280 individuals have been adjudicated and reported to FBI; 1,003 reported during 2016
- Over 100,000 new criminal cases and almost 240,000 traffic tickets were successfully e-filed to Odyssey during 2016
- Processed 26,053 payments for attorney and mediator annual registration

Electronic Case Filing

The implementation of e-filing began in earnest on July 29, 2015 in Hamilton County. The Indiana Supreme Court and the Court of Appeals began in early November that same year. The Tax Court started e-filing the first week of 2016 and work continued throughout the year. By the end of 2016, twenty-eight counties were actively e-filing. In addition to the e-filing service provider (EFSP) offered by the Indiana Supreme Court, there are five other EFSPs for filers to choose. In June, the first county using the legacy case management system called JTS (Judicial Tracking System) started to e-file with several more JTS counties e-filing during the second half of the year.

By the end of 2016, there were over 10,000 registered users of the Indiana E-Filing System with approximately 30,000 documents filed each week.

Indiana Office of Court Services

As part of the Court's reorganization, the Indiana Office of Court Services (IOCS) was created to carry out the combined duties, functions and powers of the Indiana Judicial Center, the Division of State Court Administration, and Interstate Compact-related duties under Indiana Code § 11-13-4.5 *et seq.*

IOCS is divided into four divisions:

- Judicial Branch Education,
- Justice Services,
- Legal Support and Statistics, and
- Programming and Projects.

Judicial Branch Education

The Indiana Office of Court Services (IOCS) provides continuing judicial branch education to a broad group of justice system stakeholders including judicial officers, trial and clerk personnel, probation officers, community supervision officers, court alcohol and drug program personnel, problem-solving court team members, and juvenile detention alternatives initiative stakeholders. The programs emphasize substantive knowledge and procedures, skills application, new statutes and rules, and technology to better equip judicial branch personnel to perform their duties. In 2016, IOCS launched a distance education opportunity, e-Candidates School, making it available to the seventy-six (76) candidates for judicial office who

filed for the May Primary. Presented in an on-demand format and hosted by the National Center for State Courts, candidates for judicial office received training on campaign ethics, election conduct, engagement and employment law basics; forty-five (45) candidates participated in the e-Candidates School. Working in conjunction with the National Center for State Courts, the agency also developed a new distance education training module for trial court personnel including a transcription module for court reporters and basic time management module for trial and clerk staff members.

The agency continues to work on enhancing training opportunities through the development of distance-web based training. The year 2016 proved to be a busy year for the Indiana Office of Court Services; the agency delivered 224 days of judicial branch training.

Justice Services

The Justice Services Division assists trial courts in developing and implementing legal and evidence based sentencing, dispositional, and supervision strategies administered through courts, probation departments, community corrections agencies, court administered alcohol and drug programs, and problem-solving courts. Here are highlights of some of the projects Justice Services oversees:

Indiana Juvenile Detention Alternatives Initiative (JDAI)

Indiana has chosen the Juvenile Detention Alternatives Initiative (JDAI) as its platform for continuous juvenile justice system improvement. JDAI is a public-private partnership being implemented in 300 local communities across 39

states, the District of Columbia, and Mexico City, reaching a third of the nation's youth. Nationally, JDAI sites have reduced the use of secure detention by 45 percent without negatively impacting public safety. As one of the first states in the nation to implement JDAI on a statewide basis, Indiana continues to be a national leader in advancing the cause of an equitable and effective juvenile justice system.

The Annie E. Casey Foundation's model program, JDAI, has improved public safety in Indiana using evidence-based interventions for youth and families that eliminate the unnecessary detention of youth, reduce disproportionate minority contact, improve outcomes and welfare of youth, save taxpayer money and stimulate overall juvenile justice system improvement. As of 2016, Indiana's JDAI includes 31 Indiana counties. These counties represent approximately 69 percent of Indiana's youth ages 10 – 17, over 500,000 youth.

The Indiana Supreme Court, the Indiana Criminal Justice Institute, the Indiana Department of Correction, the Indiana Department of Child Services and Family and Social Services Administration: Division of Mental Health and Addiction have come together with members of the Indiana General Assembly, the Governor's Office and other key stakeholders, to partner with counties throughout Indiana. The shared vision of this state/local partnership is to achieve a juvenile justice system in Indiana that is effective in responding to risk to public safety while ensuring Indiana youth have opportunities to develop into healthy, productive adults.

Data reported to the Annie E. Casey Foundation in 2015 reveals that the first 19 Indiana JDAI counties have experienced:

- A reduction in admissions to secure detention of 50 percent

- A reduction in average daily populations in secure detention of 36 percent
- A decline in juvenile felony petitions filed of 45 percent
- A reduction in commitments to the Indiana Department of Correction of 37 percent

During 2016, the Indiana Juvenile Detention Alternatives Initiative (JDAI) added 12 counties. The onboarding activities for each of the expansion counties included:

- JDAI 101, a data analytics assessment, a detention utilization study, a system assessment, and a kick-off meeting.
- JDAI also provided ongoing support to the existing 19 counties.
- Other activities included the development of Teaching the Teen Brain curriculum and training for school personnel, presentation at the Annie E. Casey Foundation's State Scale Convening and hosting of the second Indiana JDAI State Inter-Site Conference attended by more than 300 local, State and national stakeholders.

Professional Certifications

228 court-appointed probation officer certificates and 33 court substance abuse management specialist (CSAMS) certificates were issued in 2016.

Program Certifications

Justice Services conducted certification reviews of 15 adult drug courts, 5 veteran's courts, 3 reentry courts, and 1 mental health court. IOCS conducted certification reviews of 14 court administered alcohol and drug programs.

Interstate Compact for Adult and Juvenile Offenders

- Staff attended meetings of the Indiana State Council and presented at the Probation Orientation in April and October 2016

- Juvenile Audit conducted regarding JIDS Users
- Staff attended Annual Business Meeting for Interstate Compact for Juveniles (ICJ) and Interstate Commission for Adult Offender Supervision (ICAOS)
- Staff attended the Midwest Region meetings via Web Ex for both ICAOS and ICJ
- The Justice Services Division administers the interstate compact for the transfer of offenders in and out of Indiana and serves as the intermediary for the return of juvenile runaways. From July 1, 2016 to June 30, 2017, Justice Services supervised or processed more than 5,750 adult cases; over 1,000 juvenile cases; and 80 juveniles as runaways/absconders/escapees.

Grants and Scholarships

IOCS awarded the following in Justice Services related grants and scholarships:

- Pretrial Pilot Project Grant: \$455,000
- Problem-Solving Court Grants: \$313,000
- Veterans Court Grants: \$572,234
- A&D Program Grants: \$11,592
- A&D Program Training Scholarships: \$4,986
- Probation Scholarships: \$48,296

Justice Services is also responsible for:

- Indiana Probation Standards, Training, and Technical Assistance,
- Indiana Supreme Court Pretrial Pilot Project, and
- Indiana Evidence Based Decision Making Initiative

Legal Support and Statistics

Legal Support & Statistics provides legal research to judicial officers, circuit clerks, court and clerk staff, probation officers, plus a Supreme Court Technology and other court agencies.

In addition, this division:

- publishes many benchbooks/guides,
- provides staff support for many Judicial Conference Committees,
- provides concise weekly reports of decisions from the Indiana Supreme Court, Indiana Court of Appeals, 7th Circuit, and the Supreme Court of the United States to judicial officers,
- monitors the Indiana General Assembly and provides weekly updates to judicial officers during the legislative session,
- reviews county and district caseload allocation plans, and
- processes requests for bulk or compiled court records.

Data Collection and Statistical Reports Publication

IOCS is required by Indiana Code 33-24-6-3 and Indiana Administrative Rules 1 and 2 to collect caseload and fiscal data from all Indiana courts and probation departments. Once the information is compiled, IOCS publishes this information on the Indiana Supreme Courts Website at courts.in.gov. This information is used by the Indiana Supreme Court and the Indiana General Assembly for policy-making decisions. Local courts also use this information as a resource for management and budgeting choices. IOCS also maintains a website that allows the public and media to see current and historical case filings, court revenue, and court expenditures at the state level, county level, and even for individual courts. The website also has the ability to display and print information in a graphic format. This site is available at public.courts.in.gov/icor.

Courts and probation departments submit their data electronically through the Indiana Court

Information Technology Extranet (INCite) using the Indiana Courts Online Reporting application (ICOR). Before ICOR, courts submitted paper reports which Division staff keyed into a database to be analyzed and compiled into the *Indiana Judicial Service Report*.

Weighted Caseload Measures

Indiana's trial courts use a weighted caseload (WCL) measurement system as a uniform, statewide method for comparing trial court caseloads. Based on time studies and actual case file reviews, the WCL system ascribes relative "weights", measured in minutes, to each new case filed in Indiana's trial courts of record. The Indiana Supreme Court has defined, in Indiana Administrative Rule 8, 42 different case types that are used to designate new filings. Without a WCL system, each of these case types, whether a murder or infraction, would receive a weight or count of "one."

Periodically, Indiana performs a weighted caseload study to determine if the weight assigned to each case type is still an accurate representation of the amount of judicial time spent (in and out of the court room). In 2016 the Judicial Administration Committee published the results of the most recent study, called the Indiana Caseload Assessment Plan to Utilize Resources Efficiently (the CAPTURE report). CAPTURE, conducted by the National Center for State Courts (NCSC), reviewed all case types and was the first review that included a thirty-day time study in which all trial court judicial officers (judges, magistrates, commissioners, and referees) in all 92 counties participated.

The following chart contains the weighting factors (minutes) by case category from each of the study years:

* A case type name and abbreviation was not given to problem solving court referrals. The number of problem solving court referrals is provided by each court in Part V, Line 7, of the Quarterly Case Status Report (QCSR).

** Indiana's Level System was created under HEA 1006 and didn't go into effect until 7/1/14.***Case type was created and minutes were determined as part of the 2016 CAPTURE study.

A WCL system provides a basis for relative comparison between the different case types and allows courts and court policy makers to determine the resources necessary to handle the courts' caseloads. Indiana Administrative Rule 1 requires courts of record to develop and implement caseload allocation plans to ensure an even distribution of judicial workload among the courts in the county.

The WCL system is used to evaluate new filings only. It allows courts to forecast the judicial resources that would be necessary to process the cases being filed in a particular court or county. It does not necessarily indicate how hard a particular court is working but indicates the size of the judicial "inventory" of cases that a court must resolve. Each April, IOCS publishes a Weighted Caseload Report for the previous calendar year on the Indiana Courts website.

Because the WCL system is based on statewide averages, it is important to keep in mind that it encompasses cases that are dismissed before any

action is ever taken by a court, cases that are settled, cases that are reopened many times, and cases that may take weeks to try. It is also important to remember that averages cannot reflect specific local differences that may affect a particular county or court.

Weighted Caseload Summary

This chart reveals the importance of the weighted caseload measures, which reflect the judicial resources consumed by each category. Despite the 305,624 Infractions, 25,253 Ordinance Violations, and 152,629 Small Claims cases filed, they consume relatively little judicial resources. In contrast, the smaller number of 201,019 civil and 248,237 criminal cases consume roughly 70 percent of total judicial resources in courts of record. The criminal case type category represents 24.1 percent of all court of record case filings and consumes 38.9 percent of judicial resources.

To assist policy makers in accurately assessing need for additional judicial officers, IOCS prepares a

Allocation of Judicial Resources

report on the relative severity of judicial resources needed. The WCL system provides a tool for assessing the need for additional judges based on the number of cases being filed in each county. The “relative severity of need” concept provides a relative comparison of the need for new judges in each county. The chart below shows a comparison on the “Need” (how many judicial officers are needed) and the “Have” (how many judicial officers exist) for the

state of Indiana for a four-year period. In 2016, the trial courts had a “Need” of 502 judicial officers but had only 459 judicial officers to serve that need. The utilization figures reflect the relationship between the number of available judicial officers and the number needed to handle the new cases. A state utilization of 1.09 means that, on average, each judicial officer is handling new caseloads appropriate for 1.09 judges.

2016 Weighted Caseload Measures Notes

1. The court is a certified problem-solving court. As a result of the 2009 Weighted Caseload Study update, certified problems solving courts are credited weighted caseload minutes for each individual who initially enters the program as reported on Part V of the QCSR.
2. Indicates a case was filed in 2016 where the Death Penalty or Life without Parole was requested.
3. Vigo Circuit and Superior 3 are combined courts.
4. James Humphrey is the judge of both Dearborn and Ohio Circuit Courts.

2016 Temporary Adjusted Weighted Caseload Measures

Indiana's weighted caseload measures system is intended to apply only to new case filings. Until the Temporary Adjusted Weighted Caseload Report was created, all reports reflected trial court utilization statistics based solely on the number of new cases filed in each court. Each year, the baseline utilization figures shift somewhat during the year due to the transfer of cases among the courts (because of change of venue from the county or the judge and judicial recusals), senior judge service, and other shifts of judicial time and cases.

For 2016, we have calculated the temporary, adjusted weighted caseload utilization figures. The temporary adjusted statistics have been calculated by:

- Adding to the court's total minutes the cases in which the reporting judge assumed jurisdiction as a special judge in other courts
- Adding to the court's total minutes the venued in and transferred in cases

- Adding to the reporting court's total minutes the time that senior judges serve in the reporting court
- Subtracting from the court's total minutes the number of cases in which another judge assumed jurisdiction as a special judge in the reporting court
- Subtracting from the court's total minutes the venued out and transferred out cases

The information in the "Temporary Adjusted Weighted Caseload Report" does not change the fundamental filing patterns in the trial courts. It reflects some of the ways that courts shift caseloads and resources, sometimes in order to deal with uneven caseloads. Because these shifts are temporary, they should only be used as an additional reference and not as the baseline for weighted caseload statistics. The temporary data is reported so that courts could see how the shifting of caseloads and judicial officer resources actually played out in 2016.

Caseload Allocation Plans

IOCS, per Administrative Rule 1, reviews caseload allocation plans every year for certain Indiana counties based on a schedule set forth by the rule. These plans detail which types of cases are heard by a given court. The review, based on the statistical data collected, ensures that the courts of record in the scheduled counties have an even distribution of judicial workload. Counties normally must submit new plans or resubmit

existing plans, if no changes are required, every two years however, due to new weighted caseload factors from the weighted caseload study performed in 2016, the Indiana Supreme Court permitted all counties to defer review of caseload allocation plans until 2017 when all counties will submit new plans.

Review of Disciplinary Grievances

IOCS's legal staff conducts preliminary investigations when disciplinary grievances are filed against members, or staff, of the Indiana Supreme Court Disciplinary Commission. In 2016, there were four requests for investigation referred to our office, two against individuals on staff and two against a Commission member. The IOCS staff attorney assigned to review and investigate these complaints found that two requests did not raise a substantial question of misconduct and recommended dismissal; one request was withdrawn by the complainant, and one request warranted further investigation.

Commercial Court Pilot Project

On January 20, 2016, the Indiana Supreme Court issued an order establishing the Indiana Commercial Court Pilot Project. Launched on June 1, 2016, commercial courts are designed to promote efficient resolution of business disputes by reducing litigation costs and promoting earlier and more frequent settlement of cases. This pilot developed interim Commercial Court Rules and specialized trial court dockets to handle complex business litigation when agreed by the parties. The six specially trained judges that are part of the pilot are:

- Judge Craig Bobay, Allen Superior Court – Civil Division
- Judge Stephen Bowers, Elkhart Superior Court 2
- Judge Richard D'Amour, Vanderburgh Superior Court
- Judge Maria Granger, Floyd Superior Court 3
- Judge John Sedia, Lake Superior Court
- Judge Heather Welch, Marion Superior Court, Civil Division 1

Three attorneys have been hired as clerks to aid these judges. From the launch of the program on June 1 until the end of 2016, sixty-one cases were docketed in the Commercial Court Pilot Program.

The pilot judges, along with a working group of attorneys, professors, and Indiana business, have worked and will continue to work tirelessly to create a pilot project that will fulfill the purposes of commercial courts and serve the litigants, businesses, and citizens of Indiana.

Court Reporter Services

Indiana trial court reporters are responsible for keeping the record of proceedings and preparing a transcript when requested. They typically have other court-related responsibilities in addition to court reporting duties. Reporters are county employees but most also derive additional revenue from the preparation of transcripts. Because county local court rules dictate the amount allowed to be charged, transcript preparation rates fluctuate from a low of \$2.50 to a high of \$7.50 per page.

There were 564 court reporters who filed a report of additional revenue earned from transcription services. The total income reported for 2016 was \$1,966,052, for an average transcript income of \$3,486 per reporter.

Court Reporter Transcript Fees

Court Reporters prepare transcripts under three categories:

State indigent transcript – a transcript that is paid for from state funds and is for the use on behalf of a litigant who has been declared indigent by a court;

County indigent transcript – a transcript that is paid for from county funds and is for the use on behalf of a litigant who has been declared indigent by a court;

Private Transcript – a transcript, including but not limited to a deposition transcript, which is paid for by a private party.

Note: Difference between court reporter totals above and court reporter totals in the Court Personnel section of Volume III are a result of court reporters leaving before the end of the year and not reporting their transcripts or court staff with the title of court reporter but acting in another capacity in the court.

Programming and Projects

The Programming & Projects Division works to ensure equal access to justice through numerous initiatives focusing on families, children, victims of domestic violence, and others.

Guardian Ad Litem/ Court Appointed Special Advocate (GAL/CASA) Program

By statute, a GAL/CASA must be appointed to serve as the best interest advocate for each child in child abuse and neglect and termination of parental right cases. Local GAL/CASA programs recruit, screen, train, and supervise volunteers to serve as the voice of the child in court. Volunteers have extensive, one-on-one contact with children they advocate for and provide important information to courts about the children's safety, health and well-being, enabling courts to make better decisions for Indiana's children and families.

The State Office of GAL/CASA was statutorily created to provide Matching Grants to local volunteer-based programs. To receive the grants, the local programs must be certified and must match the state provided grant with county tax dollars. The State Office also provides training and technical support to local program directors and staff, volunteers, and attorneys. In 2016, the State Office facilitated many education trainings and meetings. Also, an annual staff and directors meeting for 170 people was held in October in conjunction with the 20th Annual GAL/CASA conference that was attended by over 700 volunteers and staff.

Year	Total cases reported
2016	20,063
2015	17,491
2014	14,227
2013	12,114
2012	11,325
2011	10,665

The State Office and a large group of GAL/CASA programs and volunteers also held a CASA Day celebration at the Statehouse that was attended by over 350 child advocates.

The State Office distributed \$2.9 million in matching grants to 79 counties and \$1.5 million in capacity building grants to 68 counties with certified GAL/CASA programs. Important 2016 data regarding the GAL/CASA programs:

- There were 4,034 active volunteers in Indiana, including 1,225 new volunteers.
- GAL/CASA volunteers advocated for 29,762 new and ongoing cases involved in abuse and neglect and termination of parental rights cases, a 43 percent increase in the number of children served since 2014.
- There was a 24 percent increase in CHINS cases across the state, which resulted in a 19 percent increase in the number of children waiting for an advocate.
- Volunteers contributed 348,213 hours of their time to advocate for abused and neglected children, and made 295,888 contacts with these children.
- Volunteers donated an estimated \$31.3 million dollars in services by giving of their time and themselves to advocate for our most vulnerable children.

The following information reflects appointments of volunteer GAL/CASAs and also attorney and/or other appointments.

Family Court Project

The Family Court Project began in 1999 with cooperation from the Indiana General Assembly. Since then, the Indiana Supreme Court has distributed over \$3.5 million to support family court projects across the state. The grants are considered “seed money” and pilot counties are expected to transition within a reasonable time from “seed” funding to local funding.

The year 2016 saw the continuation of successful programs as well as the expansion of services into areas with previously unmet needs. Vanderburgh County’s Family Law Clinic continued to provide its assistance to low-income Hoosiers in Pike, Daviess, Vigo, and Warrick counties. Delaware County began a partnership with Indiana University Bloomington to research online parenting programs to determine their effectiveness for families newly encountering the court system. The District 10 Pro Bono Project continues to provide its “Counsel in the Court” services to unrepresented and low-income family court litigants in Greene, Lawrence, Monroe, and Owen Counties.

The Family Court Project has an immediate and direct impact on the public sector through the provision of grant monies to courts around the state who provide meaningful services for litigants involved in family court cases. Each year grant monies are provided to:

- support document preparation services to unrepresented and low-income families,
- provided co-parenting education and counseling, and research into court-ordered programming,
- kick-start newly approved Alternative Dispute Resolution (“ADR”) Fund programs. These

services are provided directly to parents and children involved in family law cases in any of the 20 county courts that operated one of these programs.

- 19 programs in 22 Counties received funding.
- IOCS distributed \$225,278 in grants through the Family Court Project.

Alternative Dispute Resolution (ADR) Plans

In 2003, the Indiana General Assembly passed legislation authorizing counties to begin collecting an additional \$20 filing fee in order to fund local court programs to redirect families in conflict toward alternatives outside of court to resolve their legal conflicts.

During 2016 the ADR Fund Plan Manager gathered important contact information from all of the counties that currently operate domestic relations ADR Fund Plans. This list is now posted on the Indiana Supreme Court’s ADR website for use by families across the state seeking information about how to access ADR Fund Plan services in their own counties.

ADR funds are to be disbursed in a manner that primarily benefits those litigants having the least ability to pay. When a court can refer unrepresented litigants to ADR programs, the parties more often achieve a lasting settlement and avoid a contentious and oftentimes destructive court battle.

- 44 Counties participated in the program.
- One new county began collecting \$20 ADR filing fee.
- Three counties amended their ADR Fund Plans

Court Improvement Program (CIP)

The Court Improvement Program is a federally funded program made possible by grants awarded to the Indiana Supreme Court from the United States Department of Health and Human Services, Administration for Children and Families. The purpose of the CIP is to improve safety, well-being and permanency outcomes for children and families involved in Children in Need of Services (CHINS) and Termination of Parental Rights (TPR) proceedings. Grant Funds are earmarked for basic court improvements, data collection and analysis, and training.

The CIP provided financial assistance and staff support for the Commission on Improving the Status of Children in Indiana and the Dual Status Youth Initiative. A total of \$14,590.38 in Professional Development Scholarships were awarded to six judicial officers exercising juvenile court jurisdiction and \$236,116.50 in grant funds were awarded to support Children in Need of

Services (CHINS) and Termination of Parental Rights (TPR) mediation and facilitation programs, family dependency drug courts, national adoption day activities, multidisciplinary training programs, and data collection and analysis.

Applications were evaluated based on the following criteria: demonstration of need, adequate correlation between the cost of the project and the objective(s) to be achieved, probability of project to meet identified goal(s) and objectives, overall description of the intended use of grant funds, demonstration that the applicant has met the local match requirements, overall quality of the application, performance on previous grants received from the Indiana Supreme Court, and quality and feasibility of proposed sustainability plan.

Coalition for Court Access

The Coalition for Court Access (CCA) was created by Indiana Supreme Court order in May 2016 to provide a focused and comprehensive organizational structure for Indiana's civil legal aid programs. The seventeen-member Coalition will coordinate all Indiana Supreme Court related programs designed to provide civil legal aid to those with limited financial resources. The Coalition includes judges, law school representatives, civil legal aid and pro bono providers, and Indiana State Bar Association and Foundation members.

In 2016, the CCA outlined its goals for the organization. These goals include improving the functionality of the civil legal aid delivery system in Indiana recognizing that no one entity or approach can solve these issues alone. The CCA wants to facilitate improved communication among the pro bono, private bar, law school, court and other civil legal aid providers. To achieve this initiative, the CCA:

- is working to bring Indiana Legal Services and the pro bono districts more closely together to have better coordination in providing civil legal services statewide.
- wants to involve law students more effectively in the legal aid system and assist trial court judges with unrepresented litigants.
- wants more mobilizing and continued development of volunteer attorneys.
- wants improvement in technology by developing a portal with an aim to get people to the right place with as few steps as possible.

The CCA will also oversee an updated legal needs study and work with the civil legal aid community and the Indiana Supreme Court to collect relevant data to understand the effectiveness and economic impact of civil legal aid as a benefit to the state.

Domestic Violence Initiative

The Division's Family Violence Resource Attorney functions as a single point of contact for all of the state's courts on matters related to family violence, including civil protection orders, and criminal domestic violence case processing. The Resource Attorney connects judges with technical assistance, information on best practices, and training.

During the fiscal year, the Resource Attorney provided training to more than 750 judicial officers, attorneys, GAL/CASA volunteers, victim advocates, law enforcement officers, and other professionals on laws related to family violence. In addition, the Resource Attorney published articles in the Indiana Court Times on topics including pet abuse, adverse childhood experiences, and trauma and the courts.

Adult Guardianship

The Adult Guardianship Office (AGO) offers information and resources to courts and the public on all issues relating to adult guardianship. AGO also administers matching grant funding to volunteer-based programs serving seniors and incapacitated adults in need of guardianship services.

In 2016, AGO:

- Provided more than \$800,000 in matching grant funding to fourteen volunteer-based guardianship programs, serving 28 counties and more than 450 incapacitated adults.
- Helped expand the online guardianship registry to 48 counties, tracking over 7,250 cases and more than \$37 million in aggregate guardianship assets.

Hosted the second Adult Guardianship Symposium in Indianapolis for more than 125 people, including judges, attorneys, volunteers,

advocates, and other professionals interested in adult guardianship issues.

Mortgage Foreclosure Trial Court Assistance Project (MFTCAP)

The MFTCAP helps train and manage court facilitators who assist judges throughout the state with their mortgage foreclosure caseloads. These facilitators help schedule and conduct court-ordered foreclosure settlement conferences between the borrower and lender. The MFTCAP also provides legal assistance and advice to judges, attorneys, and facilitators who have questions about the settlement conference law or court procedures.

Although the number of statewide mortgage foreclosure filings during 2016 marked a nearly 70 percent drop from the height of the mortgage crisis in 2010, many foreclosed borrowers continued to request facilitated settlement conferences and, in many cases, achieved a resolution in lieu of foreclosure.

Mortgage foreclosure filings affect not only the homeowner and his or her family, but the entire community. Foreclosed or vacant properties cause neighboring property values to drop, resulting in reduced property tax assessments and revenue. The Center for Responsible Lending shows drops in property value by around 1 to 2 percent for each foreclosed home located within 0.1 mile of the property. By facilitating settlements in lieu of foreclosure when available, the MFTCAP has significantly reduced the costs of foreclosure borne by many Hoosiers.

- More than 1,800 borrowers in 26 counties were contacted by court-appointed facilitators
- 1,220 of these borrowers requested a settlement conference

- These conferences ended with approximately 500 workouts in lieu of foreclosure and 440 foreclosures (280 cases are still being followed up)
- The MFTCAP has an annual operating budget of around \$400,000 -- meaning that these 500 averted foreclosures were achieved at a cost of only around \$800 per case (paid through filing fees on foreclosure cases).

Indiana Conference for Legal Education Opportunity

The Indiana Conference for Legal Education Opportunity (ICLEO) seeks to address diversity in the Indiana legal profession by assisting minority, low-income, and disadvantaged students pursuing a law degree at an Indiana law school. The ICLEO program was established in 1997 at the urging of former Chief Justice Randall T. Shepard to the Indiana General Assembly. The ICLEO program assists and cultivates the future leaders of the Indiana legal profession. Prior to law school, those selected complete a residential summer program which exposes students to a rigorous curriculum and provides opportunities for professional development.

The 20th ICLEO Summer Institute took place at Indiana University Maurer School of Law from June 19, 2016 to July 30, 2016. In addition to the rigorous curriculum, participants met with Chief Justice Loretta Rush, the Mandela Fellows, and various other local professionals.

Equal access to legal education impacts the public sector as it ensures the future diversity of talent available to the Indiana bench and bar. Unequal access to educational resources can often create gaps for students interested in obtaining a law degree. The ICLEO program helps fill in the gaps, thereby allowing students to excel in their legal career.

- Over 520 students have participated in the Summer Institute since 1997.
- 21 Students participated in the 2016 Summer Institute and began their first year of law school.
- 18 ICLEO participants graduated from Indiana law schools in 2016

Court Interpreter Certification Program

The Indiana Supreme Court Interpreter Certification Program was established in 2002 in response to the growing need for interpretation services for Limited English Proficient (LEP) individuals within the court system. Since that time, the program has been tasked with improving and growing the number of court interpreters used in courts throughout Indiana. Currently, Indiana has over 100 certified interpreters in Spanish, Mandarin, French, Arabic, and Polish. The Indiana Supreme Court also has provided every court in Indiana with a telephone interpretation service called Language Line that can interpret in over 140 different languages. The Indiana General Assembly has appropriated funds to assist courts in engaging qualified interpreters.

In 2016, the Indiana Supreme Court used those funds to distribute \$300,000 in grant awards to 30 counties across Indiana. Factors in determining grant awards included the number of interpreter hours reported by each county applicant in the previous calendar year, the number of cases where an interpreter was used, and a description of specific efforts demonstrating a commitment to the long-term goal of using only certified or qualified interpreters in all court proceedings.

In 2004, the Indiana Office of Court Services (IOCS) began tracking and reporting the use of court interpreter services that were provided by the county, at county or partial county expense. While court interpreter services may be provided in every case type before the Indiana courts, IOCS tracked case types in the criminal, civil violations and juvenile categories.

Starting in 2013, IOCS asked the trial courts to report whether a governmental entity such as the court or public defender office or a non-governmental entity such as the defendant or a private attorney provided the interpreter service.

Cases in Which Pauper Counsel Was Appointed

According to the United States and the Indiana Constitution plus federal and Indiana case law, a public defender must be made available to the following indigent persons at both the trial and appellate level

- A defendant in a criminal case;
- A child charged with a delinquent act;
- A parent in a termination of parental rights case;

- A parent in a juvenile CHINS case;
- A person on which involuntary commitment proceedings have commenced; and
- Any person facing contempt proceedings where incarceration is a possibility.

If the court determines the defendant to be indigent, the court must appoint a Public Defender. The IOCS tracks and reports the number of cases counsel was appointed and paid for by county/state funds.

Fiscal Report of Indiana Trial Courts (Overview)

IOCS is directed by Indiana Code 33-24-6-3(a)(2) to collect and compile statistical data on the receipt and expenditure of public monies for the operation of the courts. Each court, whether single or unified, must file with IOCS its Report on Court Revenue (Revenue Report) and its Report on Budget & Expenditures (Budget & Expenditure Report). IOCS also requests a Budget & Expenditure report from each Probation Department, Juvenile Detention Center and Public Defender Program that maintains a budget separate from a court.

The information in this volume presents a general financial overview of the reported expenditures of Indiana's courts and revenues generated through their operation. Volume III contains a more comprehensive county-by-county review of the revenues and expenditures generated by each of the state courts. Requested and approved trial court budgets are reported to IOCS, but they are not published.

Expenditures

Indiana's judicial system is funded by a combination of county tax revenues, user fees and state appropriations. The Indiana Supreme Court, Court of Appeals of Indiana and Indiana Tax Court are funded through appropriations from the State General Fund. The Indiana State Auditor's Report is posted online at www.in.gov/auditor and contains information about the expenditures of these courts and other state-level expenditures on judicial functions. Relevant portions of that report are reflected here in the Judicial Year in Review.

Indiana's trial courts are funded primarily through county funds. However, state funds pay for judges' and magistrates' salaries, senior judges and some special judge expenses. Counties may choose to pay an additional amount to judges' and magistrates' beyond their statutory salaries. Elected prosecutors, chief deputies, and certain deputy prosecutors are also paid with state funds. Counties may also choose to pay a prosecutor an amount beyond their statutory salary. Counties may also receive state funds for reimbursement of approved pauper defense services and for GAL/CASA services for abused and neglected children. Courts also generate user fees, some of which are expended on court services. Expenses for criminal indigent defense services are included as part of the cost of the judicial system, although in many counties the indigent defense is handled through an independent public defender entity governed by a board. These services are also funded primarily through county tax dollars. However, the General Assembly provides 50 percent reimbursement of indigent defense services to all counties for capital cases and for those counties that participate in the public defender system, up to 40 percent reimbursement of qualified cases. The state's Public Defender Commission reimbursement for local indigent defense expenses was more than \$22.25 million during Fiscal Year 2015 -2016.

Municipalities fund city and town courts. In many instances, the local government does not maintain a distinct city or town court budget and all expenses are paid directly from the local general fund. This practice makes it difficult to

provide accurate expenditure information for the city and town courts.

Marion County (Indianapolis) townships directly fund the nine Marion County Small Claims Courts through budget appropriations.

The Budget & Expenditure Report filed by each court categorizes the trial court expenditures as follows: salaried and unsalaried personnel expenses (including fringe benefits and travel), supplies, professional services, and capital outlays. If any of the expenditures were facilitated by mandate, the report reflects information related to the mandate as well.

Special Notes on Expenditures for Probation Services and Juvenile Detention Centers

Probation Services

Because of the vast differences in how counties budget for employee fringe and other benefits generally and for probation services in particular, it is difficult to arrive at a complete figure for the expense of probation services. In some counties, probation office expenditures are part of the court's general budget and, aside from salaries, cannot be identified separately. This is the case in the three largest counties, Marion, Lake and Allen. In other counties, even if all expenditures on probation operations and personal services are budgeted and reported separately, fringe benefits are lumped in the county's general budget and are not reported separately for probation or court staff. A composite of all probation service expenses which are reported by the courts and probation departments is included, but this information does not include fringe benefits and operating expenses for many counties.

Special Note on Expenditures for Criminal Indigent Expenses

Indigent Defense Services

Criminal indigent defense in Indiana is paid through a mixture of county funds and partial state reimbursements. The majority of counties (57 of 92) follow standards established by the Indiana Public Defender Commission for caseload limits and creation of independent public defender boards. They do so in order to qualify for 40 percent state reimbursement for qualified non-capital defense expenses. State funds reimburse 50 percent of all indigent expenses incurred by any county in defending capital (death penalty) cases. The counties provide indigent defense services for the

remainder of criminal cases through a variety of structures.

Counties may budget for indigent defense services through a court budget, through an independent public defense agency/office or a combination of the two. All trial courts report indigent defense expenditures directly to the IOCS. The Public Defender Commission shares the expenditure information it receives from the counties participating in the reimbursement program to the IOCS. Some independent public defense agencies voluntarily submit expenditure reports to the IOCS. The IOCS combines the information from all of these sources to prepare the following chart.

Revenue References

Trial courts generate revenue primarily from filing fees, court costs, fines and user fees assessed to litigants. Depending on the case type, the court and the nature of the offense, many different fees may be collected from litigants in Indiana's courts. Only those fees authorized by statute or Indiana Supreme Court rule can be collected by the courts.

Revenues generated through the operation of the trial courts are collected, accounted for and disbursed by the Clerk of the Circuit Court, an independently elected office for each Judicial Circuit. The Clerk of the Circuit Court also functions as the Clerk of the county and, as such, performs many other functions unrelated to court operations, including issuing marriage licenses, coordinating the election board, and conducting elections.

Revenues generated through the city, town, and nine township courts in Marion County are collected by the local clerk or clerk-treasurer. The only direct payment fee is the personal service of process fee charged to small claims litigants in the Marion County Small Claims (township) Courts. This fee is paid to the township constable and his or her deputies.

Revenues collected by a court are disbursed to state, county or local general funds, user fee funds or special funds used for specific programs or initiatives. Marion County Small Claims (township) Courts have fees unique only to their nine courts.

General Revenue Fund

A general fund consists of all moneys paid into the state, county or local treasury that is not required to be used for a specific purpose by a constitution, law or local ordinance. The following fees fall into this category:

- Court Administration Fee
- Court Costs (except Marion County Small Claims (Township) Courts)
- Deferred Prosecution Fee (assessed in pretrial diversion programs for level 6 felonies and misdemeanors)
- Infraction Judgment Collections
- Judicial Salaries Fee
- Public Defense Administration Fee
- Support and Maintenance Fee
- Bond Administration Fee
- Civil Action Service Fee
- Civil Garnishee Defendant Service Fee
- Civil Penalties for Local Ordinance Violations
- Document Fee
- Late Payment Fee
- Small Claims Garnishee Defendant Service Fee
- Small Claims Service Fee

State User Fund

Statutes require revenue generated from these fees be distributed to the State User Fee Fund:

- Automated Record Keeping Fee
- Child Abuse Prevention Fee
- Domestic Violence Prevention and Treatment Fee
- Highway Work Zone Fee
- Safe Schools Fee

The State Treasurer administers the State User Fee Fund. Semiannually, the State Treasurer distributes a set amount (currently \$1,288,000) from this fund to the State Auditor to be further distributed in specific percentages set by state statute to other state funds dedicated for specific purposes as follows:

- 14.98 percent to the Alcohol and Drug Countermeasures Fund
- 8.42 percent to the Drug Interdiction Fund
- 4.68 percent to the Drug Prosecution Fund
- 5.62 percent to the Corrections Drug Abuse Fund
- 22.47 percent to the State Drug Free Communities Fund
- 7.98 percent to the Indiana Department of Transportation for use under Indiana Code 8-23-2-15
- 20.32 percent to the Family Violence and Victim Assistance Fund
- 15.53 percent to the Indiana Safe Schools Fund

After each semiannual distribution, the State Treasurer distributes the funds remaining in the State User Fee Fund to the Judicial Technology and Automation Project Fund established by Indiana Code 33-24-6-12.

County and City/Town User Funds

Each county has a County User Fee Fund, administered by the county auditor, to finance various programs such as a pretrial diversion or deferral program, informal adjustment programs for juveniles, marijuana eradication programs, alcohol and drug services programs, continuing education for law enforcement, payment for jurors, and for problem solving courts.

Every city or town that has established a city or town court is authorized by state statute to have a

user fund for the purposes of supplementing the funds available to operate a pretrial diversion or deferral program, to provide for the continuing education of law enforcement officers, for local problem-solving courts, and for a local alcohol and drug services program. The following fees fall into the County and City/Town User Funds:

- Alcohol and Drug Services Program Fee
- Deferral Program Fee (assessed in deferral programs for infractions and ordinance violations)
- Informal Adjustment Program Fee
- Jury Fee
- Law Enforcement Continuing Education Program Fee
- Marijuana Eradication Program Fee
- Pretrial Diversion Program Fee (assessed in pretrial diversion programs for misdemeanors)
- Problem Solving Court Fee

Revenues Unique to Marion County Small Claims Courts

These township courts also assess many of the other fees assessed in small claims case fees heard by county trial courts. The following costs/fees are only assessed by the nine Marion County Small Claims (township) Courts.

- Court Costs
- Redocketing Fee
- Service of Process Fee

2015 legislation requires the Marion Circuit Judge to designate two of the nine Marion County Small Claims Courts as low caseload courts. Beginning July 1, 2015, all Marion County Small Claims courts that are not low caseload courts must begin sending \$1.50 of the township docket fee to the township trustee of each low caseload court at the end of each month.

An alphabetical listing of the most common court costs and fees including statutory citations can be found in Volume III of the *Indiana Judicial Service Report* and in the Trial Court Fee Manual available at the Indiana Courts Website at courts.in.gov.

Summary of Caseload Reports

Indiana Code 33-24-6-3(2) requires IOCS to collect and compile statistical data on the judicial work of the courts. Each quarter, Indiana's trial courts report their caseloads by electronically filing a Quarterly Case Status Report (QCSR) using the Indiana Courts Online Reports (ICOR) system, through INCite, the judicial system's secure extranet for court information. The QCSR reports contain summary information, by case type, on the number of cases filed and pending, the movement of cases between courts via transfer or venue and the method by which cases were disposed during a reporting period.

In addition to the cases administered by a specific court, the QCSR tracks the amount of judicial resources available to a court and the time a judge spends hearing cases in another court. The QCSR also captures other case-related information used to administer and improve court projects and initiatives. For example, data is collected tracking the number of cases:

- referred to alternative dispute resolution
- requiring the appointment of pauper counsel
- requiring the service of a court interpreter
- requiring the appointment of a guardian *ad litem* or court appointed special advocate (juvenile cases only)

Case information is grouped into four categories: criminal, civil violation, juvenile and civil and is tracked using the case type classification code outlined in Indiana Administrative Rule 8(B)(3). An administrative case type called "court business record" is recorded, but is not counted, in a

court's weighted caseload. Case type designations and categories are as follows:

Criminal Case Types

If a defendant is charged with multiple offenses, the case is counted only one time under the most serious charge. Although the prosecutor may amend the charges after filing, for administrative purposes a case continues with its initial case designation in the statistical reports. Each defendant is assigned his or her own case number.

Beginning July 1, 2014, criminal felony filings, except for Murder, are categorized and reported on the quarterly case status report on ICOR either as Class A felony (FA), Class B felony (FB), Class C felony (FC), Class D felony (FD) or as Felony Level 1 (F1), Felony Level 2 (F2), Felony Level 3 (F3), Felony Level 4 (F4), Felony Level 5 (F5) and Felony Level 6 (F6) depending on when the alleged crime occurred. Felonies occurring prior to July 1, 2014 are reported as a Class A felony (FA), Class B felony (FB), Class C felony (FC), or Class D felony (FD). Felonies occurring on or after July 1, 2014 are reported as a Felony Level 1 (F1), Felony Level 2 (F2), Felony Level 3 (F3), Felony Level 4 (F4), Felony Level 5 (F5) or Felony Level 6 (F6).

- **MR - Murder:** All murder cases are filed under this category. If the State seeks either the death penalty or life without parole, that information is also collected and reported in the QCSR under the additional information section.
- **CF - Criminal Felony:** This category includes all cases filed prior to January 1, 2002, as Murder or Class A, B, and C felonies. Although new filings are not permitted for this category, existing cases with a CF designation are still reported and disposed of in this category. Administrative Rule 8 was amended by Supreme Court Order 94S00-0101-MS-67 and became effective January 1, 2002.

Felonies committed between January 1, 2002 and June 30, 2014

- **FA - Class A Felony:** Cases in which the defendant is charged with a crime defined as a Class A felony are filed under the FA category. Examples include kidnapping, voluntary manslaughter with a deadly weapon and arson involving bodily injury.
- **FB - Class B Felony:** Examples include aggravated battery, rape, child molesting, carjacking and armed robbery.
- **FC - Class C Felony:** Examples include involuntary manslaughter, robbery, burglary and reckless homicide.
- **FD - Class D Felony:** All Class D felonies filed on or after January 1, 2002, plus all Class D felonies filed before January 1, 2002 that have the case type DF are filed under the FD category. Examples of crimes in this category include theft, receiving stolen property, computer tampering and fraud.

Felonies committed on or after July 1, 2014

- **F1 – Level 1 Felony:** Examples include dwelling burglary with serious bodily injury.
- **F2 – Level 2 Felony:** Examples include voluntary manslaughter and armed dwelling burglary.
- **F3 – Level 3 Felony:** Examples include aggravated battery and child molesting.
- **F4 – Level 4 Felony:** Examples include dwelling burglary and dealing in cocaine (1 – 5 grams).
- **F5 – Level 5 Felony:** Examples include kidnapping, involuntary manslaughter and reckless homicide.
- **F6 – Level 6 Felony:** Examples include theft and battery with moderate bodily injury.

Misdemeanors and other Criminal Case Types

- **CM - Criminal Misdemeanor:** This category includes all criminal cases filed as misdemeanors. Examples of crimes in this category are criminal trespass, check deception, harassment and battery.
- **PC - Post-Conviction Petition:** This category includes all petitions for post-conviction relief filed under the Post-Conviction Rules. Although this case type is a civil case, it is listed after the criminal case types on the QCSR and in this report.
- **MC - Miscellaneous Criminal:** This category includes all criminal matters which are not easily classified as felony or misdemeanor and are not part of an ongoing proceeding. An example of a case falling into this category is a probable cause hearing for a criminal charge not yet filed. A search warrant issued before charges are filed, is assigned an MC case and results in a bench disposition. If charges are filed, then a case in the appropriate category is opened.

Civil Violations

Infractions and Ordinance Violations are civil violation case types. They are listed after the criminal case types on the QCSR and in this report.

- **IF - Infractions:** Infractions are typically traffic-related offenses brought in the name of the State and prosecuted by the prosecuting attorney. Similar to criminal cases and ordinance violations, multiple offenses (i.e., multiple tickets or citations issued to the same individual or arising from the same circumstances) result in only one case filing.
- **OV/OE - Ordinance Violations:** Local ordinance violations are enforced through court proceedings or a municipal corporation's ordinance violations bureau. Ordinance violation cases are brought in the name of the municipal corporation and prosecuted by the municipal attorney. All moving traffic violations are enforced through a court proceeding. If a local ordinance violation is heard in court, an OV case type is assigned. Local ordinance

violations enforced by municipal ordinance violations bureaus are not court cases and, therefore, are not assigned a case type/case number. The OE case type is not currently used.

Juvenile Case Types

Each child considered by the court system receives a separate case number, regardless of familial relationship to another child. Cases of related children and other related cases can be linked and tried together.

- **JC - Juvenile CHINS:** This category reflects those cases where a child is alleged to be a child in need of services as defined by Indiana Code 31-34-1-1 *et. seq.* Examples include a child who is not receiving or is unlikely to receive care, treatment or rehabilitation without court intervention.
- **JD - Juvenile Delinquency:** Cases in which a child is charged with a delinquent offense are filed in this category. Indiana Code 31-37-1-2 defines a delinquent act as one committed by a child before becoming eighteen (18) years of age and is a criminal offense if committed by an adult. The case is recorded as a new filing when a petition for detention hearing or a petition alleging delinquency is filed.
- **JS - Juvenile Status:** Cases in which a child is charged with committing an offense which is not a crime if committed by an adult are filed in this category. Examples include curfew violations, school truancy and underage alcohol purchase or consumption.
- **JP - Juvenile Paternity:** This category includes paternity actions filed by any of the parties specified by statute, including the prosecutor. Indiana Code 31-14-4-1 identifies who may file paternity actions.
- **JM - Juvenile Miscellaneous:** This category applies to juvenile matters which are not specifically listed in the previous juvenile case type categories including court approval of informal adjustments. An informal adjustment is a disposition by a court order approving a signed agreement resolving a potential juvenile delinquency or CHINS case.

- **JT - Termination of Parental Rights:** This category includes all proceedings for termination of parental rights. In termination of parental rights cases involving multiple children, a separate case number is assigned to each child.

Civil Case Types

Civil cases are filed when the plaintiff or petitioner seeks monetary damages or court redress.

- **CP - Civil Plenary:** All Civil Plenary cases filed before January 1, 2002, have the CP case type designation. Although new filings are not permitted for this category, existing cases with a CP designation are still reported and disposed of in this category. Administrative Rule 8 was amended by Supreme Court Order 94S00-0101-MS-67 and became effective January 1, 2002.
- **PL - Civil Plenary:** All Civil Plenary cases filed on or after January 1, 2002, receive the PL designation. Basic civil cases, not otherwise specifically included as separate categories, are filed with this designation. Generally, these cases may be more complex, do not involve a mortgage foreclosure or the collection of an outstanding debt. Frequently cases involving contract disputes and actions seeking equitable or injunctive relief are assigned this case type.
- **MF - Mortgage Foreclosure:** All Mortgage Foreclosure cases filed after January 1, 2002, are reported in this category.
- **CC - Civil Collection:** All Civil Collections filed after January 1, 2002, are reported in this category and may include the following: suits on notes and accounts, general collection suits, landlord/tenant suits for collection, ejectment and tax warrants. If these cases are filed on the small claims docket of a court or the small claims division of a multi-division court, the SC case type is used.
- **CT - Civil Tort:** Cases founded in tort and filed on the regular civil docket of the court are included in this category. Small claims, which also could be founded in tort, are included in a separate category.

- **SC - Small Claims:** This category includes cases filed on the small claims docket of circuit or superior courts, as well as cases filed in the nine Marion County Small Claims Courts. While city and town courts may have cases that fall within the monetary limits of small claims jurisdiction, those cases are not defined as small claims by statute and are counted as PL – Plenary or CC – Civil Collection depending upon the nature of the action. Small claims actions include cases where the amount in dispute is \$6,000 or less, landlord-tenant ejectment actions and landlord-tenant disputes. Beginning July 1, 2015, Marion County Small Claims Courts jurisdictional amount in landlord-tenant possessory actions and possession of property cases increased to \$8,000 in landlord-tenant possessory actions and possession of property cases.
- **DR - Domestic Relations:** Actions involving petitions for dissolution of marriage, legal separation, and petitions to establish child support are filed in this category.
- **RS - Reciprocal Support:** Actions for reciprocal enforcement of child support and petitions for modification of support or custody and/or support under the 2007 Amended Uniform Child Custody Jurisdiction Act are counted in this category.
- **MH - Mental Health:** Proceedings involving mental health commitments, including temporary commitments, an extension of temporary commitment, regular commitment, or termination of a commitment are filed under this category.
- **AD - Adoption:** Petitions for adoption are filed under this category. Additionally, on or after January 1, 2002, petitions seeking release of adoption records are filed in this category.
- **ES – Supervised Estates:** All probate estates are filed under this category unless the court grants a petition requesting unsupervised administration (EU).
- **EU – Unsupervised Estates:** Probate estates for which a petition requesting unsupervised administration is filed along with a petition for probate of the will and letters testamentary or for appointment of an administrator is filed under this category. If the court revokes an order of the unsupervised administration pursuant to Indiana Code 29-1-7.5-2(d), the case is changed to ES.
- **EM – Miscellaneous Estate Matters:** All matters related to estates that do not require payment of a filing fee are filed under this category. Examples include: pleadings related to filing inheritance tax returns, spreading of the will of record (Indiana Code 29-1-7-4), opening bank lock boxes, and objections to probate of will (Indiana Code 29-1-7-16).
- **GU - Guardianship:** Petitions for appointment of guardians are filed under this category. A guardianship case is considered “closed” when the court enters an order appointing and approving the guardianship.
- **TR - Trusts:** This category includes trust matters before the court. This case type includes trusts that have been created through an estate and are separately docketed and reported from the estate or trusts that by their terms require court docketing.
- **PO - Protective Order:** New petitions for protective orders which are not part of an ongoing process (such as marriage dissolution) are filed in this category. However, if the parties subsequently file a petition for dissolution, the cases remain separate for reporting, enforcement and retention purposes.
- **XP – Expungement:** This new case type as of July 1, 2015 includes expungements petitions filed under Indiana Code 35-38-9.
- **MI - Civil Miscellaneous:** Routine civil matters which are not easily categorized in other areas and which are not part of any other pending litigation are reported in this category. Examples are: petitions for name change, appointments of appraisers, petitions for emancipation, a proceeding to reinstate a driver’s license that was administratively suspended, a Habeas Corpus case from DOC and marriage waivers.

Court Business Record

- **CB - Court Business Record:** This category is intended for non-case specific matters, such as the appointment of a judge *pro tem*, drawing the jury, adopting or amending local rules or recording a foreign protective order. This designation provides a way to number and locate records that do not pertain to any

specific case. These matters are not counted as cases and do not affect the court's weighted caseload.

Methods of Disposition

The Quarterly Case Status Reports also include summary dispositional information. A brief description of each method of disposition follows:

- **Jury Trial:** This category reflects cases where trial was commenced with a jury. This type of disposition is limited to cases where the jury is seated and sworn and the court has received evidence and the jury rendered a verdict or the case was resolved in some manner prior to the announcement of a verdict.
- **Bench Trial:** Cases are disposed in this category by the court after a trial without a jury in which a witness has been sworn in to testify and the court entered a judgment or the case was resolved prior to the announcement of a judgment.
- **Bench Disposition:** Cases that are disposed by final judicial determination of an issue, but where no witnesses are sworn and no evidence is introduced, are counted in this category. These dispositions include decisions on motions for summary judgment, hearings on other dispositive motions, and settled cases in which the parties tender an agreed judgment to the court for approval which can then be enforced through proceedings supplemental to execution. Approval of informal adjustments in juvenile matters and issuance of search warrants unrelated to any pending case also generally fall into this category.
- **Dismissed:** This category applies to cases which are dismissed either by the court on its own motion (Indiana Trial Rule 41(E)), upon the motion of a party, or upon an agreed entry as the result of settlement between the parties.
- **Default:** This category is applicable only in civil cases, infractions and ordinance violations where the defendant fails to comply with the trial rules and a judgment of default is entered by the court.
- **Deferred/Diverted:** If a prosecutor and defendant agree to defer prosecution or if the defendant enters a diversion program, the case is disposed in this category. Although the case is not formally dismissed until the completion of the deferral obligations, this category permits the criminal courts to reduce their pending caseloads by the number of cases where the cases will eventually be dismissed. Likewise, even though diversion programs are often part of a guilty plea, they fall into this category as a way for the state to track the number of defendants consenting to the diversion programs.
- **Guilty Plea/Admission:** Cases in which the defendant pleads guilty to an offense or admits to the commission of an infraction or ordinance violation are counted under this category. Infraction and ordinance violation cases are only reflected in this disposition category if the case actually comes before the court for decision. An admission by mail or through a court clerk or violations bureau clerk is counted as being disposed by Traffic Violations Bureau. Also included in this category are dispositions of juvenile cases where the juvenile admits the claims, or the father admits paternity and in protective order cases where a party admits to the claims in the protective order.
- **Traffic Violations Bureau:** This disposition category only applies to infraction and ordinance violations. Indiana Code 34-28-5-7 permits any court to establish a traffic violations bureau and appoint a violations clerk to serve under the direction of the court. The court must designate those traffic violations that are within the authority of the violations clerk. This category is used when the defendant elects to pay the penalty for the violation by mailing or delivering payment to the violations clerk or by making payment online and without going to court.
- **Closed:** Routine closing of an estate or adoption proceeding, as well as the routine termination of a trust or guardianship, are counted in this disposition type. Also included in this category are cases where the defendant has filed bankruptcy or the case is removed to federal court.
- **FTA/FTP:** This category includes ordinance violation cases and infraction cases in which the

defendant fails to appear or fails to pay. Once counted in this category, the case is not recounted even if the defendant later appears, pays, or proceeds to a full trial.

- **Other:** Any case disposition that is not otherwise accounted for in the preceding categories is included here. Example: a case was opened in error.

Movement of Cases

In addition to cases filed and disposed, cases are venued or transferred between courts.

- **Venued In/Out:** Cases filed in a court that are later moved to another county for any reason are listed in this category.

- **Transferred In/Out:** Cases transferred from one court to another within the same county, or from one court docket to another (such as a move from small claims docket to the civil plenary docket), are recorded here. In the event a motion for change of venue from the judge results in a transfer of the case to another court in the same county, the case is also counted in this category.

- For more detailed information regarding case assignment and case disposition, three resources are available. Please refer to the instructions for reporting requirements (QCSR Application Guide), the Case type Quick Reference Guide and the Administrative Manual at courts.in.gov.

Summary of 2016 New Filings by General Case Type

As can be seen in the pie charts, the Infraction case type comprises the highest number of new filings for both Courts of Record, City, Town, and Small Claims courts. The amount of time required to adjudicate these cases is relatively small in comparison to the other case types. Further information about the weighted caseload measures employed in Indiana to determine the relative time differences in case types is contained in another section of this report.
