Marion, IN 46953

Facility

Shiloh Park Retreat & Conference Center
1734 S 350 E
Marion, IN 46953
License Number :

The Shiloh Park Retreat & Conference Center swimming pool was inspected on 07/22/2026 by Cassie Leech & Josh Keller.

The pool is in reasonable compliance with 410 IAC 6-2.1 and 675 IAC 20; however, the following violations were observed and must be corrected by opening inspection for the 2027 season.

1. The alkalinity of the water was 200ppm. This is out of the acceptable range of least 80 and no more than 120 part per million (mg/l). This is a violation of 410 IAC 6-2.1-30(n).
2. The pool water was not tested for pH/disinfectant residuals daily (before the pool is open for use and at least 1 other time during the hours of pool use). This is a violation of 410 IAC 6-2.1-30(o) (1).
3. The liquid Chlorine tank and associated disinfectant feeder are setting outside and are not secured within a structure. Thus, they are readily accessible to unauthorized persons via various means (including thru or over the fence). This is a violation of 410 IAC 6-2.1-33(c). This must be stored in a secure structure with a lock of some kind. It will need a stable floor and roof. It could be a very small shed, as discussed. This will also need a "Hazardous Chemicals" sign with 4" letters.
4. The fence surrounding the pool is not 6' high. Such a height would have been required at the time the pool was built. This is a violation of 675 IAC 20-2-26(f).
5. There is no 4" deck surrounding the pool. This is a violation of 410 IAC 6-2.1-26(a) and 675 IAC 20-2-13(d). There is actually no deck immediately adjacent to the pool. This could interfere with emergency rescue efforts (either by lifeguards and/or by first responders).
6. The main drains are not actually at the lowest point of the pool; they are on the wall near the bottom. This interferes with their ability to passively clean the pool. This is a violation of 410 IAC 6-2.1-26(a) and 675 IAC 20-2-20.1(c).

After the compliance date, if the %violation% %remains% uncorrected; an enforcement action may be initiated to obtain the correction of these violations.

If you have questions, please contact the Grant County Health Department.
