

MANAGEMENT PERFORMANCEHUB

The Indiana Management Performance Hub (MPH) is changing the culture of how state agencies work together and how they interact with external partners. MPH combines a collaborative and innovative approach with industry-leading technical innovation to facilitate data-driven decision making and data-informed policy making.

SUPPORT STATE AGENCIES

MPH partners with other state agencies to help them manage their performance, and save Hoosier lives, time and money.

TWO-PRONG MISSION

SUPPORT EXTERNAL PARTNERS

MPH serves many entities from our unique place in state government. We facilitate governmental and non-governmental partnerships around data.

How do I get started?
