INDIANA HEALTH COVERAGE PROGRAMS BT202084 JUNE 30, 2020

July 2020 quarterly HCPCS code updates announced

The Indiana Health Coverage Programs (IHCP) has reviewed the Healthcare Common Procedure Coding System (HCPCS) code updates effective July 1, 2020, per the Centers for Medicare & Medicaid Services (CMS), to determine coverage and billing guidelines.

[Table 1](#) provides a list of new codes contained in the quarterly update, along with code descriptions, program coverage, prior authorization (PA) requirements, National Drug Code (NDC) requirements, and any special billing instructions. For reimbursement consideration, covered codes may be billed for dates of service (DOS) on or after July 1, 2020.

[Table 2](#) identifies new skin-substitute procedure codes reimbursed at a flat, statewide, per-unit rate, effective for DOS on or after July 1, 2020.

[Table 3](#) identifies newly covered codes from Table 1 for which separate reimbursement is allowed when billed with revenue code 636 – *Drugs requiring detailed coding for separate reimbursement in an outpatient setting*. For reimbursement consideration, providers may bill these procedure codes and the revenue code together, as appropriate, for DOS on or after July 1, 2020. *Revenue Codes with Special Procedure Code Linkages*, accessible from the [Code Sets](#) page at in.gov/medicaid/providers, will be updated with this information.

[Table 4](#) presents pricing for newly covered procedure codes that are manually priced.

[Table 5](#) identifies newly covered procedure codes to be carved out of managed care and reimbursed outside the diagnosis-related group (DRG).

[Table 6](#) identifies newly covered procedure codes that require PA and available PA criteria.

The July 1, 2020 quarterly HCPCS and Current Procedural Terminology (CPT) codes will be added to the claim-processing system. Established pricing will be posted on the appropriate IHCP Fee Schedule and updates will be made to the following code table documents on the [Code Sets](#) page at in.gov/medicaid/providers:

- *Physician-Administered Drugs Carved Out of Managed Care and Reimbursable Outside the Inpatient DRG*
- *Podiatry Services Codes*
- *Procedure Codes That Require NDCs*
- *Revenue Codes with Special Procedure Code Linkages*

The standard global billing procedures and edits apply to the new codes unless special billing guidance is otherwise noted. Reimbursement, PA, and billing information apply to services delivered under the fee-for-service (FFS) delivery

system. Questions about FFS PA should be directed to the DXC Prior Authorization Unit at 1-800-457-4584, option 7. Individual managed care entities (MCEs) establish and publish reimbursement, PA, and billing information within the managed care delivery system. Questions about managed care PA should be directed to the MCE with which the member is enrolled.

The July 1, 2020, quarterly HCPCS update also includes a list of deleted codes. These codes are available for reference or download from the [CMS website](#) at cms.gov. The CMS has not yet published the alternative codes associated with the deleted codes. After this information is announced by the CMS, the IHCP will issue a publication listing any IHCP covered codes that were deleted for which there are associated codes effective as of July 1, 2020.

The IHCP is awaiting the final posting of the CMS Outpatient Fee Schedule, which could affect pricing for some codes. The IHCP will issue a publication detailing any additional pricing information after final calculations are completed.
