Appendix A

February 6, 2025

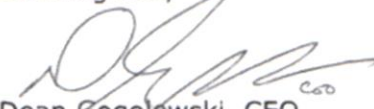

On behalf of the Wabash County YMCA, I am writing to request \$5,000 in funding from the Chronic Disease Prevention and Reduction Program to help improve access to wellness initiatives for individuals across Wabash County. This funding will play a pivotal role in supporting our mission to foster health and well-being within our community.

With the requested funds, we plan to implement a targeted initiative that offers a \$25 fee reduction for the first month of YMCA membership for 200 new membership units (not active members within the past 60 days) who qualify for financial assistance through the YMCA's income-based program. This reduction will further lower the initial barrier to entry, encouraging more individuals and families facing financial hardships, particularly those at risk for chronic diseases, to engage in regular physical activity and wellness programs. If, after 8 months, the majority of funds remain undistributed, we will extend this opportunity to the broader community.

By supporting this initiative, you will directly contribute to the prevention and management of chronic diseases in our community, empowering individuals to lead healthier, more active lives. Your partnership is vital in helping us expand our reach and make a meaningful difference in Wabash County.

Thank you for considering our request. We would be honored to partner with the Chronic Disease Prevention and Reduction Program to advance this important initiative. I look forward to the opportunity to discuss this further and explore how we can work together to improve health outcomes in our community.

Best regards,
