COVID-19 Cases Update

St. Joseph County- As of today, the county's total number of confirmed cases is at 1,475.

We commend those establishments that have worked diligently to comply with Public Health Order 1-2020, to keep employees and patrons safe. As we move into the next phase, with increased capacity and more venues opening, continued attention to effective mitigation strategies (hand hygiene, physical distancing, facial coverings, and sanitation measures) becomes even more important in slowing the spread of COVID-19 infection. For information and downloadable graphics for establishments, please visit the St. Joseph County Department of Health's website at www.sjcindiana.com/health.

For all COVID-19 testing sites in St. Joseph County, you can view an interactive map at <https://www.coronavirus.in.gov/2524.htm>. Please be aware each site may have different criteria for testing.

The St. Joseph County Department of Health urges the continuation of the following actions:

- **Practice extreme physical distancing.**
 - Maintain at least 6ft between individuals.
 - Wearing a mask does NOT eliminate the need for physical distancing.
- **Practice frequent and proper hand hygiene & cough etiquette.**
 - Wash hands often, for at least 20 seconds, with soap & water; coughing and sneezing into your sleeve.
- **Stay home if ill.**
- **Abide by the current Public Health Order, requiring face coverings when going into an enclosed public space or business and when 6 feet of physical distance cannot be maintained within the enclosed public space or business.**

For more information on COVID-19, visit the Indiana State Department of Health at www.in.gov/isdh and the Centers for Disease Control and Prevention at www.cdc.gov. For general questions as it relates to COVID-19 infection, please call 2-1-1.
