Team with Talking Books to Enhance Your Low Vision Services

Indiana libraries also have a way to bring Talking Books services to their local schools and communities by becoming an [institutional partner](#). Libraries with institutional accounts have free access to a rotating deposit collection of up to 60 large print titles to loan to their patrons, and a BARD account and NLS Digital Player. These tools enable libraries to introduce this free service to students and patrons with visual, physical, or learning disabilities that make it difficult to read standard print, as well as educate them on how to use associated assistive technologies like BARD and the digital player. This is also a great, cost-free way to augment your homebound services, even those in unserved areas, as all materials are shipped for free directly to patrons' homes.

Volunteer

The State Library relies on the help of volunteers throughout the year. If you are interested in volunteering for the Vision Expo, or other State Library programs and events, visit the State Library's [volunteer webpage](#).

Contact Information

Contact the Indiana Talking Book & Braille Library at 1-800-622-4970 or TBBL@library.in.gov for more information about their service or anything mentioned in this article.
