## INTRODUCTION

---

The 2014 Annual List of Obligated Projects is a list of transportation projects in the Northwestern Indiana Regional Planning Commission (NIRPC) planning area for which Federal funds were obligated during State Fiscal Year (SFY) 2014 (July 1, 2013 to June 30, 2014).

The joint transportation planning regulations of the U.S. Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), published at 23 CFR 450.322, require that "...an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP)."

An "obligation" is the Federal government's legal commitment to pay the Federal share of a project's cost. A project on one of these lists has been authorized for funding by a Federal agency. These projects are not necessarily initiated or completed in the program year, and the amount obligated will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. For Federal Highway Administration projects, fund obligation occurs when a project agreement is executed and the State requests that the funds be obligated.

NIRPC is the metropolitan planning organization for the Indiana portion of the Chicago Urbanized Area and the Indiana portion of the Michigan City-LaPorte Urbanized Area. The NIRPC region includes Lake, Porter and LaPorte counties in Indiana. This list was produced by NIRPC in cooperation with the Indiana Department of Transportation and the transit operators of the three counties.

## Summary Information

for the 2013 report and the prior two reports

Comparison with Prior Reports	Prior Year Report		Prior Year Report		This Report	
	2012		2013		2014	
	Funds Obligated	Number of Projects	Funds Obligated	Number of Projects	Funds Obligated	Number of Projects

<b>DES Number</b>	A unique identifying number for the specific project. If communicating with INDOT or FHWA regarding a project, refer to this number.
<b>Phase Codes</b>	
PE - Preliminary Engineering	Design work for the project, including NEPA and other approvals.
RW - Right of Way	Acquisition of land or easements and/or damages to property owners. Also includes Title searches.
CN - Construction, including Construction Engineering (CE)	Actual construction work, including Construction Engineering (CE).
Construction Engineering (CE)	This expense is for an engineer to oversee construction to ensure that it is built as designed.
Utility Relocation Costs	This expense is for relocation of utilities that are in the construction zone.
Railroad Involvement Costs (PE, RW, CN)	Payments to railroads whenever the construction activity encroaches upon railroad property or directly involves improvement of rail crossings.
FTA - Federal Transit Administration	Grant funds awarded to the project sponsor by FTA.
<b>Mode</b>	
Bike/Ped	Projects that consist solely of the construction of bicycle and pedestrian projects.
Highways - Local	Locally-implemented roadway improvement projects.
Highways - State	State-implemented roadway improvement projects.
Transit - Bus	Local bus transit projects.
Transit - Commuter Bus	Commuter bus transit projects.
Transit - Commuter Rail	Commuter rail transit projects.
Transit - Planning and Oversight Projects (NIRPC)	NIRPC-sponsored planning and oversight projects.
<b>Phase Codes</b>	
Preliminary Engineering (PE)	Indicates that federal funds were used to help pay for the design of the project.
Right of Way (RW)	Indicates that federal funds were used to help pay for land or easements and/or damages to property owners.
Construction (CN)	Indicates that federal funds were used to pay for actual construction work.
Construction Engineering (CE)	This expense is for an engineer to oversee construction to ensure that it is built as designed.
Utility Relocation Costs	This expense is for relocation of utilities that are in the construction zone.
Railroad Involvement Costs	Payments to railroads whenever the construction activity encroaches upon railroad property or directly involves improvement of rail crossings.
