- 5. Centerstone

Miscellaneous Data

There are currently <u>21 agencies</u> that provide reentry services in correctional facilities. These services include: therapy, skills training, and case management

COVID-19 Responses

The COVID-19 pandemic has presented many barriers to safely and consistently providing mental health and addiction treatment and support to our consumers. On top of supporting telehealth services and extending the deadline for insurance enrollment, Recovery Works created several opportunities to support our partners during this unprecedented time.

Recovery Residences

To offset the extra costs of having to accommodate to the increased presence of residents and their needs, Recovery Works provided a three month stipend to Recovery Residences that could be used to purchase food, toiletries, PPE, or to pay for utilities.

45 Recovery Residences Received <u>\$327,241</u> in funding assistance.

Technology Funding

In order to ensure incarcerated consumers are still receiving mental health treatment, Recovery Works reimbursed <u>9 correctional facilities</u> A total of <u>\$11,881</u> for technology related expenses.

Discretionary Funding

Recovery Works is now allotting \$250 per consumer for discretionary funding. This funding can be utilized for phone cards; birth certificates or driver's license; US Postal Service expenses or any other expense that can be directly related to eliminate barriers to the consumers' treatment. <u>79 Consumers</u> through <u>11 agencies</u>

have utilized this benefit

<u>Including:</u> 5 tablets, 6 iPads, 1 laptop, protective cases, and audio equipment!
