Waiver/Authority

The Healthy Indiana Plan (HIP) operates under a 1115(a) Medicaid demonstration waiver that provides authority for the State to provide healthcare coverage for adults between the ages of 19 and 64 through a managed care health plan and a consumer-directed model that provides an account, similar to a health savings account, called a Personal Wellness and Responsibility (POWER) Account. The Centers for Medicare & Medicaid Services (CMS) has granted a waiver of requirements under section 1902(a) of the *Social Security Act*. The demonstration is operating statewide, and a waiver extension was approved for a 10-year period, from Jan. 1, 2021, through Dec. 31, 2030.

With this demonstration waiver, Indiana expects to achieve the following to support the objectives of Title XIX:

- Promoting increased access to healthcare services
- Encouraging healthy behaviors and appropriate care, including early intervention, prevention and wellness
- Increasing quality of care and efficiency of the healthcare delivery system

HIP Program Overview

The HIP program is sponsored by the state of Indiana and provides an affordable healthcare choice to thousands of individuals throughout Indiana. Eligibility is limited to adults who meet all the following criteria:

- Between the ages of 19 and 64
- With income at or under 138% of the federal poverty level (FPL) (133% plus 5% disregard = 138%)
- Not on Medicare
- Do not qualify for any other Medicaid program

HIP is a managed care program with pharmacy and dental services, when applicable, carved into the managed care arrangement. Indiana offers HIP members a comprehensive benefit plan through a deductible health plan paired with a personal healthcare account called a POWER Account.

Under HIP, beneficiaries are served with specific benefit plans based on their aid category. The benefit plans are as follows:

- *HIP Plus*
- *HIP Basic*
- *HIP State Plan Plus*
- *HIP State Plan Basic*
- *HIP Maternity*
- *HIP Plus Copay*

See the [HIP Eligibility and Benefit Plans](#) section for specific coverage and eligibility information related to each benefit plan.

Individuals accepted for HIP are not fully eligible, nor enrolled as IHCP members, until one of the following occurs*:

- Payment of their first POWER Account contribution
- A \$10 Fast Track payment to the selected health plan (if applicable and approved for HIP)
- For individuals at or below 100% FPL, the expiration of the 60-day payment period

HIP-accepted members who are still in the initial 60-day payment period and who have not yet paid their Fast Track payment or first POWER Account contribution are referred to as *conditionally eligible*. Members who are conditionally eligible do not have any benefits until they move into a fully eligible aid category.

**Note: IHCP members transitioning into HIP from another IHCP program (for example, from Presumptive Eligibility or Package C – Children’s Health Insurance Plan) remain covered under their previous plan, with no gap in coverage, during the HIP conditional eligibility period.*

Fast Track Enrollment

Fast Track is a payment option that allows eligible Hoosiers to expedite the start of their coverage in the *HIP Plus* program. Fast Track allows a \$10 prepayment to be made while the application is being processed. The \$10 prepayment goes toward the applicant’s first POWER Account contribution. For applicants that make a Fast Track prepayment and are eligible for HIP, their *HIP Plus* coverage will begin the first of the month in which they made their Fast Track prepayment.

Coverage may occur in a different month from that in which payment was made in the following situations:

- If the member was previously covered under a different Medicaid category (for example, Family Planning or Presumptive Eligibility) and is transitioning to HIP
- If the member was not Fast Track eligible (did not complete redetermination)
- If the member paid an MCE other than the one two which that member was assigned

Individuals that do not make a credit card payment at the time of application will be invoiced by the managed care entity (MCE) to which they are assigned. From the date the Fast Track invoice was issued, individuals have 60 days to make either a Fast Track prepayment or their first POWER Account contribution to be able to begin *HIP Plus* coverage. For example, if an individual makes a Fast Track payment or initial POWER Account contribution in July, then the *HIP Plus* coverage will begin July 1. If the individual makes the contribution in August, *HIP Plus* coverage will begin Aug/ 1. If the individual allows the 60-day payment period to expire in August without making either a Fast Track prepayment or POWER Account contribution, then one of the following occurs:

- If the individual’s income is at or below 100% of the FPL, the coverage defaults to *HIP Basic* effective Aug. 1.
- If the individual’s income is over 100% of the FPL, that individual would not receive coverage and would have to reapply for HIP.

Presumptive Eligibility Adult members are eligible to make a Fast Track prepayment only if they submit a full IHCP application before the end of their presumptive eligibility period and meet other applicable Fast Track criteria. Presumptively eligible members who submit a full application and make a Fast Track prepayment will begin *HIP Plus* coverage beginning the first of the following month after approval.

Prior Authorization for Individuals with Fast Track Prepayment

IHCP providers that assist individuals with a HIP Fast Track prepayment can also submit a retroactive PA request for services after the individual has been determined fully eligible for benefits. This process applies only to individuals age 19 years through 64 years who **do not** pursue temporary coverage through Presumptive Eligibility and did submit an IHCP application with a Fast Track prepayment.

Providers must use the following process for inpatient stays to ensure that they can properly submit a retroactive PA request for individuals utilizing a Fast Track prepayment:

1. The provider must assist an individual in completing an application for health coverage.
2. As part of the application process, the provider will assist the individual with submitting a Fast Track prepayment.
3. After assisting with the application for health coverage, the provider must complete a *Fast Track Notification Form* (available on the [Forms](#) page at in.gov/medicaid/providers) and fax the form to the managed care entity (MCE) selected on the application. This process must be completed within five days of the date of admission. To locate the fax number for the applicable MCE, see the [IHCP Quick Reference Guide](#) at in.gov/medicaid/providers.
4. After eligibility has been established, the MCE will return a *Full Eligibility Notification Form* to the provider via fax. This form will contain the member's MCE assignment and Member ID (also known as RID). The notification will occur within seven days following eligibility discovery.
5. The provider will then be able to submit a PA request for the service rendered since the first day of the month of the Fast Track prepayment. **Providers must submit the PA request within 60 days of receiving the Full Eligibility Notification Form.** Providers must verify eligibility, using the IHCP Provider Healthcare Portal, prior to submitting the PA request.

If an individual is not determined fully eligible within 60 days of receiving the *Fast Track Notification Form*, the MCE receiving the information will stop tracking the individual's eligibility status.

Providers must agree not to submit a PA request or a claim for services rendered for the individual until the individual's full eligibility is determined by the State. Additionally, a Fast Track prepayment is not a guarantee of coverage or eligibility. All PA requests will continue to require all regular PA documentation standards.

HIP Benefit Plans – Eligibility, Coverage and Cost-Sharing

HIP members receive coverage under one of the following benefit plans:

- ***HIP Plus*** – This plan is available for all members enrolled in HIP who choose to make affordable monthly contributions to their individual POWER Account. Members enrolled in *HIP Plus* receive a more generous benefit package, including vision, dental and additional chiropractic services. Other than the monthly contribution, the members in *HIP Plus* have no additional cost-sharing responsibility except for a copayment for nonemergency use of the emergency department (ED), which is currently set at \$8.
- ***HIP Basic*** – This plan is for members with income at or below 100% FPL who fail to make a POWER Account contribution. *HIP Basic* has a more limited benefit package and does not cover vision or dental services unless the dental is for accident or injury. *HIP Basic* also has a more limited formulary for pharmacy benefits. *HIP Basic* requires the member to make copayments at the point of service for each service received from a provider. Copayments for services received are \$4 or \$8 for most services and prescriptions. There is a \$75 copayment for inpatient hospitalization and an \$8 copayment for a nonemergency ED visit. For details about these copayment amounts, as well as a list of exempt services, see [Table 1 – HIP Copayments](#).
- ***HIP State Plan Plus*** – This plan offers access to all benefits available under the State Plan. Members with this benefit plan have the same cost-sharing requirements as *HIP Plus*, must make monthly POWER Account contributions, and do not have copayments for services, except for an \$8 copayment for a nonemergency ED visit.

- **HIP State Plan Basic** – This plan offers access to all benefits available under the State Plan. Members with this benefit plan have the same cost-sharing requirements and copayments for all services as *HIP Basic* members.
- **HIP Maternity** – This plan offers access to all benefits available under the State Plan, with no cost-sharing requirements, for pregnant women who are enrolled in or determined eligible for HIP. HIP members with income at or below 138% FPL who become pregnant while in HIP will be covered under the *HIP Maternity* benefit plan beginning the first of the month following notification of pregnancy and will continue under that benefit plan until their 60-day postpartum coverage period is over.
- **HIP Plus Copay** – This plan offers the coverage of *HIP Plus* benefits but requires copayment for all services. Copayments match those for *HIP Basic* at \$4, \$8 or \$75. This limited-enrollment plan is reserved for members who are above 100% FPL but are medically frail and therefore do not lose benefits for failure to pay POWER Account contributions.

*Note: Members who go through the Presumptive Eligibility (PE) process and are found presumptively eligible based on HIP eligibility criteria are assigned to the **Presumptive Eligibility Adult (PE Adult)** benefit plan. The benefits and copayment requirements of PE Adult mirror those of HIP Basic. However, PE Adult coverage is provided under the fee-for-service delivery system, rather than through an MCE. For the duration of their PE period, claims (and prior authorization requests, when applicable) for PE Adult members must be submitted to Gainwell Technologies (or, for pharmacy services, to OptumRx). See the [Presumptive Eligibility](#) module for more information.*

Table 1 provides information about copayment requirements for HIP members.

Table 1 – HIP Copayments

| Service | Copayment Amounts | | |
|---|---|--------------------------------------|----------------------|
| | <i>HIP Basic, HIP State Plan Basic, HIP State Plan Plus Copay</i> | <i>HIP Plus, HIP State Plan Plus</i> | <i>HIP Maternity</i> |
| Outpatient services, including office visits | \$4 | None | None |
| Inpatient services, including hospital stays | \$75 | None | None |
| Preferred drugs | \$4 | None | None |
| Nonpreferred drugs | \$8 | None | None |
| Nonemergency ED visit | \$8 for the first occurrence | \$8 for the first occurrence | None |
| Services Exempt from Copay | | | |
| <p><i>Note: The following services are exempt from copayment requirements for all HIP members:</i></p> <ul style="list-style-type: none"> • <i>Preventive care services (for a list of applicable codes, see Preventive Care Services Excluded from Copayment for Healthy Indiana Plan and Presumptive Eligibility – Adult, accessible from the Code Sets page at in.gov/medicaid/providers)</i> • <i>Tobacco cessation drugs</i> • <i>Family planning services</i> • <i>Nonpharmacy services provided for an emergency health condition (Professional claims must include an emergency indicator at the detail level; outpatient claims must include an emergency diagnosis code; and inpatient claims must have admission type 1 or 5 or be a transfer with an admission source of 4.)</i> | | | |

Table 2 provides an overview of the benefits available under the HIP benefit plans. For more detailed information about the specific services covered under *HIP Plus* and *HIP Basic*, see Tables 3 through 69.

Table 2 – Benefit Coverage Summary for HIP Benefit Plans

| Benefit Category | HIP Basic | HIP Plus | HIP Maternity | HIP State Plan |
|---|------------------|-----------------|----------------------|-----------------------|
| Ambulatory Patient Services | X | X | X | X |
| Emergency Services | X | X | X | X |
| Urgent Care | X | X | X | X |
| Hospitalization | X | X | X | X |
| Maternity Care | X | X | X | X |
| Mental Health and Substance Use Disorder Services (Including Behavioral Health Treatment) | X | X | X | X |

| Chiropractic Spinal Manipulations | | X | X | X |
| Medicaid Rehabilitation Option | | | X | X |
| Nonemergency Transportation | | | X | X |
| * Note: The EPSDT benefit includes one routine vision exam and one routine dental exam per year for all 19- and 20-year-old members, including those enrolled in HIP Basic. | | | | |

HIP State Plan Plus, HIP State Plan Basic and HIP Maternity

HIP State Plan Plus and *HIP State Plan Basic* benefits are available to members who are medically frail or low-income parents and caretakers. *HIP Maternity* benefits are available to HIP-eligible members during pregnancy and 60 days postpartum.

Members with *HIP State Plan Plus*, *HIP State Plan Basic* or *HIP Maternity* receive Indiana State Plan level benefits, including MRO, nonemergency transportation, dental, vision and chiropractic care. The full list of services is available on the Indiana Medicaid member website at in.gov/medicaid/members (see Package A information on the [What Is Covered by Indiana Medicaid](#) page).

The cost-sharing requirements for these *HIP State Plan Plus* and *HIP State Plan Basic* members mirror those of the *HIP Plus* or *HIP Basic* program. *HIP Maternity* members are exempt from cost sharing requirements.

Medically Frail Individuals

Within the HIP-eligible population, the IHCP identifies those members who may be medically frail and provides enhanced coverage for those individuals who meet the medically frail criteria. HIP-eligible medically frail individuals are enrolled in one of the *HIP State Plan* options and receive comprehensive State Plan benefits equivalent to Package A benefits, including nonemergency transportation to medical appointments.

Federal regulation *42 CFR 440.315(f)* defines the *medically frail* as individuals with one or more of the following:

- Disabling mental disorder
- Chronic substance abuse disorder
- Serious and complex medical condition
- Physical, intellectual or developmental disability that significantly impair the individual's ability to perform one or more activities of daily living
- Disability determination based on Social Security Administration (SSA) criteria

Each MCE is responsible for identifying and verifying all its members who are medically frail. However, members with a disability determination based on SSA criteria or members who are confirmed by the Indiana State Department of Health to have human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS) are automatically confirmed medically frail by the State. The MCE is not responsible for verifying the medically frail designation of the members identified as such by the State, and these HIP members automatically qualify for enrollment into *HIP State Plan* benefits.

Pregnant Applicants

Pregnant applicants with a family income at or below 138% of the FPL and who meet all other HIP eligibility criteria will be enrolled in the *HIP Maternity* benefit plan, which provides full State Plan benefits, free of cost-sharing obligations.

Note: Pregnant applicants with income above 138% of the FPL and eligible for IHCP services will be enrolled in Hoosier Healthwise, with Package A – Standard Plan coverage, which provides the same benefits as HIP Maternity.

If members are already enrolled in HIP when they become pregnant, their coverage will be converted to the *HIP Maternity* benefit plan beginning the first of the month following notification of pregnancy and will continue under that benefit plan until their postpartum coverage period is over. The postpartum coverage period lasts at least 60 days from pregnancy termination date. HIP members retain coverage through the HIP program, under their existing MCE, during pregnancy and at redetermination as long as they continue to meet eligibility requirements.

Pregnant applicants enrolling in HIP may also be determined eligible for retroactive coverage for up to three months prior to their application date. If the applicant is eligible for retroactive coverage, the IHCP EVS will indicate *Package A – Standard Plan* as the member’s coverage during the retroactive time period, with no enrolling MCE indicated. Retroactive coverage is paid through the FFS delivery system.

HIP Plus and HIP Basic Benefit Plans

HIP benefits for *HIP Plus* and *HIP Basic* are based on approved alternative benefit plans. *HIP Plus* and *HIP Basic* are distinct benefit plans with different coverage, limitations and prior authorization (PA) requirements. For specific billing and coding information, refer to the member’s assigned MCE for directions.

Ambulatory Patient Services

The following tables summarize coverage of ambulatory patient services for *HIP Plus* and *HIP Basic* members. *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic* members receive State Plan benefits.

Table 3 – Primary Care Physician (PCP) Services – Office Visits

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Office visit services include supplies for treatment of the illness or injury, medical consultations, procedures performed in the physician’s office, second opinion consultations and specialist treatment services provided by the member’s PCP.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: None</p> | <p>For second opinion consultations, the MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • A planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 4 – Specialty Physician Visits

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Referral physician office visits are included.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: None</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • A planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 5 – Home Health Services

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Services include:</p> <ul style="list-style-type: none"> • Skilled medical services • Nursing care given or supervised by a registered nurse • Nutritional counseling furnished or supervised by a registered dietician • Home hospice services • Home health aides • Laboratory services, drugs and medicines prescribed by a physician in connection with home health care • Medical social services <p>Home hospice services are considered a separate service.</p> <p>Within the benefit, training of family members to provide home health services is noncovered.</p> <p>Amount/Duration Limit: 100 visits per year</p> <p>Scope Limit: Services are covered only if not considered custodial care and are prescribed in writing by a participating physician as medically necessary, in place of inpatient hospital care or convalescent nursing home, and services provided under physician’s care.</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • A planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 6 – Outpatient Surgery

| HIP Plus and HIP Basic | |
|--|--|
| Coverage and Limits | Authorization Requirements |
| <p>Outpatient medical and surgical hospital services are covered when medically necessary. Includes diagnostic invasive procedures that may or may not require anesthesia.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: None</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • A planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 7 – Allergy Testing

Maternity and Newborn Care

The following table summarizes coverage of maternity services for *HIP Plus* and *HIP Basic* members, which mirrors the maternity coverage available under *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic*.

This table does not include all covered services available to pregnant HIP members. Members enrolled in the *HIP Maternity* benefit plan receive the full range of State Plan benefits during their pregnancy and for 60 days postpartum. Newborn coverage is not included in HIP. Newborns born to members will be covered through Medicaid for children.

Table 33 – Obstetric Care

| HIP Plus and HIP Basic | |
|--|--|
| Coverage and Limits | Authorization Requirements |
| <p>Coverage is provided from the State Plan under the physician benefit and includes various obstetrical services, such as antepartum and postpartum visits, laboratory and X-ray (ultrasound) services and other services as medically necessary and appropriate.</p> <p>The benefit provides for antepartum services up to 14 visits for normal pregnancies. High-risk pregnancies may allow for additional visits.</p> <p>Postpartum services include two visits within 60 days of delivery.</p> <p>Amount/Duration Limit: Limits equivalent to State Plan</p> <p>Scope Limit: None</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Mental Health and Substance Use Disorder Services Including Behavioral Health Treatment

The following tables summarize coverage of mental health and substance use disorder (SUD) services including behavioral health treatment services for *HIP Plus* and *HIP Basic* members. *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic* members receive State Plan benefits.

Table 34 – Mental/Behavioral Health – Inpatient

| HIP Plus and HIP Basic | |
|--|--|
| Coverage and Limits | Authorization Requirements |
| <p>Benefits include evaluation and treatment in a psychiatric day facility and electroconvulsive therapy. Coverage may also include partial hospitalization depending on the type of services provided.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: Benefit does not include:</p> <ul style="list-style-type: none"> • Hypnotherapy, behavioral modification or milieu therapy, when used to treat conditions that are not recognized as mental disorders • Personal comfort items • Room and board when temporary leave available | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |
| <p><i>Note: Effective Jan. 1, 2020, coverage of acute inpatient stays in facilities that qualify as IMDs is extended to include members 21 through 64 years of age who are diagnosed with serious mental illness (SMI). PA is required for all inpatient stays. Length of stay will be authorized based on medical necessity. The IHCP will be required to achieve a statewide average length of stay of no greater than 30 days, and reimbursement will not be available for inpatient stays longer than 60 days.</i></p> | |

Table 35 – Mental/Behavioral Health – Outpatient

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Coverage applies to individual therapy and group therapy sessions. Benefit may also include partial hospitalization depending on the type of services provided.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: Coverage does not include:</p> <ul style="list-style-type: none"> • Self-help training or other related forms of nonmedical self-care • Marriage counseling • Hypnotherapy, behavioral modification or milieu therapy, when used to treat conditions that are not recognized as mental disorders | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 36 – Substance Abuse Inpatient Treatment

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Benefit does not include:</p> <ul style="list-style-type: none"> • Services and supplies for the treatment of codependency or caffeine addiction • Personal comfort items • Room and board when temporary leave permitted <p>Benefit includes detoxification for alcohol or other drug addiction. Coverage may also include partial hospitalization depending on the type of services provided.</p> <p>Amount/Duration Limit: Up to 15 days in a calendar month</p> <p>Scope Limit: Members 21 through 64 years of age in facilities that qualify as IMDs. Members can be authorized for up to 15 days in a calendar month.</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |
| <p><i>Note: The limit of 15 days per month applies only for stays in an IMD (psychiatric facility with more than 16 beds) and only to members ages 21–64. There is no set limit on the length of a substance-abuse stay in a facility that is not in an IMD (such as an acute care hospital or psychiatric hospital with 16 beds or fewer), nor is there a fixed limit for length of stay in an IMD for members under age 21 or over age 64.</i></p> | |

Table 37 – Substance Abuse Outpatient Treatment

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Coverage includes detoxification for alcohol or other drug addiction. Benefit may also include partial hospitalization depending on the type of services provided.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: Benefit does not include services and supplies unrelated to mental health for the treatment of codependency or caffeine addiction.</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Prescription Drugs

The following table summarizes coverage of prescription drugs for *HIP Plus* and *HIP Basic* members. *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic* members receive State Plan benefits.

Table 38 – Prescription Drugs

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>The prescription drug benefit will cover at least one drug in every category and class or the number of drugs covered in each category and class as the base benchmark, whichever is greater.</p> <p>The <i>HIP Basic</i> formulary must support the coverage and noncoverage requirements for legend drugs by Indiana Medicaid, found in <i>405 IAC 5-24-3</i>. Prescription supply is limited to 30 days.</p> <p>The <i>HIP Plus</i> formulary includes the coverage for all the drugs in the <i>HIP Basic</i> formulary and provides additional enhanced benefits that include the following:</p> <ul style="list-style-type: none"> • Access to many brand-name drugs without prior authorization requirements • 90-day prescription supplies • Mail-order pharmacy benefit • Medication Therapy Management (MTM) services • No copayment for any filled prescription <p>The exact drugs covered under the formularies may vary by MCE.</p> <p>Prescription Drug Limits: Limit on days supply, limit on number of prescriptions, limit on brand drugs, other coverage limits, preferred drug list.</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of need for prescription related to the medical needs of the member • A planned course of treatment, if applicable, as related to the number of prescriptions provided and duration of treatment <p>PA requirements for prescription drugs may vary by MCE but will comply with Mental Health Parity requirements. MCEs will be required to have a process in place to allow drugs that are medically necessary but not included on the formulary to be accessed by members.</p> |

Rehabilitative and Habilitative Services and Devices

The following tables summarize coverage of rehabilitative and habilitative services and devices for *HIP Plus* and *HIP Basic* members. *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic* members receive State Plan benefits.

Table 39 – Physical Therapy, Occupational Therapy and Speech Therapy – Outpatient

| HIP Plus and HIP Basic | |
|--|--|
| Coverage and Limits | Authorization Requirements |
| <p>Amount/Duration/Limit:</p> <ul style="list-style-type: none"> <i>HIP Basic:</i> As an outpatient benefit, coverage is limited to 60 combined visits annually for physical therapy, occupational therapy, speech therapy, cardiac rehabilitation and pulmonary rehabilitation. <i>HIP Plus:</i> As an outpatient benefit, coverage is limited to 75 combined visits annually for physical therapy, occupational therapy, speech therapy, cardiac rehabilitation and pulmonary rehabilitation. <p>Scope Limit: Rehabilitative and habilitative services are offered at parity and have distinct benefit limits. <i>HIP Basic</i> coverage does not include nonsurgical treatment of TMJ. (See Table 68 – TMJ Treatment Services for the <i>HIP Plus</i> benefit.)</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> General member information A justification of services rendered for the medical needs of the member Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |
| <p><i>Note: Habilitative services are not covered for members 21 years of age and older. For members under 21 years of age, habilitative services are covered on a case-by-case basis subject to PA.</i></p> | |

Table 40 – Durable Medical Equipment (DME)

| HIP Plus and HIP Basic | |
|---|--|
| Coverage and Limits | Authorization Requirements |
| <p>Benefit includes but is not limited to:</p> <ul style="list-style-type: none"> • Wheelchairs • Crutches • Respirators • Traction equipment • Hospital beds • Monitoring devices • Oxygen-breathing apparatus • Insulin pumps <p>Training for use of DME and applicable rental fees are also covered.</p> <p>Covered services are only for the basic type of DME necessary to provide for medical needs and do not include nondurable supplies that are not an integral part of the DME setup.</p> <p>Amount/Duration/Limit: 15-month rental cap; one every five years per member – replacement</p> <p>Scope Limit: DME does not include:</p> <ul style="list-style-type: none"> • Corrective shoes • Arch supports • Dental prostheses • Deluxe equipment • Common first-aid supplies • Nondurable supplies <p>Other noncovered services include but are not limited to equipment not suitable for home use.</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • A justification of services rendered for the medical needs of the member • Planned course of treatment, if applicable, as related to the number of services provided and duration of treatment |

Table 41 – Prosthetics

Preventive and Wellness Services and Chronic Disease Management

The following tables summarize coverage of preventive and wellness services and chronic disease management for *HIP Plus* and *HIP Basic* members. *HIP Maternity*, *HIP State Plan Plus* and *HIP State Plan Basic* members receive State Plan benefits.

HIP preventive care services may be updated at any time, and any age- and gender-appropriate preventive care service can be obtained to qualify a member for rollover.

For procedure codes that are exempt from copayment, see *Preventive Care Services Excluded From Copayment for HIP and PE Adult*, accessible from the [Code Sets](http://in.gov/medicaid/providers) page at in.gov/medicaid/providers. These services are also not deducted from POWER Accounts for members in *HIP Plus*, *HIP State Plan Plus*, *HIP State Plan Basic* and *HIP Maternity*.

Table 58 – Preventive Care Services

| Coverage and Limits | Authorization Requirements |
| <p>State Plan benefit. Coverage includes treatment of temporomandibular joint (TMJ) disorder.</p> <p>Amount/Duration Limit: None</p> <p>Scope Limit: None</p> | <p>For authorization, MCEs may require prior authorization requirements such as:</p> <ul style="list-style-type: none"> • General member information • Documentation of nonsurgical treatment and duration prior to surgery • Justification of services rendered for the medical needs and circumstances of the member |
| <p><i>*Note: HIP Basic coverage does not include surgical or nonsurgical treatment of TMJ disorder.</i></p> | |

Table 69 – Bariatric Surgery

| HIP Plus* | |
|---|---|
| Coverage and Limits | Authorization Requirements |
| <p>State Plan Benefit. To be eligible for bariatric surgery benefits, the <i>HIP Plus</i> member must meet one of the following criteria:</p> <ul style="list-style-type: none"> • Have morbid obesity that has persisted for at least five years’ duration, and physician-supervised nonsurgical medical treatment has been unsuccessful for at least six consecutive months • Successfully achieved weight loss after participating in physician-supervised nonsurgical medical treatment but has been unsuccessful at maintaining weight loss for two years (> 3 kg [6.6 lb.] weight gain) <p>Duration/Scope Limit: None</p> | <p>MCEs may establish PA requirements such as:</p> <ul style="list-style-type: none"> • General member information • Physician documentation • Documentation of attempt to follow nonsurgical treatment and duration prior to surgery • Documentation of pre- and post-operative expectations • Behavioral health evaluation • Consultation reports from other specialists • A justification of services rendered for the medical needs and circumstances of the member <p>Benefit does not include personal comfort items (including those services and supplies not directly related to care, such as guest meals, accommodations or personal hygiene products) or room and board when temporary leave permitted.</p> |
| <p>*Note: <i>Bariatric surgery is not a covered benefit in HIP Basic.</i></p> | |

Managed Care Entities

All HIP beneficiaries are enrolled to receive services through an MCE under contract to the State. The MCEs that manage HIP are as follows: Anthem, Managed Health Services (MHS), MDwise and CareSource.

The MCEs are subject to the federal laws and regulations as specified in *Code of Federal Regulations 42 CFR Part 438*. The HIP beneficiary will be given an opportunity to select an MCE at the time of application. A HIP beneficiary who does not make an MCE selection at the time of application may be auto-assigned to a HIP MCE by the State. Except in cases of presumptive eligibility, auto-assignment may occur after the date on which the State made the eligibility determination.

The State may adjust the auto-assignment methodology. The State may consider assignment to one of the following:

- Lowest-cost MCE
- MCEs that demonstrate higher quality scores or better health outcomes
- MCEs on a rotating basis

Any change to the auto-assignment methodology must be approved by the CMS before implementation. New beneficiaries will be advised both at the time of application, and upon receiving an initial invoice, of the auto-assignment and their right to change MCEs prior to making their first POWER Account contribution. The notice to beneficiaries will include information on the process to change MCEs.

The State contracts with an enrollment broker, MAXIMUS, to assist interested applicants with their MCE selection so they can make an informed decision. The enrollment broker will provide the applicant with appropriate counseling on the full spectrum of available MCE choices and will address any questions the applicant may have. After an MCE has been selected and the beneficiary has made either their Fast Track prepayment or first POWER Account contribution, or has begun coverage in *HIP Basic* after nonpayment,

the beneficiary is required to remain with that MCE for the calendar year, even if they leave the HIP program and return. Beneficiaries may change their MCE for the following calendar year during MCE selection period between Nov. 1 and Dec. 15 by calling MAXIMUS at 877-GET-HIP-9 (877-438-4479).

MCE Welcome Packet and Member ID Cards

Within five calendar days of a new member’s full enrollment, the MCE will send the new member a Welcome Packet. The Welcome Packet will include a new member letter, explanation of where to find information about the MCE’s provider network, a copy of the member handbook and the member’s ID card.

The member ID card must include the member’s IHCP Member ID (also known as RID), as well as the applicability of cost-sharing. Specifically, at minimum, the card must indicate emergency services copayments and other copayments that may apply and direct the provider to call the MCE for specific amounts.

The Welcome Packet must also include educational materials about unique features of the program, including but not limited to the following:

- POWER Account
- Member required cost-sharing
- Nonpayment penalties
- POWER Account rollover, including the recommended preventive care services for the member’s benefit year
- If applicable, general information regarding the importance of timely completion of the comprehensive health assessment for members initially identified on the application as potentially medically frail

Figures 1 through 4 show some sample HIP member cards for each MCE.

Figure 1 – Sample Anthem HIP Member Card

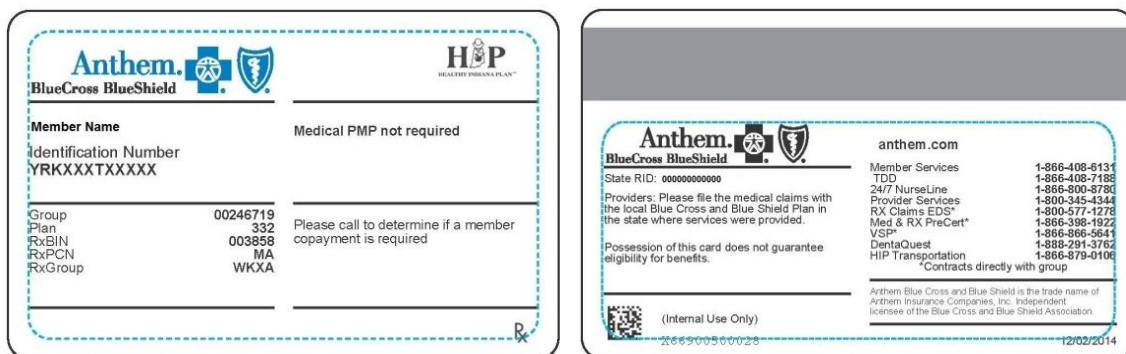

Figure 2 – Sample MHS HIP Member Card

Figure 3 – Sample MDwise HIP Member Card

Figure 4 – Sample CareSource HIP Member Card

Carved-In Services

Pharmacy services, as well as vision and dental services, when applicable, are carved in to the HIP managed care arrangement.

Dental Services

Dental services are provided only to *HIP Plus* members who are making monthly contributions to their POWER Account, *HIP State Plan (Plus or Basic)* members and *HIP Maternity* members. Dental benefits are provided by the MCE and may be subcontracted to a dental benefit manager (DBM). See the MCE website for the appropriate DBM.

Vision Services

Vision services are provided only to *HIP Plus* members who are making monthly contributions to their POWER Account, *HIP State Plan (Plus or Basic)* members and *HIP Maternity* members. Vision benefits are provided by the MCE and may be subcontracted to a vision services provider. See the MCE website for the appropriate information.

Pharmacy Services

Pharmacy benefits are provided by the MCE and may be subcontracted to a pharmacy benefit manager (PBM). The MCEs are responsible for managing this vendor and coordinating the benefits. Each MCE has its own contract with the PBM of their choice. See the [IHCP Quick Reference Guide](#) for each MCE's pharmacy contact information.

Designated drugs may be carved out (see the [Carved-Out Services](#) section).

Carved-Out Services

Certain services are carved out of the HIP managed care program, meaning that they are the financial responsibility of the State. For carved-out services, providers should follow fee-for-service (FFS) procedures for PA and billing.

Carved-out services include the following:

- Services provided by a school corporation as part of a student's Individualized Education Program (IEP)
- First Steps services
- Designated drugs (see the [Designated Drugs](#) section)
- Crisis intervention services
- Medicaid Rehabilitation Option (MRO) services (see the [Medicaid Rehabilitation Option \(MRO\) Services](#) section)
- 1915(i) State Plan Home- and Community-Based Services (HCBS), provided through the Family and Social Services Administration (FSSA) Division of Mental Health and Addiction (DMHA), including:
 - Adult Mental Health and Habilitation (AMHH) services
 - Behavioral and Primary Healthcare Coordination (BPHC) services
 - Child Mental Health Wraparound (CMHW) services
- Comprehensive environmental lead investigation (initial and follow-up services) provided by a county health department to members with a confirmed elevated blood lead level

Designated Drugs

Certain drugs (such as all covered hepatitis C drugs) are carved out of the managed care medical and/or pharmacy benefit and reimbursed as FFS for all IHCP members, including those enrolled in HIP.

For a complete list of drugs that are carved out of managed care for **medical claims**, see *Physician-Administered Drugs Carved Out of Managed Care and Reimbursable Outside the Inpatient Diagnosis-Related Group*, accessible from the [Code Sets](#) page at in.gov/medicaid/providers. Medical claims for these drugs (and PA requests, if applicable) should be submitted to Gainwell.

For a complete list of drugs that are carved out of managed care for **pharmacy claims**, see *Drug Therapies Carved-Out of the Managed Care Pharmacy Benefit*, accessible from the Carved-out Pharmacy Benefit Drugs quick link on the [OptumRx Indiana Medicaid website](#). Pharmacy claims for these drugs (and PA requests, if applicable) should be submitted to OptumRx, the FFS pharmacy benefit manager.

Note: Pharmacy providers should refer to the Indiana Medicaid Preferred Drug List (PDL) for information regarding preferred status and PA requirements for hepatitis C agents and other carved out drugs. The FFS PDL and PA criteria are available on the OptumRx Indiana Medicaid website, accessible from the [Pharmacy Services](#) page at in.gov/medicaid/providers.

Medicaid Rehabilitation Option (MRO) Services

The IHCP covers MRO services provided to HIP members receiving *HIP State Plan (Plus or Basic)* or *HIP Maternity* benefits. These services are carved out of managed care and reimbursed to community mental health centers (CMHCs) under the FFS delivery system. MCEs are not responsible for claim reimbursement for such services. However, the MCEs are responsible for ensuring care coordination with physical and other behavioral health services for individuals receiving MRO services. The MCE must provide all medically necessary community-based, partial hospital, and inpatient hospital behavioral health services.

HIP State Plan Basic member copayment obligations are deducted automatically during claim adjudication; CMHCs are reminded to collect copayments at the time of service.

Nursing Facility Placement

Effective for reported dates of admission on or after Oct. 1, 2019, when an HIP member moves into a nursing facility, it is a reported change (also referred to as a verified or positive change). Any nursing facility admission or discharge of an IHCP member enrolled in HIP must be reported to both the Division of Aging (DA) and the Division of Family Resources (DFR) within **10 days** of the event.

Nursing facilities must report the admission of a HIP member as follows:

- **To the DA** by completing the Preadmission Screening and Resident Review (PASRR) process and reporting the member's level of care (LOC) using the [Path Tracker tool](#) at assessmentpro.com.
- **To the DFR** via the online [FSSA Benefits Portal](#), by faxing 800-403-0864 or by mail to the local DFR office. To find your DFR office contact information, visit the [DFR Benefits Information](#) page at in.gov/fssa/dfr. The following information must be provided:
 - Member's full name
 - Medicaid Member ID (also known as RID)
 - Social Security number
 - Date of birth
 - Admission date
 - Name and address of the nursing facility

A HIP member can be admitted to a nursing facility and remain enrolled in the HIP program; however, coverage of skilled nursing care for HIP members is limited to 100 days. Stays beyond this limit will require the member's enrollment to be transitioned from HIP to an FFS aid category and benefit plan, as described in the following section, to continue Medicaid coverage.

All nursing facility stays for HIP members require PA. If a member's stay is expected to extend beyond the time frame originally prior authorized by the MCE, the provider should request an extension of the PA from the MCE before the original PA expires to allow time for assessment and possible transition to FFS coverage. If the member is ultimately approved for FFS coverage, that coverage may be backdated to the

first of the month after the admission was reported (assuming that the provider reported the admission within the required 10-day time frame).

Note: Providers should understand that reporting admission of a HIP member to the nursing facility will not automatically change the aid category and benefit plan for the member.

Transitioning to FFS for Extended Nursing Facility Stays

To be transitioned from HIP to FFS Traditional Medicaid, HIP members must be determined as disabled per the definition used by the Social Security Administration and must qualify under the income and resource limits associated with FFS benefits under the applicable aid category.

After the Social Security Administration or Medical Review Team (MRT) completes a disability determination, the member's coverage can be transitioned from the managed care delivery system to the FFS delivery system effective on the first day of the month following the DFR's receipt of the report of admission.

The following steps outline the process that providers, members and authorized representatives should follow to transition a member from HIP to FFS coverage:

1. The provider submits written notice of the nursing facility admission within 10 days of the admission to both of the following agencies:
 - To the DA through the [Path Tracker tool](#) at assessmentpro.com.
 - To the DFR via the online [FSSA Benefits Portal](#), by faxing 800-403-0864 or by mail to the local DFR office. To find your DFR office contact information, visit the [DFR Benefits Information](#) page at in.gov/fssa/dfr.
2. The member or authorized representative contacts the DFR to request the transition to FFS coverage and request an eligibility interview. *(This step should occur at the same time as the provider performs step 1.)*
3. After the transition process has been completed and the member has been awarded FFS coverage, the member and authorized representatives will receive a benefit award letter indicating the start date for the FFS coverage.

The following additional steps may be required to backdate the FFS start date:

4. If the benefit award letter indicates that FFS coverage will begin the month following the *disability determination*, the nursing facility may need to call the DFR to request that the FFS coverage start date be backdated to the month following the *report of admission* (that is, to the first day of the month after the DFR received the reported change from the nursing facility).

Note: If a member's admission to a nursing facility was not reported to the DA and the DFR within 10 days, the FFS start date cannot be backdated.

5. After the start date has been backdated, the DFR will send a second benefit award letter indicating the new FFS coverage start date.
6. If a new award letter verifying the revised start date is not received within three weeks of the nursing facility requesting the coverage be backdated, the provider should email the appropriate [DFR regional mailbox](#) to escalate the issue.
7. If the coverage is not appropriately backdated after an additional three weeks, the provider can contact the Office of Medicaid Policy and Planning (OMPP) Provider Relations team at OMPPProviderRelations@fssa.in.gov.

Billing for Extended Nursing Facility Stays

While awaiting a resident's transition from HIP to FFS, providers should bill the member's MCE for nursing facility days that the MCE prior authorized. For days beyond what the MCE authorized, providers should wait until after the transition to FFS is complete, and then submit claims for those dates to Gainwell. If waiting for FFS coverage causes the claim to exceed timely filing limits, the provider must enter a claim note indicating: **"Retroactive eligibility – FFS eligibility was backdated."**

If the FFS coverage gets backdated to include dates that have already been billed to the MCE, providers should refund what the MCE paid and then re-bill those dates to Gainwell.

Reimbursement Rate

The reimbursement rate is the amount of reimbursement MCEs pay to providers participating in HIP. This amount is established by the FSSA secretary and is based on a Medicaid reimbursement formula, which is comparable to one of the following:

- The federal Medicare reimbursement rate for the service provided
- For a service that does not have a Medicare reimbursement rate, 130% of the Medicaid reimbursement rate

Hospital Assessment Fee

HIP is funded in part through Indiana's existing cigarette tax revenues that support the current HIP program, as well as funds from the Hospital Assessment Fee (HAF). The HAF program began in 2011 and was extended to include HIP in 2016. The HAF program is currently effective through June 30, 2021.

The HAF is assessed against all licensed acute hospitals and private psychiatric hospitals. The HAF was designed to increase hospital inpatient and outpatient reimbursement to align with the level of payment that would be paid under the federal Medicare program. The State also maintains a share of the HAF assessment to cover costs related to the Medicaid program. MCEs are responsible for maintaining their own list of HAF-eligible facilities.

The HAF payment distributions include increased reimbursement to eligible hospitals for services provided to IHCP members, including presumptively eligible members. HIP MCEs apply HAF adjustment factors accordingly when adjudicating claims. Non-HAF-eligible hospitals continue to be reimbursed applying current rates and methodologies. For more information and for adjustment factors for inpatient and outpatient rates, see the [Hospital Assessment Fee](#) module.

HAF-Adjusted Reimbursement for Inpatient Hospital Services

HAF-eligible hospitals are reimbursed for inpatient hospital services rendered to all HIP members using the Medicaid All-Patient Refined Diagnosis-Related Group (APR-DRG) or LOC methodology, as appropriate, with the HAF adjustment factors applied. Indiana Medicaid Medical Education payments are paid separately.

HAF-Adjusted Reimbursement for Outpatient Hospital Services

HAF-eligible hospitals are reimbursed for outpatient hospital services rendered to HIP members as follows:

- HIP expansion population: Reimbursement is based on Medicare rates.
- HIP low-income parent and caretaker population: Reimbursement is based on 130% of Medicaid rates.

A separate payment is made to account for the difference between the initial base reimbursement and the enhanced HAF-adjusted amount. HAF-eligible hospitals are reimbursed for outpatient hospital services rendered to all HIP members using the Medicaid rate methodology with the HAF adjustment factors applied directly to the claim payment. Reimbursement for outpatient laboratory services, defined as the procedure codes listed on the Medicare Clinical Laboratory Fee Schedule, are not subject to the HAF increase due to federal payment limitations. The HAF adjustment factor applies to outpatient hospital claim detail lines.
