Preface

The Health Insurance Portability and Accountability Act (HIPAA) adopted standard transaction sets for Electronic Data Interchange (EDI) of health care data. Covered entities must adhere to the content and format requirements as defined in the ASC X12N implementation guides.

The Indiana Health Coverage Programs (IHCP) has developed this document to serve as a companion document to provide guidance and clarification as it applies to the IHCP. It is not intended to modify, contradict or reinterpret the rules established by the ASC X12N implementation guides.

1 TRANSACTION INSTRUCTION (TI) INTRODUCTION

1.1 BACKGROUND

1.1.1 OVERVIEW OF HIPAA LEGISLATION

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard HIPAA serves to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

1.1.2 COMPLIANCE ACCORDING TO HIPAA

The HIPAA regulations at 45 CFR 162.915 require that covered entities not enter into a trading partner agreement that would do any of the following:

- Change the definition, data condition, or use of a data element or segment in a standard
- Add any data elements or segments to the maximum defined data set
- Use any code or data elements that are marked "not used" in the standard's implementation specifications or are not in the standard's implementation specification(s)
- Change the meaning or intent of the standard's implementation specification(s)

1.1.3 COMPLIANCE ACCORDING TO ASC X12

ASC X12 requirements include specific restrictions that prohibit trading partners from:

- Modifying any defining, explanatory, or clarifying content contained in the implementation guide.
- Modifying any requirement contained in the implementation guide.

1.2 INTENDED USE

The Transaction Instruction component of this companion guide must be used in conjunction with an associated ASC X12 implementation guide. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 implementation guides and is in conformance with ASC X12's Fair Use and Copyright statements.

2 INCLUDED ASC X12 IMPLEMENTATION GUIDES

This table lists the X12N implementation guides for which specific transaction instructions apply and which are included in Section 3 of this document.

The associated ASC X12 TR3s are available at https://x12.org.
