

## **General Population (Public)**

### **Positive for Covid:**

Isolate for 5 days, and if they are fever-free without the use of fever-reducing medications and symptoms are improving, they may leave isolation if they can continue to mask for an additional 5 days.

### **Exposed to Covid:**

#### **Unvaccinated – or not boosted or not up to date on vaccines (if eligible)**

Quarantine for 5 days followed by strict mask use for an additional 5 days.

It is imperative that an exposed person always wear a well-fitting mask when around others for 10 days after exposure

Get tested at day 5

If symptoms occur, immediately isolate until a negative test confirms symptoms are not attributable of Covid-19.

#### **Fully Vaccinated**

Wear a mask for 10 days following exposure. Get tested at day 5.

If symptoms occur, immediately isolate until a negative test confirms symptoms are not attributable to Covid-19.
