Re: Updated Online Compliance Training

In 2012, IHCDCA worked with Elizabeth Moreland Consulting, Inc./Housing Credit College to launch an online tax credit compliance training course specific to IHCDCA's rules and requirements entitled "Housing Credits 300: Compliance Basics for Indiana Properties."

An updated version of this course is now available in the online [Housing Credit Training Center](#). Registration for the course is still only \$49.

All training content has been reviewed and approved by IHCDCA. However, registration and technical assistance is not available directly through IHCDCA, nor does IHCDCA receive any registration fees. Registration questions or online troubleshooting should be directed to the Housing Credit College support staff.
