INDIANA HEALTH COVERAGE PROGRAMS BT202191 OCTOBER 5, 2021

IHCP announces the Indiana Pregnancy Promise Program

On **July 1, 2021**, the Family and Social Services Administration (FSSA) launched the Pregnancy Promise Program, an initiative funded by the Centers for Medicare & Medicaid Services (CMS) and the Department of Health and Human Services (HHS).

The Pregnancy Promise Program is a free, voluntary program that aims to identify pregnant Medicaid beneficiaries with opioid use disorder (OUD) as early as

possible in their pregnancy. The program offers comprehensive case management and care coordination services during pregnancy and through 12 months postpartum. Pregnancy Promise Program case managers connect participants with prenatal and postpartum care, mental health support, OUD treatment and recovery services, and health-related social needs such as housing, nutrition services, transportation and other safety needs. To be eligible for the Pregnancy Promise Program, an individual must be pregnant or within 90 days of the end of their pregnancy, have current or past opioid use, and must be eligible for Medicaid health coverage.

Anyone can make a referral to the Pregnancy Promise Program by visiting the [Indiana Pregnancy Promise Program](https://www.in.gov/fssa/promise) page at [in.gov/fssa/promise](https://www.in.gov/fssa/promise) and completing the brief online referral form or by calling the toll-free number 888-467-2717 or local 317-234-5336. Individuals may self-refer to the program, or a family member, friend or loved one can make a referral on their behalf. Family support professionals and healthcare providers across Indiana are encouraged to refer individuals to the program.

For additional information regarding the program and referrals, visit the webpage listed above, email the program at PregnancyPromise@fssa.in.gov, or call using the phone numbers listed above.
