COVID-19 Cases Update

St. Joseph County- As of today, the county's total number of confirmed cases is at 1,459.

Today Governor Holcomb announced Indiana will move into phase 4 of his re-opening plan on Friday, June 12, 2020. We want to remind our community that the Governor has given the authority to cities and counties throughout Indiana to establish and enforce stricter recommendations and requirements to specifically meet the unique needs of each county. This stated, our current Public Health Order 1-20 (the requirement to wear face coverings in enclosed establishments and public spaces) remains in effect until July 4 and will likely be extended beyond that date. Please watch the St. Joseph County Department of Health's website and social media platforms for the most up-to-date information.

For all COVID-19 testing sites in St. Joseph County, you can view an interactive map at <https://www.coronavirus.in.gov/2524.htm>. Please be aware each site may have different criteria for testing.

The St. Joseph County Department of Health urges the continuation of the following actions:

- **Practice extreme physical distancing.**
 - Maintain at least 6ft between individuals.
 - Wearing a mask does NOT eliminate the need for physical distancing.
- **Practice frequent and proper hand hygiene & cough etiquette.**
 - Wash hands often, for at least 20 seconds, with soap & water; coughing and sneezing into your sleeve.
- **Stay home if ill.**
- **Abide by the current Public Health Order, requiring face coverings when going into an enclosed public space or business and when 6 feet of physical distance cannot be maintained within the enclosed public space or business.**

For more information on COVID-19, visit the Indiana State Department of Health at www.in.gov/isdh and the Centers for Disease Control and Prevention at www.cdc.gov. For general questions as it relates to COVID-19 infection, please call 2-1-1.
