Reason Codes

Reason codes are used when making all Visit Maintenance changes or updates, including fixing exceptions and when making manual changes to visits. There is also the ability to add a note to provide additional clarification when reason codes are selected. For certain reason codes, the note may be required.

The table below lists the reason codes for the Indiana FSSA Program and if the code requires a note to be entered.

Note that reason code descriptions may be abbreviated for presentation on the Sandata EVV and Sandata Aggregator system.

Reason Code	Reason	Note Required?
10	Caregiver Error	No
20	Member Unavailable	No
30	Mobile Device Issue	No
40	Telephony Issue	No
50	Member Refused Verification	Yes
60	Service Outside the Home	No
99	Other	Yes

Tasks Performed

Tasks are the actual activities performed during the visit. The Sandata EVV system provides a standard task list across the program that the employee selects from to indicate tasks provided. The list of tasks cannot be limited by employee discipline or service.

- For the Sandata Mobile Connect application, the employee selects as many tasks as appropriate based on the Task Description column in the below table. For each selected task, the employee will specify if it was completed or refused by the client.
- For Sandata Telephony, the employee will select the tasks performed by entering the task ID. The system will validate their keypad entry and, if valid, read back the text in the 'Task Description' column.
