IHCP rescinds temporary provider enrollment changes

The Indiana Health Coverage Programs (IHCP) announced temporary changes to provider enrollment in *IHCP Bulletin BT202039*. Effective Oct. 1, 2023, the IHCP will reinstate the requirement that all rendering providers must be linked to all **group** enrollments' service locations to receive reimbursement. Rendering providers may only bill for services at a service location of an enrolled group provider to which they are linked.

Rendering providers that are not appropriately associated with a group enrollment after Oct. 1, 2023, will begin seeing claim denials with explanation of benefits (EOB) code 1010 – *Rendering provider is not an eligible member of billing group or the group provider number is reported as the rendering provider. Please verify provider number and resubmit.*

The IHCP is providing this additional notification and time frame to ensure that all provider linkages are completed timely. Providers are strongly encouraged to use this time to verify that all participating group enrollments accurately reflect all rendering providers associated with a practice. Group practices may add or remove rendering providers through the *Provider Maintenance* section of the [IHCP Provider Healthcare Portal](#) or as part of the revalidation process.

In addition to proper claim payment, rendering provider linkages are critical to ensuring that prescriptions from rendering providers are recognized for claim payment by a participating pharmacy. Prescriptions written from rendering providers that are associated with no active group will be denied.
