

IHCP COVID-19 Response: IHCP announces additional temporary changes for provider enrollment

In response to the ongoing coronavirus disease 2019 (COVID-19) pandemic, the Indiana Health Coverage Programs (IHCP) is implementing additional temporary changes to provider enrollment procedures. All changes are effective for dates of service (DOS) on and after April 1, 2020, and extend through the duration of the public health emergency.

Group linkages for enrolled providers

The IHCP will allow enrolled rendering providers to participate with any currently enrolled group location without requiring the rendering provider to be linked to the group's service location enrollment. Providers should be aware that any claims requiring reprocessing after the conclusion of the emergency declaration may be denied.

Additional service locations

Enrolled rendering providers may bill for services through any enrolled service location. Services provided at a practice location that is not currently enrolled should be documented through provider records. Providers should include the place of service (POS) code that corresponds with the service location under which they are billing.

Enrolled hospitals that use alternative locations to perform services may continue to bill under the hospital's existing enrollment.

Medical students or residents

The IHCP will allow medical students or medical residents who are authorized to practice under Governor Holcomb's [Executive Order 20-13](#) to be reimbursed under a supervising practitioner's National Provider Identifier (NPI). Provider documentation must clearly indicate the services were performed by a medical student or medical resident.
