INDIANA HEALTH COVERAGE PROGRAMS BT2026181 OCTOBER 27, 2026

IHCP removes certain FQHC and RHC procedure codes as valid encounter codes

Effective immediately, the Indiana Health Coverage Programs (IHCP) will remove the Healthcare Common Procedure Coding System (HCPCS) codes in Table 1 as valid federally qualified health center (FQHC) and rural health clinic (RHC) encounter codes. This update will not affect claim processing, as these codes were nationally deleted codes **Dec. 31, 2025**. This change is effective for dates of service (DOS) on or after **Jan. 1, 2026**.

There are no changes to the certified community behavioral health clinics (CCBHCs) triggerable or nontriggerable code list for 2026.

The list of valid FQHC and RHC encounter codes and the CCBHC triggerable and nontriggerable codes are reviewed periodically to account for new and end-dated Current Procedural Terminology (CPT®¹) and HCPCS codes, and are available on the [Myers and Stauffer](https://myersandstauffer.com) website at myersandstauffer.com.

Table 1 – Procedure codes removed as valid FQHC and RHC encounter codes, effective for dates of service (DOS) on or after Jan. 1, 2026

Procedure code	Code description
D1352	<i>Preventive resin restoration in a moderate to high caries risk patient – permanent tooth</i>
D9248	<i>Non-intravenous conscious sedation</i>
