Companion Guide Version Number: 5.8
Revision Date: March 2023

Preface

The Health Insurance Portability and Accountability Act (HIPAA) adopted standard transaction sets for Electronic Data Interchange (EDI) of health care data. Covered entities must adhere to the content and format requirements as defined in the ASC X12N implementation guides.

The Indiana Health Coverage Programs (IHCP) has developed this document to serve as a companion document to provide guidance and clarification as it applies to the IHCP. It is not intended to modify, contradict or reinterpret the rules established by the ASC X12N implementation guides.

1 INTRODUCTION

1.1 BACKGROUND

1.1.1 OVERVIEW OF HIPAA LEGISLATION

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard HIPAA serves to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

1.1.2 COMPLIANCE ACCORDING TO HIPAA

The HIPAA regulations at *Code of Federal Regulations 45 CFR 162.915* require that covered entities not enter into a trading partner agreement that would do any of the following:

- Change the definition, data condition or use of a data element or segment in a standard.
- Add any data elements or segments to the maximum defined data set.
- Use any code or data elements that are marked "not used" in the standard's implementation specifications or are not in the standard's implementation specification(s).
- Change the meaning or intent of the standard's implementation specification(s).

1.1.3 COMPLIANCE ACCORDING TO ASC X12

ASC X12 requirements include specific restrictions that prohibit trading partners from:

- Modifying any defining, explanatory or clarifying content contained in the implementation guide.
- Modifying any requirement contained in the implementation guide.

1.2 INTENDED USE

The Transaction Instruction component of this companion guide must be used in conjunction with an associated ASC X12 implementation guide. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 implementation guides and is in conformance with ASC X12's Fair Use and Copyright statements.

Maximum of two, listed most recent to least recent When multiple REF segments are reported with "Q4", the first iteration reports the active, linked IHCP Member ID. The subsequent iteration reports the inactive, prior Member ID that is linked to the active Member ID reported in the first iteration. The maximum number of linked Member IDs is two and is limited by the maximum number of five occurrences per the HIPAA IG. **HIP** Possible codes and descriptions: 3H – Represents the case number 23 – Represents the companion case number 6O – FTE Application ID ZZ – Represents the member's spouse's IHCP Member ID. 59	2000	DTP	Member Level Dates			
59	2000	DTP01	Date/Time Qualifier			**HHW / HCC / PACE** 473 – MCE Plan Roll-Up Begin 474 – MCE Plan Roll-Up End The qualifiers 473 and 474 are used for reporting the member's MCE related Roll-up effective date and end date based upon the reported PMP effective date range segment. **HIP** 300 – Enrollment Signature Date 303 – Maintenance Effective 473 – MCE Plan Roll-Up Begin 474 – MCE Plan Roll-Up End Qualifier 300 is used for conditionally eligible members only. It will indicate the date the member became conditionally eligible. Qualifier 303 is used to indicate the date a change to a member's information becomes effective. For conditionally eligible members, it is also used for terminations. If INS04 = 33, then 303 = POWER effective date. If INS04 = 22 or AI, then 303 = benefit effective date. The qualifiers 473 and 474 are used for reporting the member's MCE related Roll-up effective date and end date based upon the reported PMP effective date range segment. HIP members have a finite benefit period, typically twelve months in duration. Benefit period dates are important for POWER account reconciliation. Note that a member can have multiple POWER account dates and obligations within a benefit period span. HIP fully eligible members effective as of Jan. 1, 2018, will have benefit periods that begin Jan. 1 and end Dec. 31, regardless of their eligibility effective date or the dates of their subsequent redeterminations. **FTE** 300 – Enrollment Signature Date 303 – Maintenance Effective Qualifier 300 is used for the start date of a person FTE status. When INS03 = 001, qualifier 303 is used for the date a change to a person's information becomes effective. When INS03 = 024, it is used to report the termination end date.

						A second situational loop provides the Hoosier Healthwise Open Enrollment status. This status indicates whether the member is in an open enrollment period or not. An open enrollment status of "O" means the member is allowed to change MCEs without cause. An open enrollment status of "C" requires a just cause to change MCEs.
						
						HIP
						A second situational loop provides the HIP Potential Plus status for fully eligible members. If present, indicates the member is eligible for the HIP Plus benefit. The member's Plus category, FPL, POWER account amount, and the effective date of the potential plus segment are specified.
						
						New and ongoing segments use code 030 and include the effective date of the potential plus segment (DTP 348) and the end date of potential plus segment (DTP 348).
